

Resolution No. 2017-07-25-1501

STOCKTON CITY COUNCIL

PUBLIC HEARING: RENEWAL OF THE DOWNTOWN STOCKTON PROPERTY AND BUSINESS IMPROVEMENT DISTRICT

The Property and Business Improvement District Law of 1994, Streets and Highways Code section 36600 *et seq.* authorizes cities to renew property and business improvement districts upon petition by a weighted majority of property owners within the renewed district and affirmative ballot; and

A majority of the property owners subject to assessment, weighted according to the amount of assessment to be paid by each property owner, have petitioned the City Council to renew the Downtown Stockton Property and Business Improvement District ("DSPBID"); and

On May 23, 2017, the City Council adopted Resolution No. 2017-05-23-1401, which was the Resolution of Intention to renew the DSPBID; and

On July 25, 2017, the City Council conducted a public hearing at 5:30 PM at 425 N. El Dorado Street, 2nd Floor, Stockton, CA 95202, with respect to the renewal of the DSPBID; and

All written and oral protests made or filed were duly heard, evidence for and against the proposed action was received, and a full, fair and complete hearing was granted and held; and

Pursuant to California Constitution Article XIII D, ballots were mailed to property owners within the boundaries of the DSPBID, and, among those ballots returned to the City, a weighted majority of the property owners within the DSPBID have approved renewal of the DSPBID; and

A detailed Engineer's Report prepared by a registered professional engineer certified by the State of California, Terrance E. Lowell, in support of the DSPBID's assessments, has been prepared, is incorporated in the Management District Plan, and is on file with the Office of the City Clerk and is incorporated herein by this reference ("Engineer's Report"); now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. **Recitals.** The recitals set forth herein are true and correct.
2. **Renewal and Assessment Levy.** The Downtown Stockton Property and Business Improvement District is hereby renewed and the annual assessment is hereby levied for each year of the entire term of the DSPBID. The initial annual assessment will total approximately \$1,059,760.67.
3. **Management Plan and Engineer's Report.** The Management District Plan and the Engineer's Report are hereby approved.

4. **Boundary Map.** The assessment shall be imposed on properties within the DSPBID. The boundaries of the DSPBID are shown on Exhibit 1 and generally include parcels in the downtown central core. It primarily runs west along the Stockton channel to the I-5 freeway, north to Fremont and Oak Streets, east to the railroad, and south to Sonora Street.

5. **Assessment.** Assessment rates may be subject to an increase of no more than five percent (5%) per year. The assessment will be imposed on real property at the following rates:

Zones	Lot	First Floor	Upper Floor
Zone 1: Commercial	\$0.0800	\$0.0800	\$0.0400
Zone 1: Residential	\$0.0480	\$0.0480	\$0.0240
Zone 2: Commercial	\$0.0443	\$0.0443	\$0.0222
Zone 2: Residential	\$0.0266	\$0.0266	\$0.0133
Zone 3: Commercial	\$0.0242	\$0.0242	\$0.0121
Zone 3: Residential	\$0.0000	\$0.0000	\$0.0000
<i>Total assessment is amount per square foot for lot, first floor and upper floors.</i>			

6. **Assessment Roll.** The Assessment Roll for the Downtown Stockton Property and Business Improvement District has been filed with the City Clerk, and is hereby approved.

7. **Assessment Collection.** The assessments shall be collected in accordance with section 36631 of the Streets and Highways Code.

8. **Assessment Activity.** The assessment levied for the DSPBID shall be applied towards enhanced maintenance, safety and security, beautification, economic and business development, marketing and promotions, and related advocacy and administration that will be provided directly and only to assessed parcels.

9. **Bonds.** Bonds shall not be issued.

10. **Streets and Highways Code.** Properties within the District are subject to any amendments to Part 7 (commencing with 36600) to Division 18 of the Streets and Highways Code.

11. **Improvements and Activities.** The improvements and activities to be provided in the District will be funded by the levy of the assessments specified in the assessment roll. The revenue from the levy of such assessments shall not be used to provide improvements or activities outside the district or for any purpose other than the purposes specified in the Resolution of Intention and Management District Plan. Notwithstanding the foregoing, improvements and activities that must be provided outside the DSPBID boundaries to create a special benefit to the assessed parcels may be provided, but shall be limited to marketing or signage pointing to the DSPBID.

12. **Property Benefit.** All assessed property within the DSPBID will be benefited specially and directly by the improvements and activities funded by the assessments proposed to be levied.

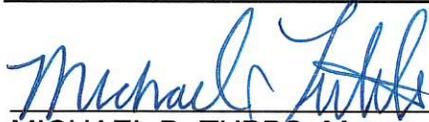

13. **Necessary Actions.** The City Clerk is directed to take all necessary actions to complete the establishment of the DSPBID. The City Clerk is directed to record in the County Recorder's Office a notice and assessment diagram as required by Streets and Highways Code section 36627.

14. **Validity.** If any section, subsection, sentence, clause or phrase of this resolution is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of the resolution. The City Council hereby declares that it would have passed this resolution and each section, subsection, sentence, clause and phrase hereof, irrespective of the fact that any one or more of the sections, subsections, sentences, clauses or phases hereof be declares invalid or unconstitutional.

15. **Effectiveness.** This resolution shall take effect immediately.

16. The City Manager is hereby authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED July 25, 2017.

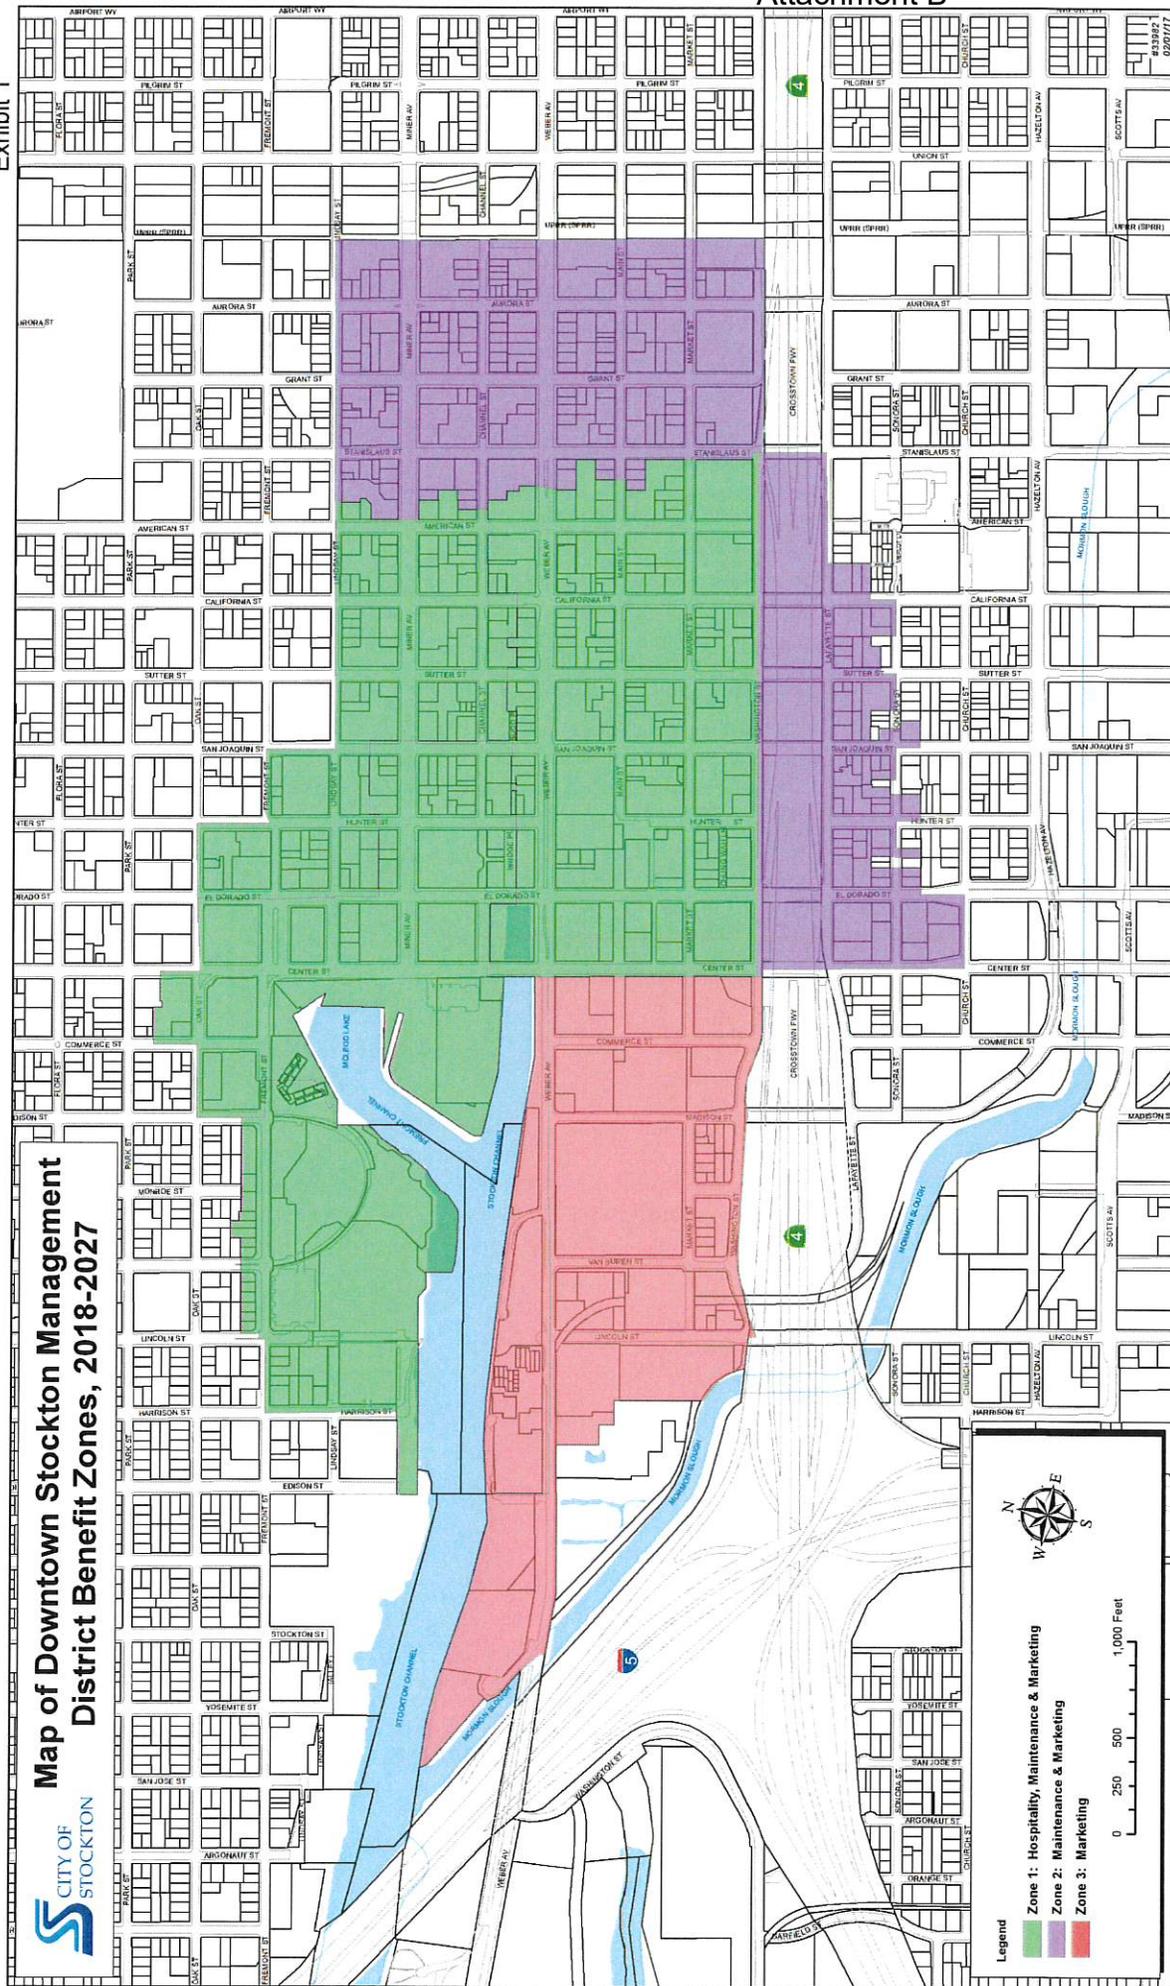

MICHAEL D. TUBBS, Mayor
of the City of Stockton

ATTEST:

BRET HUNTER, CMC
Interim City Clerk of the City of Stockton

SECTION 1: Executive Summary

Established in 1997 and renewed in 2002 and 2007, the Downtown Stockton PBID was initiated by petition from downtown property and business owners. The District's activities and improvements aim to improve and convey special benefits to properties located within downtown Stockton.

