Civil Service Commission  
City of Stockton  
Care of Deputy City Manager/HR Director Laurie Montes

*Via e-mail*

**RE: Request to investigate City hiring practices and adherence to Civil Service Rules-**

Dear Commission:

My office represents Stockton City Employees Association (SCEA), the City's administrative, clerical, professional, and technical bargaining unit. SCEA requests the Commission employ its power under Rule X, Sec. 1 of Commission rules to investigate current hiring practices of the City of Stockton, focusing on the frequent misuse of the *Program Specialist* job classification. Rather than fill vacant full-time SCEA positions, the City continues to abuse the part-time employee job classification by rotating interns, retired annuitants, and part-time employees.

**Part-Time Employees Filling Full-Time Positions**

A public agency must negotiate the decision to transfer work in two situations: (1) where bargaining-unit employees cease to perform work which they had previously performed; or (2) where non-bargaining-unit employees begin to perform duties previously performed exclusively by unit employees. In *City of Escondido* (2013) PERB Decision No. 2311-M, the Public Employment Relations Board (PERB) reaffirmed that a public agency must meet and confer about the decision to transfer work out of the bargaining unit. PERB reminded public agencies they do not meet their obligations under the Meyers-Milias-Brown Act (MMBA) by merely negotiating the effects of transferring work. A public agency commits an unlawful unilateral change by failing to meet and confer over a decision to transfer work out of the bargaining unit. To date, the City has not negotiated their decision to not fill bargaining unit work with full-time workers.

As of Quarter 2, 2017, there were 89 part-time employees working in SCEA positions as "Program Specialists". SCEA acknowledges the necessity of maintaining some part-time employees in many of the Departments, particularly in the Library and Parks and Recreation Departments. However, the instances in which full-time employees are being replaced by part-timers has steadily increased.

Despite the Association's objections, the practice of using part-time workers to fill full-time positions continues not only in the Library and Recreational Services Departments, but more recently in the Internet Technology Department as well. Attached are the quarterly part-time employee reports verifying this trend. These lists also highlight the frequency in which part-time employees end up working close to full-time hours, another issue that raises concerns for SCEA. Part-time employees quickly reach 1000 hours of work before being replaced with other part-timers. The rotation of part-time employees adds to the burden of full-time SCEA employees because they are often tasked with training these short-term employees. Some SCEA members maintain a constant training role as a result

### **Hiring Practices in IT**

In January, management in the Internet Technology (IT) Department hired multiple interns and retired annuitants to underfill SCEA job classification. The City typically hires as many as six interns every six months, and then repeats the process in efforts to avoid filling full-time bargaining unit positions.

Currently, there are six interns and three to four retired annuitants performing SCEA duties.

### **Vacancies in MUD and Parks**

In MUD, there are currently four vacant SCEA administrative support staff positions. Rather than fill them, the City has hired one retired annuitant and two temporary workers to perform the outstanding department duties. All signs indicate that MUD will continue to rotate temporary workers rather than fill the SCEA classified positions.

In the Parks and Recreation Department, there are between two and three vacant, budgeted SCEA positions which the City has chosen to fill with part-time employees. This trend is becoming far too common and raises questions about the City's long-term plans to appropriately fill these positions.

### **Inconsistent Adherence to the City Charter**

City Charter section 2501 requires:

*Classified service of the City of Stockton shall include all employees of the Fire Department and Police Department...No person shall be appointed to, reinstated in, or transferred, suspended, demoted, or discharged from any such office, place, position, or employment contrary to the Charter.*

Despite the above language, there are currently ten (10) non-classified City employees split between the Fire and Police Departments. Fire employs two Program Manager II positions, and Police currently employs at least one.

The City continues to fill non-classified positions in Fire and Police yet refuses to process SCEA member reclassification requests based on the above charter language. At least one SCEA member was informed in April 2017 they were disqualified for reclassification from Project Manager I (classified) to Program Manager I (unclassified) because language in the

City charter forbids it. Four months later (8/16/17) the unclassified Police Services Manager position was filled. Again, this is inconsistent and unfair to SCEA members. In November 2017, SCEA contacted Human Resources and requested an explanation. The City took the position the unclassified status of the Program Manager positions are administrative errors that are pending update to classified. To date, no changes are known to have taken place. Unclassified employees continue to work in Fire and Police.

We ask that you investigate these concerns and take prompt and appropriate corrective action to direct staff to comply with the City's Charter and the Civil Service Rules.

Sincerely,

ROSE LAW A.P.C.
