STATE REASON FOR FILING THIS APPEAL: The establishment has been in operation for many years
under its current ownership but the application was evaluated as if it were a new alcoholic beverage sales
establishment.

The distance location requirement for closeness to a charter school should not have been considered because the
establishment's operations pre-existed the commencement of the operations of a charter school.

The High Crime Reporting District criteria was inappropriately applied based on evidence which was made available
to applicant only moments before the hearing, which was not part of the Staff Report, which was presented by
summary oral testimony which did not adequately explain the last minute document, and which contradicted the
Stockton Police Department official records provided to applicant pursuant to a public records act request.

The location requirement in proximity to other alcoholic beverage sales establishments was improperly because the
establishment has been in operation for many years under its current ownership and would not result in an
increased number of alcoholic beverage sales establishments, but the application was evaluated as if it were a new
alcoholic beverage sales establishment.