To guide the PBID for the next ten years, a PBID recertification steering committee and the Downtown Stockton Alliance (DSA) board of directors have developed a new PBID Management Plan that responds to today's market opportunities and district challenges. The District will provide new improvements and activities, including both environmental and economic enhancements. Each of the activities is designed to meet the goals of the District; to improve the appearance and safety of the District, to increase building occupancy and lease rates, to encourage new business development and attract ancillary businesses and services. As described in the Management District Plan, it is proposed that the PBID will provide funding for enhanced maintenance, safety, homeless initiatives, beautification and economic development programs, above and beyond those provided by the City of Stockton.

Summary Management Plan

Pursuant to California Streets and Highways Code, the "Property and Business Improvement District Law of 1994 as amended", the existing Downtown Stockton PBID is being renewed for a ten-year term. Upon receipt of petitions signed by property owners representing greater than 50% of the District budget, the City of Stockton will initiate a ballot procedure to officially re-establish and renew the PBID.

Location	The District encompasses approximately 123 blocks in the downtown central core. It primarily runs west along the Stockton channel to the I-5 Freeway, north to Fremont and Oak Streets, east to the railroad, and south to Sonora Street.
Why Renew the PBID?	<p>In the renewal process, Downtown Stockton property and business owners have stated the following reasons for continuing the PBID:</p> <ul style="list-style-type: none"> - Keep downtown clean, safe and attractive - Address the homeless issue - Make downtown more commercially competitive - Create an arts and culturally diverse community - Downtown property and business owners have a stronger voice when unified through the PBID <p>Approximately 140 downtown stakeholders, mostly property and business owners responded to an online and mailed survey seeking priorities for PBID renewal. Overall, respondents rated the existing PBID with a "B" grade – "services are good but there is room for improvement". Priorities for the next term of the PBID include:</p> <ul style="list-style-type: none"> - Business development to attract new retail, restaurant and arts - Increase safety efforts to address homelessness and transients - Maintain cleanliness and beautification efforts - Continue to provide special events

Services and Activities	<p>The PBID will finance activities and improvements that will improve Downtown Stockton's environment for property owners, residents, workers and visitors, including:</p> <p><u>Environment:</u></p> <ul style="list-style-type: none"> - Maintenance Teams that sweep, scrub and pressure wash sidewalks, remove litter and graffiti, increase the frequency of trash removal and maintain landscaping throughout the District. - Safety Ambassadors that provide information on activities and attractions, work with local police, business and property owners to prevent crime and reduce homelessness and improve quality of life issues. - Beautification improvements that make Downtown Stockton more visually attractive, which may include: wayfinding signage, trash cans, holiday décor, enhanced streetscape, planters, etc. <p><u>Economic:</u></p> <ul style="list-style-type: none"> - Economic and business development activities to support the growth and vitality of existing business investments, promote a stronger business mix, and enhance the image of Downtown Stockton as a destination for consumer and investment revenues. - Marketing to promote a positive image of downtown as a regional destination, and services aimed at attracting a diverse cultural consumer base, quality commercial and office tenants, and private investment. <p><u>Advocacy/Administration:</u></p> <ul style="list-style-type: none"> - Advocate on downtown policy issues that will improve the downtown business environment. - Provide daily management to carry out the day-to-day PBID operations.

Zone 3: Commercial	\$0.0242	\$0.0242	\$0.0121																										
Zone 3: Residential	\$0.0000	\$0.0000	\$0.0000																										
Cap	Annual assessments may increase no more than 5% per year, consistent with the increase in consumer price index (CPI) and increases in program costs. The determination of annual adjustments in assessment rates will be subject to the review and approval of the Owners' Association of the Downtown Stockton Alliance.																												
City Services	The City of Stockton has established and documented the base level of pre-existing City services. The PBID will not replace any pre-existing general City services.																												
Collection	PBID assessments appear as a separate line item on the annual San Joaquin County property tax bills.																												
District Governance	The PBID will be managed by the Downtown Stockton Alliance (DSA). DSA's Owners' Association comprising of a majority of downtown Stockton property owners will help determine the PBID uses and budget each year.																												
District Continuation	California law for PBID district formation/continuation requires the submission of petitions signed by property owners in the proposed district who will pay more than 50% of the total assessments (i.e. petitions must represent more than 50% of the \$1,080,000 to be assessed). Petitions are submitted to the Stockton City Council, and the City will mail ballots to all affected property owners. The majority of ballots returned, as weighted by assessments to be paid, must be in favor of the PBID in order for the City Council to consider approval.																												
Duration	The district will have a 10-year life beginning January 1, 2018. In five years (i.e. 2023), the DSA and downtown property owners will undertake a review of the Management District Plan and PBID programs. Any new or increased assessments that are not consistent with the provisions of this Management District Plan will require a new mail ballot process.																												

Section 2: PBID Boundary

PBID Boundary

The District encompasses approximately 123 blocks in the downtown central core. It primarily runs west along the Stockton channel to the I-5 Freeway, north to Fremont and Oak Streets, east to the railroad, and south to Sonora Street.

Specifically, the district boundary is as follows:

Beginning at the southwest corner of Lindsay Street and Southern Pacific Railroad tracks and traveling south along the west side of the SPRR tracks to Washington Street. West along the south side of Washington Street to the west side of Stanislaus Street., then south along the west side of Stanislaus Street to the north side of Lafayette Street. West along the northern side of Lafayette Street, then south along the east side of parcels facing the east side of California Street to Sonora Street. Then west along Sonora Street to El Dorado Street; some parcels on the north and south sides of Sonora Street have been included and some have been excluded. South along El Dorado Street to Church Street, then west along Church Street to Center Street. North along Center Street to the south side of Washington Street, then west along Washington Street to the west side of Lincoln Street. North on Lincoln Street to the south side of Weber Avenue; some parcels facing the east side of Lincoln Street may be included. West along the south side of Weber Avenue to the east side of Mormon Slough; some parcels facing the south side of Weber Avenue may be included. Northwest along the east side of Mormon Slough to the south side of the Stockton Deepwater Channel. East along the Stockton Deepwater Channel to the west side of Center Street, following the easterly border of the Channel north to Steamboat Levee; then following the northerly border of the Channel east to the west side of Miner Levee. Along the western and northern border of Miner Levee to Harrison Street. North along Harrison Street to Fremont Street, then east along Fremont Street to Lincoln Street. East along the north side of parcels facing Fremont Street to Madison Street. North along Madison Street to Oak Street, then east along the north side of parcels facing Oak Street to Center Street. Continue east along Oak Street to Hunter Street, south along Hunter Street to Fremont Street, then east along Fremont Street to San Joaquin Street. South on San Joaquin street to Lindsay Street, then east along Lindsay Street to the point of beginning.

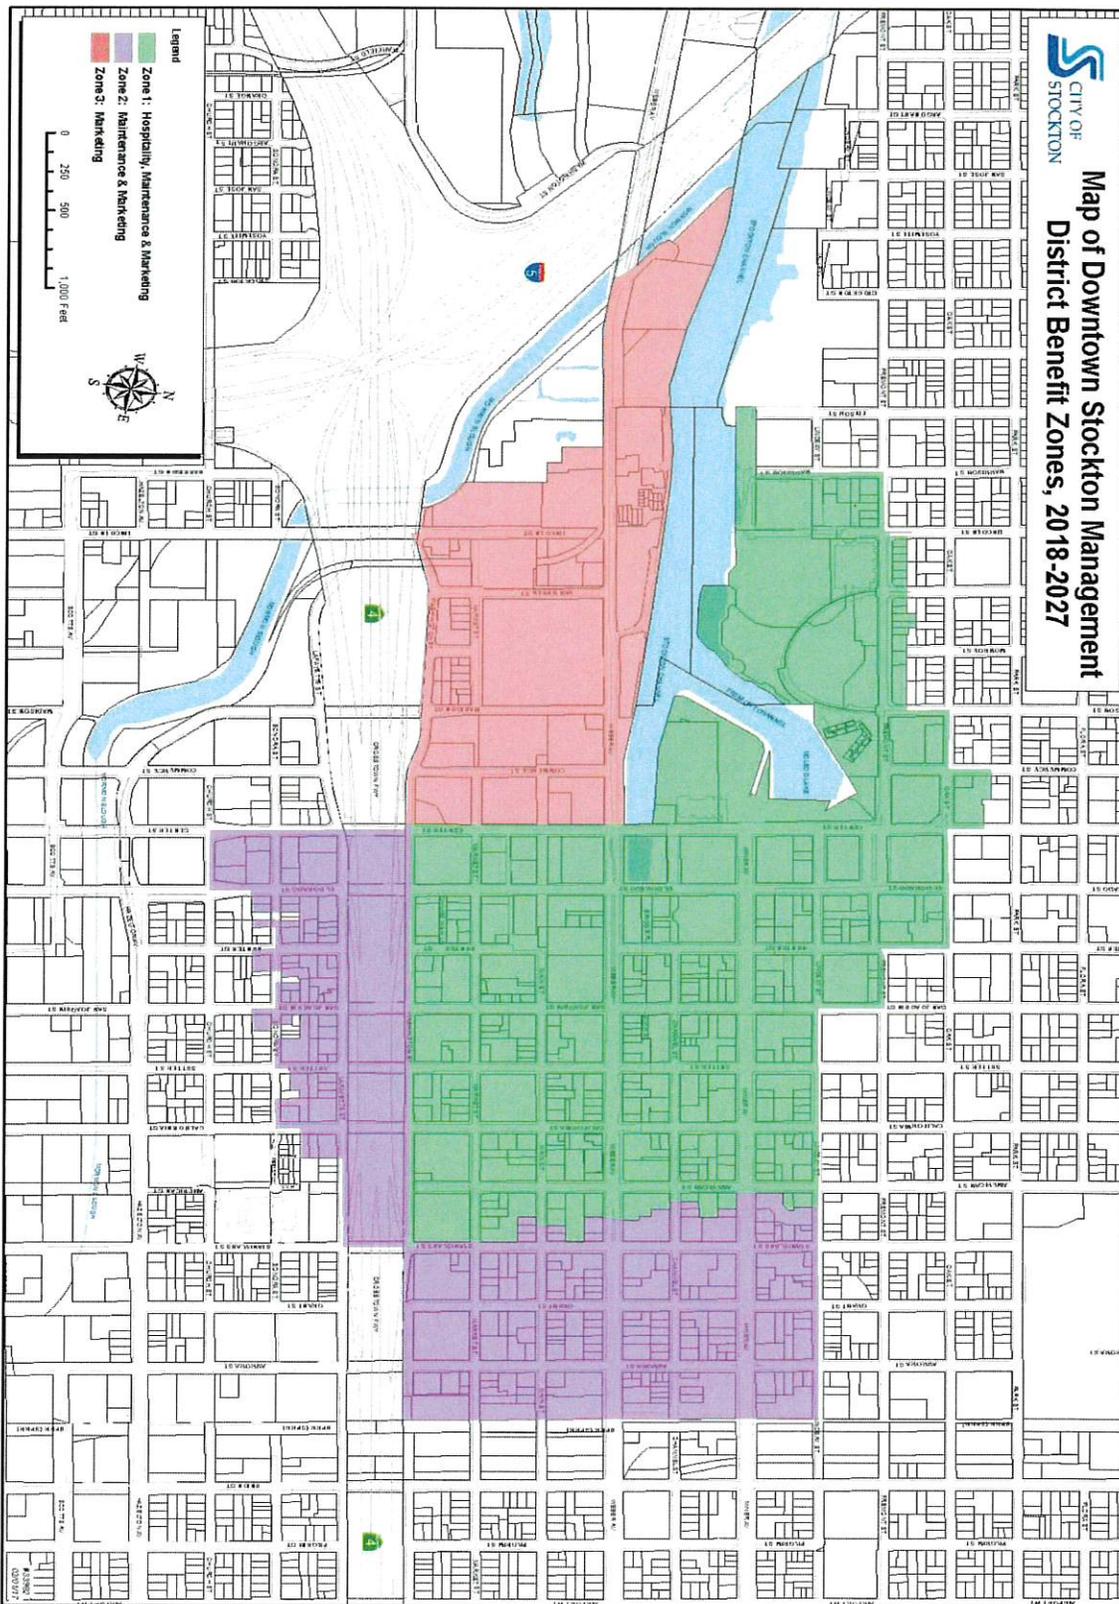

Because the scope and nature of the District and level of services to be provided vary in different parts of the District, three benefit zones have been established based on these variations. The following is a description of these benefit zones:

Zone 1: Zone 1 follows along the western and northern border of Miner Levee to Harrison Street. North along Harrison Street to Fremont Street, then east along Fremont Street to Lincoln Street. East along the north side of parcels facing Fremont Street to Madison Street. North along Madison Street to the Oak Street, then east along the north side of parcels facing Oak Street to Center Street. Continue east along Oak Street to Hunter Street, south along Hunter Street to Fremont Street, then east along Fremont Street to San Joaquin Street. South on San Joaquin Street to Lindsay Street, then east along Lindsay street to American Street. South along American Street including most parcels fronting the east side of American Street to Washington Street, including APN 14918006 fronting Main Street.

