**Contract Change Order No. 2**

**Project No. 14-30  
 2014 LED Arterial Street Light Conversion**

TO NET Electric, Inc. (Contractor). You are hereby directed to make the herein described changes from the plans and specifications or do the following described work not included in the plans and specifications of this contract.

**A. Replace the entire paragraph in the section 10-1.01, "Order of Work", Item No. 7, in Special Provisions page no. SP19 with the following;**

7. With proper and appropriate traffic control, the Contractor shall properly remove the existing HPS luminaire fixture from the street light pole and install new City furnished LED luminaire fixture per manufacturer's recommendation and specifications. The light face of the LED fixture shall be installed level and parallel to the road pavement. In some cases where rods are attached to the mast arm of the pole, adjusting the turn buckles on the rods using proper tools may be necessary to properly level the LED fixture. Existing Photocells shall be replaced with new City-furnished Photocells. Shunt caps (shorting caps) and power cables that are to be temporarily removed from the light fixtures shall be reinstalled unless they are in poor condition, then the Engineer or his designee shall be notified immediately. All Photocells and Shunt caps shall be properly installed, assuring that they are oriented to North and locked in place. This shall be done in the presence of the field inspector prior to installation of the LED fixture. The Contractor shall test the newly installed LED luminaire fixtures for any defects and make sure that they are properly working before moving to another job site. The new LED luminaire fixture shall be installed in a professional and workmanlike manner. Proper care of all materials should be exercised throughout this conversion.

Cost            \$0.00

**B. Increase in Contract Line Items**

**Item No. 1** – Extra cost as compensation for the Re-mobilization & Traffic Control System at agreed lump sum cost.

Cost            \$20,400.00

**Item No. 2** – Compensation for the cost of additional quantity of 2,100 units in contract line item no.2, converting existing HPS (High Pressure Sodium Fixture) street light luminaires to LED (Light Emitting Diode). The additional work will be paid at the contract item price.

Item No.	Description	Quantity	Unit	Unit Price	Cost Change
2	Luminaire Street Light Conversion	2100	EA	\$49.00	\$102,900.00

Cost            \$102,900.00

**Total Cost            \$123,300.00**

**2014 LED Arterial Street Light Conversion**

The additional compensation, if any, included in this change order constitutes full compensation, including all mark ups, profits, surcharges, taxes and overhead costs, for the change in work as specified.

We, the undersigned contractor, have given careful consideration to the change proposed and hereby agree, if this proposal is approved that we will provide all equipment, furnish all materials, except as may otherwise be noted above, and perform all services necessary for the work above specified, and will accept as full payment therefore the prices shown above.

By reason of this proposed change, 50 days extension of time will be allowed.

Accepted Date February 5, 2015