Zone 2: Zone 2 includes all parcels in the District to the east and south of Zone 1.

Zone 3: Zone 3 includes all parcels south of the Stockton Deepwater Channel and west of Center Street within the District boundaries.

The PBID boundary is illustrated by the map on the following page.

Section 3: PBID Activity and Improvement Plan

As determined by area property and business owners, the top priority for services and activities within the Downtown Stockton PBID area include:

- ◆ Environmental Enhancements (Public Safety, Maintenance, Homeless Outreach, Beautification)
- ◆ Economic Development and Marketing (Business recruitment and retention, Market downtown to tenants, brokers and investors)
- ◆ Administration/Advocacy

The goals for the PBID are to:

- 1) Provide a safe and clean environment within the District that will attract private investment and more business and residential activity, and improve assessed parcels.
- 2) Improve commerce within the PBID by filling vacancies and increasing lease and rental rates to encourage reinvestment within the district.

Based upon these findings, the following service and activity categories will be funded by the PBID. The following narrative provides recommendations for the PBID's first year of operation. District activities may be amended in subsequent years within the following general categories. Final activities and budgets will be subject to the review and approval of the PBID Owners' Association prior to City Council approval.

Environmental Enhancements

To respond to stakeholder priorities and guiding principles to make Downtown both more welcoming, clean and beautiful, the PBID funded Ambassador program will be strengthened moving forward. It provides for an increase in funding for Safety Ambassadors and Clean Team to allow for increases in program labor costs and a focused effort to address the homeless and transient population.

PBID Environmental Enhancements activities and improvements are intended to improve commerce and the quality of life by making each individual assessed parcel safer, cleaner and more attractive which will encourage investment dollars downtown and generate additional pedestrian traffic. Environment activities specially benefit each individual assessed parcel, including commercial, government, parking structures, non-profits and residential.

Safety Ambassadors

The Safety Ambassadors will continue to provide security services for the individual assessed parcels located within the District in the form of patrolling personnel and downtown ambassadors. The purpose of the Safety Ambassadors is to prevent, deter and report illegal activities taking place on the streets, sidewalks, storefronts, parking lots and alleys. The presence of the Safety Ambassadors is intended to deter such illegal activities as public urination, indecent exposure, trespassing, drinking in public, prostitution, illegal panhandling, illegal vending, and illegal dumping. The Ambassadors that act as the "eyes and ears" on the street will supplement, not replace, other ongoing police, security and patrol efforts within the

District. The Safety Ambassadors will maintain communication with the Stockton Police Department area patrols and intends to report illegal activities to them. The Safety Ambassadors will only be provided to benefit Zone 1 as that has the highest concentration of pedestrian traffic and commercial activity.

Night Security Patrol

The PBID may continue to invest in the night vehicle patrol which currently patrols the District approximately 40 hours per week. Their services are to support the police department, property owners and tenants in overall efforts to prevent crime and reduce street disorder. Their presence is a deterrent to theft and burglary from motor vehicles and disorderly conduct.

Options for Enhanced Security and Homeless Outreach

The PBID renewal process has evidenced continued property owners concern with both the reality and perception of public safety within the PBID. There are a variety of elements contributing to this concern, including ongoing challenges with homeless populations, and nuisance crimes, compounding maintenance issues, and creating an intimidating street atmosphere.

In order to effectively address these concerns the PBID may also fund, in addition to the information and safety ambassadors, programs and activities that target nuisance crimes. Based on best practices from other PBID districts in California, the additional funded activities may include the following to be determined by the PBID Owner's Association and approved by the City Council:

- A "navigator program" in which ambassadors would be tasked with a case management approach to match chronic homeless individuals with available social services (Sacramento, Santa Monica).
- A community prosecutor that would provide restorative justice remedies, such as, community service hours, removing graffiti, and gum scraping, to individuals convicted of nuisance crimes (Sacramento, San Diego).
- Supplemental security patrols (in addition to ambassadors) working under the exclusive direction of the PBID Owner's Association and responding to activity exclusively within the boundaries of the PBID (Sacramento).
- Adjust ambassador training and deployment from hospitality to more of a private security emphasis (Los Angeles).

Clean Team Program

In order to consistently deal with cleaning issues, a Clean Team program will continue to be provided as it has for the last 20 years. A multi-dimensional approach has been developed consisting of the following elements. The clean team will only provide service to properties within benefit Zones 1 and 2 of District boundaries. The special benefit to parcels from these services is increased commercial activity which directly relates to increases in lease rates and customer usage.

Downtown Stockton Clean Team: The Clean Team consistently deals with maintenance issues within the District. To effectively deal with the maintenance issues facing Downtown Stockton, a multi-dimensional approach has been developed consisting of the following elements:

Sidewalk Maintenance: Uniformed, radio-equipped personnel sweep litter, debris, and refuse from sidewalks and gutters of the District, and clean all sidewalk hardscape such as trash receptacles, benches, and parking meters.

Alley Maintenance: The Clean Team and Ambassadors can each have responsibility in this area. The Ambassadors address owner and tenant compliance with City code issues on cleanliness of sidewalks, alleys and illegal dumping. The Clean Team crew can sweep alleys, remove graffiti and clear the alleys of debris when a responsible party cannot be found for illegal dumping or other violations.

Graffiti Removal: The Clean Team can remove graffiti using solvent and pressure washing. The District will maintain a zero-tolerance graffiti policy. All tags will aim to be removed within 48 hours of notification.

Sidewalk Pressure Washing: Pressure wash all sidewalks, alleys and plazas on an as needed basis with areas of high pedestrian traffic receiving the highest concentration. However, during drought years pressure washing may not be permitted.

Landscape Maintenance: Public landscape areas including; medians, tree wells, and planters will be maintained and kept free of litter and weeds and pruning of trees 20' and under.

Estimated deployment of the Safety Ambassadors, Night Patrol and Clean Team is anticipated on the following table:

Maintenance Frequencies	Zone 1	Zone 2
<i>Maintenance F.T.E.</i>	<i>220 hours per week (approximately 5.5 F.T.E.)</i>	
Average Weekly Coverage	7 days/week	5 days/week
Litter removal/pan & broom	Twice per day	Once per day
Detail cleaning of public amenities	Twice per day	Once per day
Graffiti removal	Daily as needed	Daily as needed
Large Object removal	As needed	As needed
Street Tree Well Maintenance	As needed	As needed
Weed removal/spraying	Seasonal as needed	Seasonal as needed
Pressure washing/spot cleaning	Daily/as needed	Daily/as needed
Pressure washing/scheduled cleaning	2 nights per week	Once per month
Ambassadors and Security Patrol	Zone 1 Only	
<i>Ambassadors F.T.E.</i>	<i>160 hours per week (approximately 4.0 F.T.E.)</i>	
Coverage	6 days/week 8 to 20 hours daily	
Primary method of coverage	Foot patrols/EV	
Patrol rounds	4 rounds per shift	
Night Security Patrol	40 hours per week - vehicle	
Business contacts	6-10 per shift	
Visitor contacts	Daily unlimited	
Jury Contacts	1 hour daily	
Tours	2 hours weekly	
Outreach with street populations	Daily as needed	
Reporting	Daily unlimited	

Beautification

In addition to clean and safe services, the PBID budget may include funds for beautification and placemaking improvements that are defined as cosmetic enhancements that improve the appearance and walkability within the PBID, in turn encouraging customer traffic and improved quality of life for residents. Examples of beautification improvements might include:

- Design and installation of flowering planters and baskets
- Directional/wayfinding signage or themed historical downtown signage
- Street furniture and amenities, such as benches, kiosks and lighting
- Design and installation of art and decorative elements
- Holiday décor or tree lighting
- Bicycle racks and other hardware
- Urban design and/or planning services to advance beautification efforts
- Other cosmetic enhancements that improve the PBID's appearance.

Economic Enhancements

Business development ranked highest among property and business owners as the single most important program that the PBID should provide. Moving forward with the PBID, economic development and marketing activities will shift from consumer marketing to investor marketing. All benefit zones will receive and benefit from the Economic Enhancement activities. The PBID's Economic Development Committee will develop annual work programs that may include the following:

Economic Development

Services to aide in efforts to attract a stronger mix of businesses and work with tenants/owners and city staff to expedite the city permitting process. Options may include:

- Design and production of investor marketing packages to assist real estate brokers, developers and property owners in business recruitment efforts.
- Maintenance of a district database with local market and real estate information.
- Market research and market-based planning to target private investment to strengthen the downtown marketplace.
- Trouble-shooting and permitting liaison services to assist property and business owners to invest and operate in the district. Coordinate with the City on these services.
- Enhanced research and development of the downtown website.
- Coordinate efforts with the City of Stockton in developing an outreach program to property owners, real estate brokers and local/regional businesses to develop under-utilized downtown properties.
- Business retention efforts to encourage existing businesses to grow.

Destination Marketing

Programs that aim to position downtown Stockton as a dining, retail and arts destination. Marketing programs must demonstrate collective benefits to business and property owners. Options may include:

- Advertising, including branding, coordinated campaigns and increased placement and frequency in mass media venues.
- Public relations efforts to promote a positive image and overall experience.
- Increased distribution and enhanced quality of publications, including the downtown map and directory and future activity guides.
- Improved special event production and promotions.
- Design, installation and maintenance of a new downtown directional signage system.

Communication

Services to better inform business and property owners.

- Continued publication of a downtown district newsletter.
- PBID ratepayer surveys to measure overall satisfaction with programs.
- Media relations activities to project a creative and exciting business image in local, regional and national media.

Special Events

The Special Events budget is reserved for opportunities to continue providing existing events downtown, e.g. Full Moon Riders, Love You Baby, the Great Big Read, Music to our Ears, or to add additional events that present themselves during the life of the district. These special

events improve commerce by drawing people downtown and introducing them to opportunities to dine, shop, or engage in commerce.

Parking Initiatives

The PBID will work in concert with the City staff to explore options for improving parking management and mobility options to and within Downtown. Options include identifying employee parking and transit options, creating parking promotions for consumers and modifying parking fee hours to encourage consumer traffic during non-business hours.

Advocacy, Administration and Reserve

The PBID supports a professional staff that delivers programs and advocates on behalf of the Downtown district. The PBID allows downtown property owners to project a unified voice and elevate their influence in policies and issues that affect the central business district. Funds are allocated to office and support services such as bookkeeping, office rent, insurance, office equipment and professional development and training for the staff and the PBID's Owners' Association. A \$10,000 operating reserve is also budgeted as a contingency for any payment of delinquencies and/or unforeseen budget adjustments.

Section 4: PBID Assessment Budget

2018 PBID Assessment Budget

The following table outlines the PBID maximum assessment budget for 2018.

EXPENDITURES	BUDGET	% of Budget
Environmental Enhancements	\$650,000	60.19%
Economic Enhancements	\$240,000	22.22%
Advocacy/Administration	\$180,000	16.67%
PBID Reserve	\$10,000	0.93%
Total Expenditures	\$1,080,000	100.00%
REVENUES		
Assessment Revenues	\$1,060,440	98.19%
Other Revenues (1)	\$19,560	1.81%
Total Assessment District Revenues	\$1,080,000	100.00%

(1) Other non-assessment funding to cover the cost associated with general benefit.

Budget Adjustments

- Annual assessments may increase no more than 5% per year, consistent with the increase in consumer price index (CPI) and/or other increases in program costs. The determination of annual adjustments in assessment rates will be subject to the review and approval of the board of the Owners Association.
- Revenues for Environmental and Economic Enhancements service categories may be reallocated among these service categories from year to year based upon district needs and budgets developed by the Owners' Association. The reallocation shall not exceed 10% per year.

10-Year Maximum Budget

The following table illustrates the PBID's maximum annual budget for the 10-year life term, adjusting it by the maximum 5% inflation factor.

ACTIVITY	2018	2019	2020	2021	2022
Environmental	\$650,000	\$682,500	\$716,625	\$752,456	\$790,079
Economic	\$240,000	\$252,000	\$264,600	\$277,830	\$291,722
Advocacy/Admin	\$180,000	\$189,000	\$198,450	\$208,373	\$218,791
Reserve Fund	\$10,000	\$10,500	\$11,025	\$11,576	\$12,155
TOTAL BUDGET	\$1,080,000	\$1,134,000	\$1,190,700	\$1,250,235	\$1,312,747

ACTIVITY	2023	2024	2025	2026	2027
Environmental	\$829,583	\$871,062	\$914,615	\$960,346	\$1,008,363
Economic	\$306,308	\$321,623	\$337,704	\$354,589	\$372,319

Reserve Fund	\$12,763	\$13,401	\$14,071	\$14,775	\$15,513
TOTAL BUDGET	\$1,378,384	\$1,447,303	\$1,519,668	\$1,595,652	\$1,675,434

Section 5: Public Sector Participation

Existing City Services

The City Council, by adopting this plan, will confirm its intention to ensure an existing level of services in the district equivalent to the level that is being provided elsewhere in the City. Assessment funds will pay for services that are above and beyond those services provided by the City.

Rationale for Public Property Assessments

Proposition 218 states that no parcel is exempt from assessments if that parcel receives benefit from the improvements and activities. This includes government and Public use parcels. The City of Stockton and any other government owned parcels within the PBID boundary will pay their assessment based on the special benefits conferred to those parcels. All publicly owned parcels specially benefit from the PBID activities as they make each assessed parcel cleaner, safer, more attractive, and economically vibrant. Specifically, these parcels specially benefit from: removing graffiti from their buildings, patrolling their sidewalks, connecting the homeless to available resources, cleaning up any debris or trash, powerwashing the sidewalks, beautifying the public right-of-ways, and increased business development.

Therefore, government uses are assessed for the special benefits they receive from the PBID activities. The assessment methodology to allocate the cost of these improvements is consistent with all other land uses in the district: parcel square footage plus first floor building square footage and upper floor building square footage. Please see Section 6: Assessment Methodology for further discussion.

The publicly owned parcels within the PBID boundary and their respective assessments are indicated below.

Section 6: Assessment Methodology

General

This Management District Plan provides for the levy of assessments for the purpose of providing services and activities that specially benefit real property in the PBID. These assessments are not taxes for the general benefit of the City, but are assessments for the services and activities which confer special benefits upon the real property for which the services and activities are provided.

Assessment Factors

Downtown Stockton property owners and business owners have emphasized that the assessment formula for the Downtown Stockton PBID be fair, balanced, and have a direct relationship to special benefits received. The State enabling legislation also states, "Assessments levied on real property...shall be levied on the basis of the estimated benefit to the real property within the...district."

The method used to determine proportional special benefits are measured by each parcel's lot square footage, first floor building square footage, plus the upper floor building square footage. Each parcel's proportional lot size, first floor building square footage and upper floor building square footage represents each parcel's proportional special benefit compared to other parcels within in respective benefit zone. Lot square footage is relevant to the best use of a property and will reflect the long term special benefit implications of the improvement district. First floor and Upper floor building square footage is relevant to the interim use of a property and is utilized to measure short and mid-term impacts.

Lot Square Footage Defined. Lot square footage is defined as the total amount of area within the borders of the parcel. The borders of a parcel are defined on the County Assessor parcel maps.

First Floor Building Square Footage Defined. First floor building square footage is defined as the first floor gross building square footage as determined by the outside measurements of a building.

Upper Floor Building Square Footage Defined. Upper floor building square footage is defined as the remaining gross building square footage less the first floor building square footage as determined by the outside measurements of a building. Basements are not included in this allocation.

The PBID activities are primarily provided at the street level and thus allocating the greatest special benefit to the lot and first floor of a building. The upper floors of a building also benefit from the PBID activities but since they are not on the ground floor and do not receive the direct benefit, the upper floors are assessed at 50% of the ground floor to acknowledge their diminished special benefit.

Special Benefit Analysis

All special benefits derived from the assessments outlined in this report are for property related activities directly benefiting each individual assessed parcel in the PBID. The special benefit must affect the individual assessable parcel in a way that is particular and distinct from its effect on other parcels, and that real property in general and the public at large do not share. No parcel's assessment shall be greater than the special benefits received.

Streets and Highways Code Section 36601(e) states that "Property and business improvement districts formed throughout this state have conferred special benefits upon properties and businesses within their districts, and have made those properties and businesses more useful by providing the following benefits: (1) Crime reduction. A study by the Rand Corporation has confirmed a 12-percent reduction in the incidence of robbery and an 8-percent reduction in the total incidence of violent crimes within the 30 districts studied. (2) Job creation. (3) Business attraction. (4) Business retention. (5) Economic growth. (6) New investments.

The PBID's goal is to fund activities and improvements that provide a cleaner, safer, and more attractive and economically vibrant environment as outlined in Section B. The goal of improving the economic vitality is achieved by improving the safety, cleanliness, marketing, and appearance of each specially benefitted parcel in an effort to increase commerce, to increase building occupancy and lease rates, and to attract more customers, employees, tenants and investors.

Each parcel will specially benefit from:

- Cleaner and safer sidewalks, streets, alleyways, and common areas
- Real and perceived public safety improvements
- Greater pedestrian traffic
- Enhanced rental incomes
- Improved business climate
- New business and investment
- Well managed programs and services

Specifically, each parcel benefits from each of the PBID activities as defined below.

Safety

The enhanced safety activities make the area more attractive for businesses, customers, residents, and ultimately private investment. When business location decisions are made, "lower levels of public safety lead to increased uncertainty in decision making and can be perceived as a signal of a socio-institutional environment unfavorable for investment. Uncertainty affects the investment environment in general. But in particular, it increases the fear of physical damage to investment assets (or to people) or their returns...Almost universally, places with lower crime rates are perceived as more desirable".¹ Once economic investment occurs within the district, pedestrian traffic and commercial activity will increase. The special benefit to assessed parcels from these services is the likelihood of increased lease rates and tenant occupancy due to the increase of commercial activity, and an increase in customers that follow from having a safer environment.

¹ "Accelerating economic growth and vitality through smarter public safety management" IBM Global Business Services Executive Report, September 2012, pg. 2

Maintenance and Beautification

The maintenance and beautification activities benefit each assessed parcel within the PBID by providing a clean and aesthetically appealing environment. This is achieved through sidewalk sweeping and power washing, removing litter and graffiti, and trash removal. In addition, the beautification activities benefit each assessed parcel by providing wayfinding signage, sidewalk benches, holiday décor, planters, etc. These activities create the environment needed to achieve the PBID goals.

Economic Development

The economic development activities will specially benefit each assessed parcel by encouraging business development and investment. This generates customer traffic which directly relates to increases in commercial activity including residential serving businesses, filling of vacant storefronts and offices, and ultimately increased lease rates for retail and office space.

Special Benefit Conclusion

Based on the special benefits each assessed parcel receives from the PBID activities, we concluded that each of the proposed activities provides special benefits to the real property within the district, and that each parcel's assessment is in direct relationship to and no greater than the special benefits received.

The special benefit to parcels from the proposed PBID activities and improvements described in this report is equal to or exceeds the total amount of the proposed assessment. Each individual assessed parcel's assessment is no greater than the special benefit it receives from the PBID activities.

General Benefit Analysis

As required by the State Constitution Article XIIID Section 4(a), the general benefits of an assessment district must be quantified and separated out so that the cost of the activities that are attributed to general benefit are deducted from the cost assessed against each specially benefitted parcel. General benefits are benefits from the PBID activities and improvements that are not special in nature, are not "particular and distinct", and are not over and above the benefits that other parcels receive. This analysis will evaluate and determine the level of general benefits that (1) parcels inside of the Downtown Stockton PBID, (2) parcels outside of the PBID, and (3) the public at large may receive.

General Benefit to Parcels Inside of the Downtown Center PBID

The Downtown Stockton PBID provides funds for activities and improvements that are designed and created to provide special benefits to each individually assessed parcel within the District. Each individual assessed parcel will specially benefit from the cleaner and safer public rights-of-way and increased economic activity, thus 100% of the benefits conferred on these parcels are distinct and special in nature and that 0% of the PBID activities provide a general benefit to parcels in the District boundary.

General Benefit to Parcels Outside of the PBID

All the PBID activities and improvements are provided solely to each of the individual assessed parcels in the PBID boundary. Each of the PBID activities is provided to the public right-of-ways (streets, alleys, sidewalks) adjacent to all specially benefitted parcels or tenants in the PBID. None of the surrounding parcels will directly receive any of the PBID activities. Any benefits these parcels may receive are incidental to providing special benefits to the assessed parcels, and thus any cost associated to the incidental benefits are not reduced from the cost of providing special benefit.

General Benefit to the Public At Large

In addition to general benefit analysis to the parcels outside of the Downtown Stockton PBID boundary, there may be general benefits to the public at large, i.e., those people that are either in the PBID boundary and not specially benefitted from the activities, or people outside of the PBID boundary that may benefit from the PBID activities. In the case of the Downtown Stockton PBID, the public at large are those people that are within the PBID boundary that do not pay an assessment and do not specially benefit (employees, tenants, and customers) from the PBID activities.

To calculate the general benefit the public at large may receive we determine the percentage of each PBID activity budget that may benefit the general public. In this case, the Environmental Enhancement activities may generally benefit the public as the general public may appreciate the enhanced level of maintenance, security and beautification as it passes through the District. The Economic Enhancements such as; economic development and marketing activities are tailored to benefit the tenants of each parcel and are not intended to benefit the general public. If there are any public benefits, they are incidental and collateral to providing special benefits to the assessed parcels.

We then apply a Relative Benefit factor to the Environment Enhancement activities accounting for the potential benefit the general public may receive. The relative benefit factor is a basic unit of measure that compares the benefit the general public receives compared to the public that specially benefits (employees, tenants, customers) from this activity. Since the specially

benefitted public receives 100% of the activities and special benefit it is assigned a relative benefit factor of 1.0 for this activity. The general public does not directly receive any District activity and thus, is assigned a relative benefit factor less than 1.0. There is no scientific method to determine the relative benefit factors, however in our professional experience of over 50 years as a Registered Civil Engineer and the results of previous studies conducted to determine a relative benefit factor for the general public in Los Angeles and other jurisdictions the general public receives a relative benefit factor of 0.05 for the Environmental Enhancement activities. Based on our professional experience and the results of previous studies, it is reasonable to conclude that this relative benefit factor properly accounts for the general public that is not specially benefitted.

The relative benefit factor is then multiplied by the District activity's budget percentage to determine the overall benefit factor. The following table illustrates this calculation.

ACTIVITY	A Budget Amount	B % of Budget	C General Benefit Factor	D General Benefit Percent (B x C)	E General Benefit Allocation (A x D)
Environmental	\$650,000	60.19%	5.00%	3.01%	\$19,560

This analysis indicates that \$19,560 of the Environmental Enhancement activities may be attributed to general benefit to the public at large, and must be raised from sources other than special assessments.

General Benefit Conclusion

Using the sum of the three measures of general benefit described above we find that \$19,560 or 1.81% of the total budget may be general in nature and will be funded from sources other than special assessments.

Assessment Calculation

As previously discussed, the PBID activities are segregated into three benefit zones to account for various levels of services area needs and benefits. The table below summarizes the PBID activities provided to each benefit zone.

Activity	Zone1	Zone 2	Zone 3
Environmental Enhancements			
- Safety Ambassadors	X		
- Clean Team	X	X	
- Beautification	X	X	
Economic Enhancements	X	X	X
Advocacy/Administration	X	X	X

The preceding methodology is applied to a database that has been constructed by the Downtown Stockton Alliance and the San Joaquin County Assessor's Office.

Benefit Zone Adjustments: The assessments are adjusted to reflect anticipated service frequencies within each of two benefit zones:

- **Benefit Zone 1**, which includes the core of the PBID, provides a higher frequency of environmental enhancements.
- **Benefit Zone 2**, which includes areas east and south of Zone 1 provides all the same services as Zone 1 except for the Safety Ambassadors.
- **Benefit Zone 3**, includes all remaining properties southwest of Zone 1 and receives all activities under Economic Enhancements but will not receive any services from the Environmental Enhancements.

Total Estimated Assessments: Based upon the methodology, property data and the proposed PBID budget, approximate lot and building assessments are calculated. Assessments will not exceed the following amounts per foot during the first year of the renewed PBID:

Zones	Lot	First Floor	Upper Floor
Zone 1: Commercial	\$0.0800	\$0.0800	\$0.0400
Zone 1: Residential	\$0.0480	\$0.0480	\$0.0240
Zone 2: Commercial	\$0.0443	\$0.0443	\$0.0222
Zone 2: Residential	\$0.0266	\$0.0266	\$0.0133
Zone 3: Commercial	\$0.0242	\$0.0242	\$0.0121
Zone 3: Residential	\$0.0000	\$0.0000	\$0.0000

Sample Parcel Assessments

Zone 1: To calculate the assessment for a commercial parcel in Zone 1 with a 5,000 square foot lot, a 5,000 square foot first floor and 15,000 square feet upper floor the calculation is as follows:

Lot square feet (5,000) x \$0.0800 =	\$400.00
First floor building square feet (5,000) x \$0.0800 =	\$400.00
Upper floor building square feet (15,000) x \$0.0400 =	<u>\$600.00</u>
Total Parcel Assessment =	\$1,400.00

Zone 2: To calculate the assessment for a commercial parcel in Zone 2 with a 5,000 square foot lot, a 5,000 square foot first floor and 15,000 square feet upper floor the calculation is as follows:

Lot square feet (5,000) x \$0.0443 =	\$221.50
First floor building square feet (5,000) x \$0.0443 =	\$221.50
Upper floor building square feet (15,000) x \$0.0222 =	<u>\$333.00</u>
Total Parcel Assessment =	\$776.00

Zone 3: To calculate the assessment for a commercial parcel in Zone 3 with a 5,000 square foot lot, a 5,000 square foot first floor and 15,000 square feet upper floor the calculation is as follows:

Lot square feet (5,000) x \$0.0242 =	\$121.00
First floor building square feet (5,000) x \$0.0242 =	\$121.00
Upper floor building square feet (15,000) x \$0.0121 =	<u>\$181.50</u>
Total Parcel Assessment =	\$423.50

The assessment calculation is the same for every parcel in the PBID respective of each benefit zone and land use type.

Property Use Considerations

The methodology provides the following treatments for property used exclusively for residential uses:

Treatment of Residential Property: Proposition 218 states that no parcel is exempt from assessments if that parcel receives benefit from the improvements and activities, this includes residential use parcels. Residential uses will fully benefit from environmental enhancement services and will pay a full share of these services; however, economic enhancement services will not benefit residential uses and the residential rate is adjusted accordingly. The residential portion of commercial and mixed-use parcels with residential uses will be subject to the adjusted residential assessment rate. Residential parcels with 6 or more units are considered a commercial enterprise and therefore assessed at the commercial rate.

Annual Assessment Adjustments

Budget Adjustment

Annual assessments may increase no more than 5% per year, consistent with the increase in consumer price index (CPI) and increases in program costs. The determination of annual adjustments in assessment rates will be subject to the review and approval of the Owners' Association of the Downtown Stockton Alliance.

Time and Manner for Collecting Assessments

As provided by state law, the Downtown Stockton PBID assessment will appear as a separate line item on the annual San Joaquin County property tax bills, or by a special manual bill prepared by the District and either paid in one lump sum or in two equal installments. Laws for enforcement and collection of property taxes also apply to the PBID assessment.

Disestablishment

State law provides for the disestablishment of a PBID pursuant to an annual process. The 30-day period begins each year on the anniversary day that the City Council first establishes the District. Within this annual 30-day period, if the owners of real property who pay more than 50 percent of the assessments levied submit a written petition for disestablishment, the PBID may be dissolved by the City Council. The City Council must hold a public hearing on the proposed disestablishment before voting on whether or not to disestablish the district.

Duration

The PBID will have a ten-year term commencing January 1, 2018 through December 31, 2027. Any major modifications or new or increased assessments during the term of the district that are not consistent with the provisions of original Management District Plan will require a new mail ballot process.

During Year 5 of the district, or at any other time as determined by the Owners' Association, a formal review of the PBID will be conducted that considers changes in market dynamics, new development, and other influences on the district. The district, through a petition and ballot process, may then be renewed prior to the expiration of the ten-year term.

Future Development

As a result of continued development, the District may experience the addition or subtraction of assessable footage for parcels included and assessed within the District boundaries. The modification of parcel improvements assessed within the District may then change upwards or downwards the amount of total footage assessment for these parcels, pursuant to Government Code 53750, will be prorated to the date they receive the temporary and/or permanent certificate of occupancy.

In future years, the assessments for the special benefits bestowed upon the included PBID parcels may change in accordance with the assessment methodology formula identified in the Management District Plan and Engineer's Report provided the assessment rate does not change. If the assessment formula changes and causes an increase in assessments, then a Proposition 218 ballot will be required for approval of the formula changes.

Bond Issuance

No bonds will be issued to finance improvements.

Section 7: PBID Governance

City Council

Following the submission of petitions from property owners representing more than 50% of the assessments to be paid, the City Council, upon holding a public hearing on the proposed District, may elect to renew the PBID. The PBID is renewed by a City Council resolution, including the levy of an assessment on property, if the assessment is first approved by parcel owners in a balloting process.

PBID Governance

Consistent with business improvement district legislation throughout the nation, California's "Property and Business Improvement District Law of 1994" establishes a governance framework that allows property owners who pay assessments the ability to determine how the assessments are used. This Management District Plan may be subject to changes if required by the state of California or the City of Stockton.

Downtown Stockton PBID

The Downtown Stockton Alliance (DSA), a 501(c)6 California nonprofit corporation, will continue to be the Owner's Association and governing board for the renewed PBID. The role of the Owner's Association is consistent with similar PBIDs and downtown management organizations throughout California and the nation. The Owner's Association determines budgets, assessment adjustments and monitor service delivery. As part of the Management Plan, the DSA, working as the Owner's Association, oversees the delivery of day-to-day PBID services in order to:

- Reduce overall administrative costs of the PBID;
- Leverage PBID funds with other resources, programs and capabilities provided by the Downtown Stockton Alliance;
- Eliminate the potential for duplication of enhanced services and activities;
- Ensure that Downtown is represented by a unified voice.

Pursuant to the State of California PBID legislation, the DSA, when conducting PBID business, is subject to disclosure and notification guidelines set by the Ralph M. Brown Act and California Public Records Act.

The DSA has configured its board of directors to represent all benefit zones within the PBID. The goal and spirit of the board's composition is to have a majority of Downtown property owners, but also include representatives from downtown businesses, residents, and governments that pay PBID assessments.

Board members are selected through a nominating process that invites all stakeholders to participate. A nominating committee develops an annual slate of board nominations, and nominations are voted on at an annual meeting of PBID ratepayers.

Section 8: Implementation Timeline

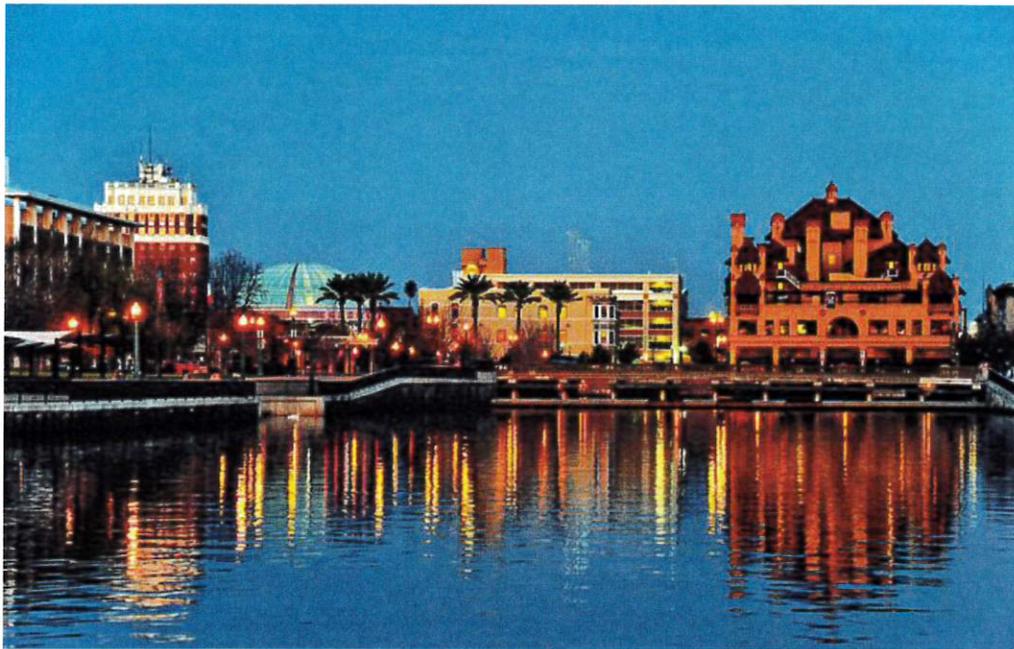

The Downtown Stockton PBID will have a ten-year life from January 1, 2018 to December 31, 2027.

In order for the PBID to meet the start-up date of January 1, 2018, the formation needs to adhere to the following schedule:

Formation Schedule	Dates
Petitions distributed to property owners	February
Marketing campaign to obtain signed petitions: presentations, neighborhood meetings, 50% weighted vote targeting	February - April
City Council adopts Resolution of Intention	Early May
Assessment ballots mailed to property owners	Mid May
City Council holds public hearing and tabulates ballots	Late June

Downtown Stockton Business Improvement District

Engineer's Report

**Stockton, California
March 2017**

Prepared by:
Kristin Lowell Inc.

*Prepared pursuant to the State of California
Property and Business Improvement District Law of 1994
And Article XIID of the California Constitution
to create a property-based business improvement district*

TABLE OF CONTENTS

ENGINEER'S STATEMENT..... 1

ENGINEER'S REPORT:

SECTION A: Legislative and Judicial Review 2

SECTION B: Improvements and Activities 4

SECTION C: Benefitting Parcels 9

SECTION D: Proportional Benefits 11

SECTION E: Special and General Benefits 13

SECTION F: Cost Estimate 17

SECTION G: Apportionment Method 18

SECTION H: Assessment Roll 25

ENGINEER'S STATEMENT

This Report is prepared pursuant to Article XIID of the California State Constitution (Proposition 218) and the State of California Property and Business Improvement District Law of 1994 as amended.

The Downtown Stockton Property-Based Business Improvement District ("PBID") will provide activities either currently not provided or are above and beyond what the City of Stockton provides. These activities will specially benefit each individual assessable parcel in the PBID. Every individual assessed parcel within the PBID receives special benefit from the activities identified under Section B of this Report. Only those individual assessed parcels within the PBID receive the special benefit of these proposed activities; parcels contiguous to and outside the PBID and the public at large may receive a general benefit, as outlined in Section E. The cost to provide general benefits, if any, will be funded from sources other than special assessments.

The duration of the proposed PBID is ten (10) years, commencing January 1, 2018. An estimated budget for the PBID improvements and activities is set forth in Section D. Assessments will be subject to an annual increase of up to 5% per year as determined by the Owners' Association. Assessment increases must stay between 0% and 5% in any given year. Funding for the PBID improvements and activities shall be derived from a property-based assessment of each specially benefitted parcel in the PBID. A detailed description of the methodology for determining the proportional special benefit each individual assessable parcel receives from the service and the assessment for each parcel is set forth in Section F.

I hereby certify to the best of my professional knowledge that each of the identified assessable parcels located within the PBID will receive a special benefit over and above the benefits conferred to those parcels outside of the PBID boundary and to the public at large and that the amount of the proposed special assessment is proportional to, and no greater than the special benefits received.

Respectfully submitted,

Terrance E. Lowell, P.E.

SECTION A: LEGISLATIVE AND JUDICIAL REVIEW

Property and Business Improvement District Law of 1994

The Property and Business Improvement District Law of 1994 (the "State Law") is the legislation that authorizes the City to levy assessments upon real property for the purposes of providing improvements and activities that specially benefit each individual assessed parcel in the PBID. The purpose of the PBID is to encourage commerce, investment, and business activities. In order to meet these goals PBIDs typically fund activities and improvements, such as, enhanced safety and cleaning. Unlike other assessment districts which fund the construction of public capital improvements or maintenance thereof, PBIDs provide activities and improvements "to promote the economic revitalization and physical maintenance of the business districts of its cities in order to create jobs, attract new businesses, and prevent the erosion of the business districts." (Streets and Highways Code Section 36601(b)). The improvements and activities funded through the PBID are over and above those already provided by the City within the PBID's boundaries. Each of the PBID activities or improvements is intended to increase building occupancy and lease rates, to encourage new business development, attract businesses that benefit the parcels, and improve the economic vitality of parcels.

Specifically, the State Law defines "Improvements" and "Activities" as follows:

*"Improvement" means the acquisition, construction, installation, or maintenance of any tangible property with an estimated useful life of five years..."*¹

"Activities" means, but is not limited to, all of the following:

- (a) Promotion of public events which benefit businesses or real property in the district.*
- (b) Furnishing of music in any public place within the district.*
- (c) Promotion of tourism within the district.*
- (d) Marketing and economic development, including retail retention and recruitment.*
- (e) Providing safety, sanitation, graffiti removal, street and sidewalk cleaning, and other municipal services supplemental to those normally provided by the municipality.*
- (f) Activities which benefit businesses and real property located in the district.*²

Article XIID of the State Constitution

In 1996, California voters approved Proposition 218, codified in part as Article XIID of the State Constitution. Among other requirements, Article XIID changes the way local agencies enact local taxes and levy assessments on real property. It states, in relevant part, that:

(a) An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel. Only special benefits are assessable, and an agency shall separate the general benefits

¹ California Streets and Highways Code, Section 36610.

² California Streets and Highways Code, Section 36613.

from the special benefits conferred on a parcel. Parcels within a district that are owned or used by any agency, the State of California or the United States shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly-owned parcels in fact receive no special benefit.

(b) All assessments shall be supported by a detailed engineer's report prepared by a registered professional engineer certified by the State of California.³

"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."⁴

Judicial Guidance

Since the enactment of Article XIID, the courts have rendered opinions regarding various aspects of Article XIID. The notable portions of cases that apply to assessment districts in general and this Downtown Stockton PBID in particular are noted below.

"The engineer's report describes the services to be provided by the PBID [i.e. the PBID]; (1) security, (2) streetscape maintenance (e.g., street sweeping, gutter cleaning, graffiti removal), and (3) marketing, promotion, and special events. They are all services over and above those already provided by the City within the boundaries of the PBID. And they are particular and distinct benefits to be provided only to the properties within the PBID, not to the public at large—they 'affect the assessed property in a way that is particular and distinct from [their] effect on other parcels and that real property in general and the public at large do not share."⁵

"...separating the general from the special benefits of a public improvement project and estimating the quantity of each in relation to the other is essential if an assessment is to be limited to the special benefits."⁶

"...the agency must determine or approximate the percentage of the total benefit conferred by the service or improvement that will be enjoyed by the general public and deduct that percentage of the total cost of the service or improvement from the special assessment levied against the specially benefitted property owners."⁷

"...even minimal general benefits must be separated from special benefits and quantified so that the percentage of the cost of services and improvements representing general benefits, however slight, can be deducted from the amount of the cost assessed against specially benefitting properties."⁸

The contents of this Engineer's Report are prepared in compliance with the above noted authorizing legislation, the State Constitution and the judicial opinions.

SECTION B: IMPROVEMENTS AND ACTIVITIES

The Downtown Stockton property owners and business owners collectively determined the priority for improvements and activities that the PBID will deliver are Safe and Clean programs, Homeless Outreach as well as Economic Development activities. Specifically, the Downtown Stockton PBID shall provide the following activities.

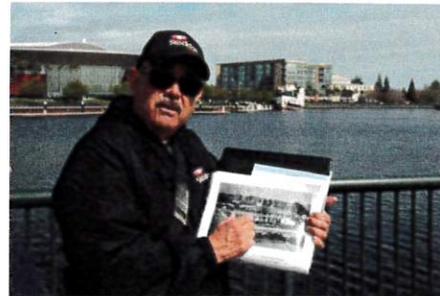

Environmental Enhancements

To respond to stakeholder priorities and guiding principles to make Downtown both more welcoming, clean and beautiful, the PBID funded Ambassador program will be strengthened moving forward. It provides for an increase in funding for Safety Ambassadors and Clean Team to allow for increases in program labor costs and a focused effort to address the homeless and transient population.

PBID Environmental Enhancements activities and improvements are intended to improve commerce and the quality of life by making each individual assessed parcel safer, cleaner and more attractive which will encourage investment dollars downtown and generate additional pedestrian traffic. Environment activities specially benefit each individual assessed parcel, including commercial, government, parking structures, non-profits and residential.

Safety Ambassadors

The Safety Ambassadors will continue to provide security services for the individual assessed parcels located within the District in the form of patrolling personnel and downtown ambassadors. The purpose of the Safety Ambassadors is to prevent, deter and report illegal activities taking place on the streets, sidewalks, storefronts, parking lots and alleys. The presence of the Safety Ambassadors is intended to deter such illegal activities as public urination, indecent exposure, trespassing, drinking in public, prostitution, illegal panhandling, illegal vending, and illegal dumping. The Ambassadors that act as the "eyes and ears" on the street will supplement, not replace, other ongoing police, security and patrol efforts within the District. The Safety Ambassadors will maintain communication with the Stockton Police Department area patrols and intends to report illegal activities to them. The Safety Ambassadors will only be provided to benefit Zone 1 as that has the highest concentration of pedestrian traffic and commercial activity.

Night Security Patrol

The PBID may continue to invest in the night vehicle patrol which currently patrols the District approximately 40 hours per week. Their services are to support the police department, property owners and tenants in overall efforts to prevent crime and reduce street disorder. Their presence is a deterrent to theft and burglary from motor vehicles and disorderly conduct.

Options for Enhanced Security and Homeless Outreach

The PBID renewal process has evidenced continued property owners concern with both the reality and perception of public safety within the PBID. There are a variety of elements contributing to

this concern, including ongoing challenges with homeless populations, and nuisance crimes, compounding maintenance issues, and creating an intimidating street atmosphere.

In order to effectively address these concerns the PBID may also fund, in addition to the information and safety ambassadors, programs and activities that target nuisance crimes. Based on best practices from other PBID districts in California, the additional funded activities may include the following to be determined by the PBID Owner's Association and approved by the City Council:

- A "navigator program" in which ambassadors would be tasked with a case management approach to match chronic homeless individuals with available social services (Sacramento, Santa Monica).
- A community prosecutor that would provide restorative justice remedies, such as, community service hours, removing graffiti, and gum scraping, to individuals convicted of nuisance crimes (Sacramento, San Diego).
- Supplemental security patrols (in addition to ambassadors) working under the exclusive direction of the PBID Owner's Association and responding to activity exclusively within the boundaries of the PBID (Sacramento).
- Adjust ambassador training and deployment from hospitality to more of a private security emphasis (Stockton).

Clean Team Program

In order to consistently deal with cleaning issues, a Clean Team program will continue to be provided as it has for the last 20 years. A multi-dimensional approach has been developed consisting of the following elements. The clean team will only provide service to properties within benefit Zones 1 and 2 of District boundaries. The special benefit to parcels from these services is increased commercial activity which directly relates to increases in lease rates and customer usage.

Downtown Stockton Clean Team: The Clean Team consistently deals with maintenance issues within the District. To effectively deal with the maintenance issues facing Downtown Stockton, a multi-dimensional approach has been developed consisting of the following elements:

Sidewalk Maintenance: Uniformed, radio-equipped personnel sweep litter, debris, and refuse from sidewalks and gutters of the District, and clean all sidewalk hardscape such as trash receptacles, benches, and parking meters.

Alley Maintenance: The Clean Team and Ambassadors can each have responsibility in this area. The Ambassadors address owner and tenant compliance with City code issues on cleanliness of sidewalks, alleys and illegal dumping. The Clean Team crew can sweep alleys, remove graffiti and clear the alleys of debris when a responsible party cannot be found for illegal dumping or other violations.

Graffiti Removal: The Clean Team can remove graffiti using solvent and pressure washing. The District will maintain a zero-tolerance graffiti policy. All tags will aim to be removed within 48 hours of notification.

Sidewalk Pressure Washing: Pressure wash all sidewalks, alleys and plazas on an as needed basis with areas of high pedestrian traffic receiving the highest concentration. However, during drought years pressure washing may not be permitted.

Landscape Maintenance: Public landscape areas including; medians, tree wells, and planters will be maintained and kept free of litter and weeds and pruning of trees 20' and under.

Estimated deployment of the Safety Ambassadors, Night Patrol and Clean Team is anticipated on the following table:

Maintenance Frequencies	Zone 1	Zone 2
Maintenance F.T.E.	220 hours per week (approximately 5.5 F.T.E.)	
Average Weekly Coverage	7 days/week	5 days/week
Litter removal/pan & broom	Twice per day	Once per day
Detail cleaning of public amenities	Twice per day	Once per day
Graffiti removal	Daily as needed	Daily as needed
Large Object removal	As needed	As needed
Street Tree Well Maintenance	As needed	As needed
Weed removal/spraying	Seasonal as needed	Seasonal as needed
Pressure washing/spot cleaning	Daily/as needed	Daily/as needed
Pressure washing/scheduled cleaning	2 nights per week	Once per month
Ambassadors and Security Patrol	Zone 1 Only	
Ambassadors F.T.E.	160 hours per week (approximately 4.0 F.T.E.)	
Coverage	6 days/week 8 to 20 hours daily	
Primary method of coverage	Foot patrols/EV	
Patrol rounds	4 rounds per shift	
Night Security Patrol	40 hours per week - vehicle	
Business contacts	6-10 per shift	
Visitor contacts	Daily unlimited	
Jury Contacts	1 hour daily	
Tours	2 hours weekly	
Outreach with street populations	Daily as needed	
Reporting	Daily unlimited	

Beautification

In addition to clean and safe services, the PBID budget may include funds for beautification and placemaking improvements that are defined as cosmetic enhancements that improve the appearance and walkability within the PBID, in turn encouraging customer traffic and improved quality of life for residents. Examples of beautification improvements might include:

- Design and installation of flowering planters and baskets
- Directional/wayfinding signage or themed historical downtown signage
- Street furniture and amenities, such as benches, kiosks and lighting
- Design and installation of art and decorative elements
- Holiday décor or tree lighting
- Bicycle racks and other hardware
- Urban design and/or planning services to advance beautification efforts
- Other cosmetic enhancements that improve the PBID's appearance.

Economic Enhancements

Business development ranked highest among property and business owners as the single most important program that the PBID should provide. Moving forward with the PBID, economic development and marketing activities will shift from consumer marketing to investor marketing. All benefit zones will receive and benefit from the Economic Enhancement activities. The PBID's Economic Development Committee will develop annual work programs that may include the following:

Economic Development

Services to aide in efforts to attract a stronger mix of businesses and work with tenants/owners and city staff to expedite the city permitting process. Options may include:

- Design and production of investor marketing packages to assist real estate brokers, developers and property owners in business recruitment efforts.
- Maintenance of a district database with local market and real estate information.
- Market research and market-based planning to target private investment to strengthen the downtown marketplace.
- Trouble-shooting and permitting liaison services to assist property and business owners to invest and operate in the district. Coordinate with the City on these services.
- Enhanced research and development of the downtown website.
- Coordinate efforts with the City of Stockton in developing an outreach program to property owners, real estate brokers and local/regional businesses to develop under-utilized downtown properties.
- Business retention efforts to encourage existing businesses to grow.

Destination Marketing

Programs that aim to position downtown Stockton as a dining, retail and arts destination. Marketing programs must demonstrate collective benefits to business and property owners. Options may include:

- Advertising, including branding, coordinated campaigns and increased placement and frequency in mass media venues.
- Public relations efforts to promote a positive image and overall experience.
- Increased distribution and enhanced quality of publications, including the downtown map and directory and future activity guides.
- Improved special event production and promotions.
- Design, installation and maintenance of a new downtown directional signage system.

Communication

Services to better inform business and property owners.

- Continued publication of a downtown district newsletter.
- PBID ratepayer surveys to measure overall satisfaction with programs.
- Media relations activities to project a creative and exciting business image in local, regional and national media.

Special Events

The Special Events budget is reserved for opportunities to continue providing existing events downtown, e.g. Full Moon Riders, Love You Baby, the Great Big Read, Music to our Ears, or to add additional events that present themselves during the life of the district. These special events improve commerce by drawing people downtown and introducing them to opportunities to dine, shop, or engage in commerce.

Parking Initiatives

The PBID will work in concert with the City staff to explore options for improving parking management and mobility options to and within Downtown. Options include identifying employee parking and transit options, creating parking promotions for consumers and modifying parking fee hours to encourage consumer traffic during non-business hours.

Advocacy, Administration and Reserve

The PBID supports a professional staff that delivers programs and advocates on behalf of the Downtown district. The PBID allows downtown property owners to project a unified voice and elevate their influence in policies and issues that affect the central business district. Funds are allocated to office and support services such as bookkeeping, office rent, insurance, office equipment and professional development and training for the staff and the PBID's Owners' Association. A \$10,000 operating reserve is also budgeted as a contingency for any payment of delinquencies and/or unforeseen budget adjustments.

SECTION C: BENEFITTING PARCELS

The District encompasses approximately 123 blocks in the downtown central core. It primarily runs west along the Stockton channel to the I-5 Freeway, north to Fremont and Oak Streets, east to the railroad, and south to Sonora Street.

Specifically, the district boundary is as follows:

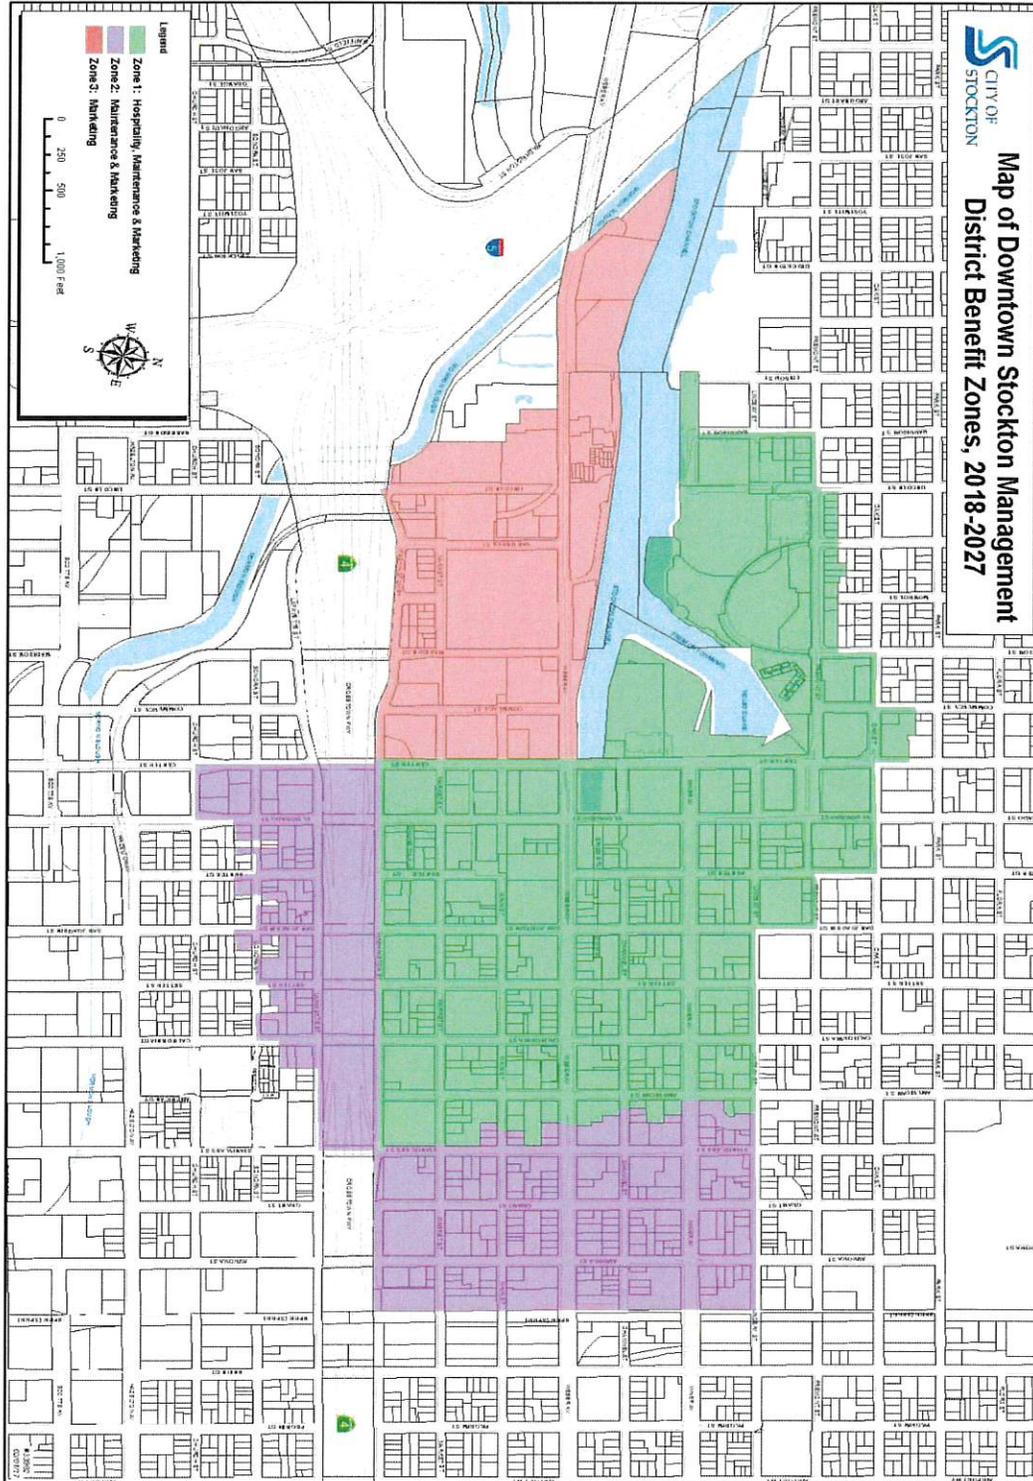

Beginning at the southwest corner of Lindsay Street and Southern Pacific Railroad tracks and traveling south along the west side of the SPRR tracks to Washington Street. West along the south side of Washington Street to the west side of Stanislaus Street., then south along the west side of Stanislaus Street to the north side of Lafayette Street. West along the northern side of Lafayette Street, then south along the east side of parcels facing the east side of California Street to Sonora Street. Then west along Sonora Street to El Dorado Street; some parcels on the north and south sides of Sonora Street have been included and some have been excluded. South along El Dorado Street to Church Street, then west along Church Street to Center Street. North along Center Street to the south side of Washington Street, then west along Washington Street to the west side of Lincoln Street. North on Lincoln Street to the south side of Weber Avenue; some parcels facing the east side of Lincoln Street may be included. West along the south side of Weber Avenue to the east side of Mormon Slough; some parcels facing the south side of Weber Avenue may be included. Northwest along the east side of Mormon Slough to the south side of the Stockton Deepwater Channel. East along the Stockton Deepwater Channel to the west side of Center Street, following the easterly border of the Channel north to Steamboat Levee; then following the northerly border of the Channel east to the west side of Miner Levee. Along the western and northern border of Miner Levee to Harrison Street. North along Harrison Street to Fremont Street, then east along Fremont Street to Lincoln Street. East along the north side of parcels facing Fremont Street to Madison Street. North along Madison Street to Oak Street, then east along the north side of parcels facing Oak Street to Center Street. Continue east along Oak Street to Hunter Street, south along Hunter Street to Fremont Street, then east along Fremont Street to San Joaquin Street. South on San Joaquin street to Lindsay Street, then east along Lindsay Street to the point of beginning.

Because the scope and nature of the District and level of services to be provided vary in different parts of the District, three benefit zones have been established based on these variations. The following is a description of these benefit zones:

Zone 1: Zone 1 follows along the western and northern border of Miner Levee to Harrison Street. North along Harrison Street to Fremont Street, then east along Fremont Street to Lincoln Street. East along the north side of parcels facing Fremont Street to Madison Street. North along Madison Street to the Oak Street, then east along the north side of parcels facing Oak Street to Center Street. Continue east along Oak Street to Hunter Street, south along Hunter Street to Fremont Street, then east along Fremont Street to San Joaquin Street. South on San Joaquin Street to Lindsay Street, then east along Lindsay street to American Street. South along American Street including most parcels fronting the east side of American Street to Washington Street, including APN 14918006 fronting Main Street.

Zone 2: Zone 2 includes all parcels in the District to the east and south of Zone 1.

Zone 3: Zone 3 includes all parcels south of the Stockton Deepwater Channel and west of Center Street within the District boundaries.

SECTION D: PROPORTIONAL BENEFITS

Methodology

Article XIII D Section 4(a) of the State Constitution states that "The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of the public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided."

Determining the proportionate special benefit among the parcels of real property within the proposed assessment district which benefit from the proposed improvements, services, and activities is the result of a four-step process:

1. Defining the proposed activities,
2. Determining which parcels specially benefit from the proposed activities,
3. Determining the amount of special benefit each parcel receives,
4. Determining the proportional special benefit a parcel receives in relation to the amount of special benefit all other parcels in the PBID receive.

Each identified parcel within the Downtown Stockton PBID will be assessed based upon each parcel's unique characteristics in relationship to all other specially benefitted parcels' characteristics. Due to the proportionate special benefits received by each parcel from the PBID services, each parcel will be assessed a rate which is commensurate with the amount of special benefits received.

Special Benefit Factor

Downtown Stockton property owners and business owners have emphasized that the assessment formula for the Downtown Stockton PBID be fair, balanced, and have a direct relationship to special benefits received. The State enabling legislation also states, "Assessments levied on real property...shall be levied on the basis of the estimated benefit to the real property within the...district."

The method used to determine proportional special benefits are measured by each parcel's lot square footage, first floor building square footage, plus the upper floor building square footage. Each parcel's proportional lot size, first floor building square footage and upper floor building square footage represents each parcel's proportional special benefit compared to other parcels within in respective benefit zone. Lot square footage is relevant to the best use of a property and will reflect the long term special benefit implications of the improvement district. First floor and Upper floor building square footage is relevant to the interim use of a property and is utilized to measure short and mid-term impacts.

Lot Square Footage Defined. Lot square footage is defined as the total amount of area within the borders of the parcel. The borders of a parcel are defined on the County Assessor parcel maps.

First Floor Building Square Footage Defined. First floor building square footage is defined as the first floor gross building square footage as determined by the outside measurements of a building.

Upper Floor Building Square Footage Defined. Upper floor building square footage is defined as the remaining gross building square footage less the first floor building square footage as determined by the outside measurements of a building. Basements are not included in this allocation.

The PBID activities are primarily provided at the street level and thus allocating the greatest special benefit to the lot and first floor of a building. The upper floors of a building also benefit from the PBID activities but since they are not on the ground floor and do not receive the direct benefit, the upper floors are assessed at 50% of the ground floor to acknowledge their diminished special benefit.

SECTION E: SPECIAL and GENERAL BENEFITS

State Law, Proposition 218, and judicial opinions require that assessments be levied according to the estimated special benefit each assessed parcel receives from the activities and improvements. Article XIID Section 4(a) of the California Constitution in part states that “only special benefits are assessable,” which requires that we separate the general benefits, if any, from the special benefits provided by the proposed activities and improvements.

As of January 1, 2015, the State Legislature amended the State Law to clarify and define both special benefit and general benefit as they relate to the improvements and activities these districts provide. Specifically, the amendment (Section 36615.5 of the Streets and Highways Code) defines special benefit as follows: “Special benefit’ means, for purposes of a property-based district, a particular and distinct benefit over and above general benefits conferred on real property located in a district or to the public at large. Special benefit includes incidental or collateral effects that arise from the improvements, maintenance, or activities of property-based districts even if those incidental or collateral effects benefit property or persons not assessed.”

In addition, the amendment (Section 36609.5 of the Streets and Highways Code) defines general benefit as follows: “General benefit’ means, for purposes of a property-based district, any benefit that is not a ‘special benefit’ as defined in Section 36615.5.”

Furthermore, the amendment (Section 36601(h)(2)) states: “Activities undertaken for the purpose of conferring special benefits upon property to be assessed inherently produce incidental or collateral effects that benefit property or persons not assessed. Therefore, for special benefits to exist as a separate and distinct category from general benefits, the incidental or collateral effects of those special benefits are inherently part of those special benefits. The mere fact that special benefits produce incidental or collateral effects that benefit property or persons not assessed does not convert any portion of those special benefits or their incidental or collateral effects into general benefits.”

Special Benefit Analysis

All special benefits derived from the assessments outlined in this report are for property related activities directly benefiting each individual assessed parcel in the PBID. The special benefit must affect the individual assessable parcel in a way that is particular and distinct from its effect on other parcels, and that real property in general and the public at large do not share. No parcel's assessment shall be greater than the special benefits received.

Streets and Highways Code Section 36601(e) states that “Property and business improvement districts formed throughout this state have conferred special benefits upon properties and businesses within their districts, and have made those properties and businesses more useful by providing the following benefits: (1) Crime reduction. A study by the Rand Corporation has confirmed a 12-percent reduction in the incidence of robbery and an 8-percent reduction in the total incidence of violent crimes within the 30 districts studied. (2) Job creation. (3) Business attraction. (4) Business retention. (5) Economic growth. (6) New investments.

The PBID's goal is to fund activities and improvements that provide a cleaner, safer, and more attractive and economically vibrant environment as outlined in Section B. The goal of improving

the economic vitality is achieved by improving the safety, cleanliness, marketing, and appearance of each specially benefitted parcel in an effort to increase commerce, to increase building occupancy and lease rates, and to attract more customers, employees, tenants and investors.

Each parcel will specially benefit from:

- Cleaner and safer sidewalks, streets, alleyways, and common areas
- Real and perceived public safety improvements
- Greater pedestrian traffic
- Enhanced rental incomes
- Improved business climate
- New business and investment
- Well managed programs and services

Specifically, each parcel benefits from each of the PBID activities as defined below.

Safety

The enhanced safety activities make the area more attractive for businesses, customers, residents, and ultimately private investment. When business location decisions are made, "lower levels of public safety lead to increased uncertainty in decision making and can be perceived as a signal of a socio-institutional environment unfavorable for investment. Uncertainty affects the investment environment in general. But in particular, it increases the fear of physical damage to investment assets (or to people) or their returns...Almost universally, places with lower crime rates are perceived as more desirable".⁹ Once economic investment occurs within the district, pedestrian traffic and commercial activity will increase. The special benefit to assessed parcels from these services is the likelihood of increased lease rates and tenant occupancy due to the increase of commercial activity, and an increase in customers that follow from having a safer environment.

Maintenance and Beautification

The maintenance and beautification activities benefit each assessed parcel within the PBID by providing a clean and aesthetically appealing environment. This is achieved through sidewalk sweeping and power washing, removing litter and graffiti, and trash removal. In addition, the beautification activities benefit each assessed parcel by providing wayfinding signage, sidewalk benches, holiday décor, planters, etc. These activities create the environment needed to achieve the PBID goals.

Economic Development

The economic development activities will specially benefit each assessed parcel by encouraging business development and investment. This generates customer traffic which directly relates to increases in commercial activity including residential serving businesses, filling of vacant storefronts and offices, and ultimately increased lease rates for retail and office space.

Special Benefit Conclusion

Based on the special benefits each assessed parcel receives from the PBID activities, we

⁹ "Accelerating economic growth and vitality through smarter public safety management" IBM Global Business Services Executive Report, September 2012, pg. 2

concluded that each of the proposed activities provides special benefits to the real property within the district, and that each parcel's assessment is in direct relationship to and no greater than the special benefits received.

The special benefit to parcels from the proposed PBID activities and improvements described in this report is equal to or exceeds the total amount of the proposed assessment. Each individual assessed parcel's assessment is no greater than the special benefit it receives from the PBID activities.

General Benefit Analysis

As required by the State Constitution Article XIID Section 4(a), the general benefits of an assessment district must be quantified and separated out so that the cost of the activities that are attributed to general benefit are deducted from the cost assessed against each specially benefitted parcel. General benefits are benefits from the PBID activities and improvements that are not special in nature, are not "particular and distinct", and are not over and above the benefits that other parcels receive. This analysis will evaluate and determine the level of general benefits that (1) parcels inside of the Downtown Stockton PBID, (2) parcels outside of the PBID, and (3) the public at large may receive.

General Benefit to Parcels Inside of the Downtown Center PBID

The Downtown Stockton PBID provides funds for activities and improvements that are designed and created to provide special benefits to each individually assessed parcel within the District. Each individual assessed parcel will specially benefit from the cleaner and safer public rights-of-way and increased economic activity, thus 100% of the benefits conferred on these parcels are distinct and special in nature and that 0% of the PBID activities provide a general benefit to parcels in the District boundary.

General Benefit to Parcels Outside of the PBID

All the PBID activities and improvements are provided solely to each of the individual assessed parcels in the PBID boundary. Each of the PBID activities is provided to the public right-of-ways (streets, alleys, sidewalks) adjacent to all specially benefitted parcels or tenants in the PBID. None of the surrounding parcels will directly receive any of the PBID activities. Any benefits these parcels may receive are incidental to providing special benefits to the assessed parcels, and thus any cost associated to the incidental benefits are not reduced from the cost of providing special benefit.

General Benefit to the Public At Large

In addition to general benefit analysis to the parcels outside of the Downtown Stockton PBID boundary, there may be general benefits to the public at large, i.e., those people that are either in the PBID boundary and not specially benefitted from the activities, or people outside of the PBID boundary that may benefit from the PBID activities. In the case of the Downtown Stockton PBID, the public at large are those people that are within the PBID boundary that do not pay an assessment and do not specially benefit (employees, tenants, and customers) from the PBID activities.

To calculate the general benefit the public at large may receive we determine the percentage of each PBID activity budget that may benefit the general public. In this case, the Environmental

Enhancement activities may generally benefit the public as the general public may appreciate the enhanced level of maintenance, security and beautification as it passes through the District. The Economic Enhancements such as; economic development and marketing activities are tailored to benefit the tenants of each parcel and are not intended to benefit the general public. If there are any public benefits, they are incidental and collateral to providing special benefits to the assessed parcels.

We then apply a Relative Benefit factor to the Environment Enhancement activities accounting for the potential benefit the general public may receive. The relative benefit factor is a basic unit of measure that compares the benefit the general public receives compared to the public that specially benefits (employees, tenants, customers) from this activity. Since the specially benefitted public receives 100% of the activities and special benefit it is assigned a relative benefit factor of 1.0 for this activity. The general public does not directly receive any District activity and thus, is assigned a relative benefit factor less than 1.0. There is no scientific method to determine the relative benefit factors, however in our professional experience of over 50 years as a Registered Civil Engineer and the results of previous studies conducted to determine a relative benefit factor for the general public in Stockton and other jurisdictions the general public receives a relative benefit factor of 0.05 for the Environmental Enhancement activities. Based on our professional experience and the results of previous studies, it is reasonable to conclude that this relative benefit factor properly accounts for the general public that is not specially benefitted.

The relative benefit factor is then multiplied by the District activity's budget percentage to determine the overall benefit factor. The following table illustrates this calculation.

	A	B	C	D	E
ACTIVITY	Budget Amount	% of Budget	General Benefit Factor	General Benefit Percent (B x C)	General Benefit Allocation (A x D)
Environmental	\$650,000	60.19%	5.00%	3.01%	\$19,560

This analysis indicates that \$19,560 of the Environmental Enhancement activities may be attributed to general benefit to the public at large, and must be raised from sources other than special assessments.

General Benefit Conclusion

Using the sum of the three measures of general benefit described above we find that \$19,560 or 1.81% of the total budget may be general in nature and will be funded from sources other than special assessments.

SECTION F: COST ESTIMATE

2018 Operating Budget

The Downtown Stockton PBID's operating budget takes into consideration:

1. The improvements and activities needed to provide special benefits to each individual parcel within the Downtown Stockton PBID boundary (Section B),
2. The parcels that specially benefit from said improvements and activities (Section C), and
3. The costs associated with the special and general benefits conferred (Section E).

EXPENDITURES	BUDGET	% of Budget
Environmental Enhancements	\$650,000	60.19%
Economic Enhancements	\$240,000	22.22%
Advocacy/Administration	\$180,000	16.67%
PBID Reserve	\$10,000	0.93%
Total Expenditures	\$1,080,000	100.00%
REVENUES		
Assessment Revenues	\$1,059,761	98.13%
Other Revenues (1)	\$20,239	1.87%
Total Assessment District Revenues	\$1,080,000	100.00%

(1) Other non-assessment funding to cover the cost associated with general benefit and program costs.

Budget Adjustments

- Annual assessments may increase no more than 5% per year, consistent with the increase in consumer price index (CPI) and/or other increases in program costs. The determination of annual adjustments in assessment rates will be subject to the review and approval of the board of the Owners Association.
- Revenues for Environmental and Economic Enhancements service categories may be reallocated among these service categories from year to year based upon district needs and budgets developed by the Owners' Association. The reallocation shall not exceed 10% per year.

SECTION G: APPORTIONMENT METHOD

As previously discussed, the PBID activities are segregated into three benefit zones to account for various levels of services area needs and benefits. The table below summarizes the PBID activities provided to each benefit zone.

Activity	Zone1	Zone 2	Zone 3
Environmental Enhancements			
- Safety Ambassadors	X		
- Clean Team	X	X	
- Beautification	X	X	
Economic Enhancements	X	X	X
Advocacy/Administration	X	X	X

The preceding methodology is applied to a database that has been constructed by the Downtown Stockton Alliance and the San Joaquin County Assessor's Office.

Benefit Zone Adjustments: The assessments are adjusted to reflect anticipated service frequencies within each of two benefit zones:

- **Benefit Zone 1**, which includes the core of the PBID, provides a higher frequency of environmental enhancements.
- **Benefit Zone 2**, which includes areas east and south of Zone 1 provides all the same services as Zone 1 except for the Safety Ambassadors.
- **Benefit Zone 3**, includes all remaining properties southwest of Zone 1 and receives all activities under Economic Enhancements but will not receive any services from the Environmental Enhancements.

Total Estimated Assessments: Based upon the methodology, property data and the proposed PBID budget, approximate lot and building assessments are calculated. Assessments will not exceed the following amounts per foot during the first year of the renewed PBID:

Zones	Lot	First Floor	Upper Floor
Zone 1: Commercial	\$0.0800	\$0.0800	\$0.0400
Zone 1: Residential	\$0.0480	\$0.0480	\$0.0240
Zone 2: Commercial	\$0.0443	\$0.0443	\$0.0222
Zone 2: Residential	\$0.0266	\$0.0266	\$0.0133
Zone 3: Commercial	\$0.0242	\$0.0242	\$0.0121
Zone 3: Residential	\$0.0000	\$0.0000	\$0.0000

Sample Parcel Assessments

Zone 1: To calculate the assessment for a commercial parcel in Zone 1 with a 5,000 square foot lot, a 5,000 square foot first floor and 15,000 square feet upper floor the calculation is as follows:

Lot square feet (5,000) x \$0.0800 =	\$400.00
First floor building square feet (5,000) x \$0.0800 =	\$400.00
Upper floor building square feet (15,000) x \$0.0400 =	<u>\$600.00</u>

Total Parcel Assessment = \$1,400.00

Zone 2: To calculate the assessment for a commercial parcel in Zone 2 with a 5,000 square foot lot, a 5,000 square foot first floor and 15,000 square feet upper floor the calculation is as follows:

Lot square feet (5,000) x \$0.0443 =	\$221.50
First floor building square feet (5,000) x \$0.0443 =	\$221.50
Upper floor building square feet (15,000) x \$0.0222 =	<u>\$333.00</u>
Total Parcel Assessment =	\$776.00

Zone 3: To calculate the assessment for a commercial parcel in Zone 3 with a 5,000 square foot lot, a 5,000 square foot first floor and 15,000 square feet upper floor the calculation is as follows:

Lot square feet (5,000) x \$0.0242 =	\$121.00
First floor building square feet (5,000) x \$0.0242 =	\$121.00
Upper floor building square feet (15,000) x \$0.0121 =	<u>\$181.50</u>
Total Parcel Assessment =	\$423.50

The assessment calculation is the same for every parcel in the PBID respective of each benefit zone and land use type.

Property Use Considerations

The methodology provides the following treatments for property used exclusively for residential uses:

Treatment of Residential Property: Proposition 218 states that no parcel is exempt from assessments if that parcel receives benefit from the improvements and activities, this includes residential use parcels. Residential uses will fully benefit from environmental enhancement services and will pay a full share of these services; however, economic enhancement services will not benefit residential uses and the residential rate is adjusted accordingly. The residential portion of commercial and mixed-use parcels with residential uses will be subject to the adjusted residential assessment rate. Residential parcels with 6 or more units are considered a commercial enterprise and therefore assessed at the commercial rate.

Public Property Assessments

Proposition 218 states that no parcel is exempt from assessments if that parcel receives benefit from the improvements and activities. This includes government and Public use parcels. The City of Stockton and any other government owned parcels within the PBID boundary will pay their assessment based on the special benefits conferred to those parcels. All publicly owned parcels specially benefit from the PBID activities as they make each assessed parcel cleaner, safer, more attractive, and economically vibrant. Specifically, these parcels specially benefit from: removing graffiti from their buildings, patrolling their sidewalks, connecting the homeless to available resources, cleaning up any debris or trash, powerwashing the sidewalks, beautifying the public right-of-ways, and increased business development.

Therefore, government uses are assessed for the special benefits they receive from the PBID activities. The assessment methodology to allocate the cost of these improvements is consistent with all other land uses in the district: parcel square footage plus first floor building square footage and upper floor building square footage. Please see Section 6: Assessment Methodology for further discussion.

The publicly owned parcels within the PBID boundary and their respective assessments are indicated below.

Maximum Annual Assessment Adjustments

The cost of providing programs and services may vary depending on the market cost for those programs and services. Expenditures may require adjustment up or down to continue the intended level of programs and services. Assessments maybe subject to annual increases not to exceed the assessment rates in the table below for any given year. Increases will be determined by the District Owner's Association and will vary between 0% and 5% in any given year. Any change will be approved by the owner's association board of directors and submitted to the City within its annual planning report, pursuant to Section 36650 of the California Streets and Highways Code.

Budget Adjustment

Any annual budget surplus will be rolled into the following year's District budget. The budget will be set accordingly, within the constraints of the management plan to adjust for surpluses that are carried forward. District funds may be used to fund the cost of renewing the District. Funds from an expired District shall be rolled over into the new District if one is established, or returned to the property owners if one is not established, in accordance with the Streets and Highways Code section 36671.

If an error is discovered on a parcel's assessed footages, the District may investigate and correct the assessed footages after confirming the correction with the San Joaquin County Assessor Data and City Clerk's office. The correction will be made in accordance with the assessment methodology and may result in an increase or decrease to the parcel's assessment.

The cost of providing programs and services may vary depending on the market cost for those programs and services. Expenditures may require adjustment up or down to continue the intended level of programs and services. The owner's association shall have the right to reallocate up to 10% by line item of the budget allocation within the budgeted categories. Any change will be approved by the owners' association board of directors and submitted to the City of Stockton within its annual planning report, pursuant to Section 36650 of the California Streets and

Highways Code. The overall budget shall remain consistent with this Management District Plan. Each assessed parcel pays for 100% of the special benefit received based on the level of benefit received.

Future Development

As a result of continued development, the District may experience the addition or subtraction of assessable footage for parcels included and assessed within the District boundaries. The modification of parcel improvements assessed within the District may then change upwards or downwards the amount of total footage assessment for these parcels, pursuant to Government Code 53750, will be prorated to the date they receive the temporary and/or permanent certificate of occupancy. Parcels that experience a loss of building square footage need to notice the District of changes.

In future years, the assessments for the special benefits bestowed upon the included PBID parcels may change in accordance with the assessment methodology formula listed in the Management District Plan and Engineer's Report provided the assessment rate does not change. If the assessment formula changes and increases assessments then a Proposition 218 ballot will be required for approval of the formula changes.

Bond Issuance

The District will not issue bonds.

SECTION H: ASSESSMENT ROLL

The total assessment amount for FY 2017/2018 is \$1,059,761 apportioned to each individual assessed parcel, as follows.
