- B. Under no circumstance will a budget item change be authorized that would cause the project to exceed the amount of the grant award identified in this Grant Agreement.

3. BUDGET CONTINGENCY CLAUSE

- A. This grant agreement is valid through CalVIP funding generated from the General Fund. The Grantee agrees that the BSCC's obligation to pay any sum to the grantee under any provision of this agreement is contingent upon the availability of sufficient funding granted through the passage of Assembly Bill 129 (Statutes of 2021, Chapter 21), also known as the California Budget Act of 2021. It is mutually agreed that if the Budget Act of the current year and/or any subsequent years covered under this Grant Agreement does not appropriate sufficient funds for the program, this Grant Agreement shall be of no further force and effect. In this event, the BSCC shall have no liability to pay any funds whatsoever to Grantee or to furnish any other considerations under this Agreement and Grantee shall not be obligated to perform any provisions of this Grant Agreement.
- B. If CalVIP funding is reduced or falls below estimates contained within the CalVIP Request for Proposals, the BSCC shall have the option to either cancel this Grant Agreement with no liability occurring to the BSCC or offer an amendment to this agreement to the Grantee to reflect a reduced amount.
- C. If BSCC cancels the agreement pursuant to Paragraph 3(B) or Grantee does not agree to an amendment in accordance with the option provided by Paragraph 3(B), it is mutually agreed that the Grant Agreement shall have no further force and effect. In this event, the BSCC shall have no liability to pay any funds whatsoever to Grantee or to furnish any other considerations under this Agreement and Grantee shall not be obligated to perform any provisions of this Grant Agreement except that Grantee shall be required to maintain all project records required by Paragraph 6 of Exhibit A for a period of three (3) years following the termination of this agreement.

4. PROJECT COSTS

- A. Grantee is responsible for ensuring that actual expenditures are for eligible project costs. "Eligible" and "ineligible" project costs are set forth in the July 2020 BSCC Grant Administration Guide, which can be found under Quick Links here:

https://www.bscc.ca.gov/s_correctionsplanningandprograms/

The provisions of the BSCC Grant Administration Guide are incorporated by reference into this agreement and Grantee shall be responsible for adhering to the requirements set forth therein. To the extent any of the provisions of the BSCC Grant Administration Guide and this agreement conflict, the language in this agreement shall prevail.

- B. Grantee is responsible for ensuring that invoices submitted to the BSCC claim actual expenditures for eligible project costs.
- C. Grantee shall, upon demand, remit to the BSCC any grant funds not expended for eligible project costs or an amount equal to any grant funds expended by the Grantee in violation of the terms, provisions, conditions or commitments of this Grant Agreement.
- D. Grant funds must be used to support new program activities or to augment existing funds that expand current program activities. Grant funds shall not replace (supplant) any federal, state and/or local funds that have been appropriated for the same purpose. Violations can result in

EXHIBIT B: BUDGET DETAIL AND PAYMENT PROVISIONS

recoupment of monies provided under this grantor suspension of future program funding through BSCC grants.

5. PROMPT PAYMENT CLAUSE

Payment will be made in accordance with, and within the time specified in, Government Code Chapter 4.5, commencing with Section 927.

6. WITHHOLDING OF GRANT DISBURSEMENTS

- A. The BSCC may withhold all or any portion of the grant funds provided by this Grant Agreement in the event the Grantee has materially and substantially breached the terms and conditions of this Grant Agreement.
- B. At such time as the balance of state funds allocated to the Grantee reaches five percent (5%), the BSCC may withhold that amount as security, to be released to the Grantee upon compliance with all grant provisions, including:
 - 1) submittal and approval of the final invoice;
 - 2) submittal and approval of the final progress report; and
 - 3) submittal and approval of any additional required reports, including but not limited to the Final Local Evaluation Report and the financial audit.
- C. The BSCC will not reimburse Grantee for costs identified as ineligible for grant funding. If grant funds have been provided for costs subsequently deemed ineligible, the BSCC may either withhold an equal amount from future payments to the Grantee or require repayment of an equal amount to the State by the Grantee.
- D. In the event that grant funds are withheld from the Grantee, the BSCC's Executive Director or designee shall notify the Grantee of the reasons for withholding and advise the Grantee of the time within which the Grantee may remedy the failure or violation leading to the withholding.

7. EXECUTIVE ORDER N-6-22 – RUSSIA SANCTIONS

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (the EO) regarding Economic Sanctions against Russia and Russian entities and individuals. "Economic Sanctions" refers to sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law. The EO directs state agencies to terminate contracts with, and to refrain from entering any new contracts with, individuals or entities that are determined to be a target of Economic Sanctions. Accordingly, should the State determine Contractor is a target of Economic Sanctions or is conducting prohibited transactions with sanctioned individuals or entities, that shall be grounds for termination of this agreement. The State shall provide Contractor advance written notice of such termination, allowing Contractor at least 30 calendar days to provide a written response. Termination shall be at the sole discretion of the State.

- A. Grantee agrees to comply with all terms and conditions of this Grant Agreement. Review and approval by the BSCC are solely for the purpose of proper administration of grant funds and shall not be deemed to relieve or restrict the Grantee's responsibility.
- B. Grantee is responsible for the performance of all project activities identified in Attachment 1: CalVIP Request for Proposals Request for Proposals and Attachment 2: CalVIP Grant Proposal.
- C. Grantee shall immediately advise the BSCC of any significant problems or changes that arise during the course of the project.

2. GRANTEE ASSURANCES AND COMMITMENTS

- A. Compliance with Laws and Regulations
This Grant Agreement is governed by and shall be interpreted in accordance with the laws of the State of California. Grantee shall at all times comply with all applicable State laws, rules and regulations, and all applicable local ordinances.
- B. Fulfillment of Assurances and Declarations

- C. Permits and Licenses
Grantee agrees to procure all permits and licenses necessary to complete the project, pay all charges and fees, and give all notices necessary or incidental to the due and lawful proceeding of the project work.

3. POTENTIAL SUBCONTRACTORS

- A. In accordance with the provisions of this Grant Agreement, the Grantee may subcontract for services needed to implement and/or support program activities. Grantee agrees that in the event of any inconsistency between this Grant Agreement and Grantee's agreement with a subcontractor, the language of this Grant Agreement will prevail.
- B. Nothing contained in this Grant Agreement or otherwise, shall create any contractual relation between the BSCC and any subcontractors, and no subcontract shall relieve the Grantee of his responsibilities and obligations hereunder. The Grantee agrees to be as fully responsible to the BSCC for the acts and omissions of its subcontractors and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by the Grantee. The Grantee's obligation to pay its subcontractors is an independent obligation from the BSCC's obligation to make payments to the Grantee. As a result, the BSCC shall have no obligation to pay or to enforce the payment of any moneys to any subcontractor.
- C. Grantee shall ensure that all subcontractors comply with the eligibility requirements stated in the CalVIP RFP and described in Appendix B.
- D. Grantee assures that for any subcontract awarded by the Grantee, such insurance and fidelity bonds, as is customary and appropriate, will be obtained.
- E. Grantee agrees to place appropriate language in all subcontracts for work on the project requiring the Grantee's subcontractors to:
 - 1) Books and Records

EXHIBIT D: SPECIAL TERMS AND CONDITIONS

Maintain adequate fiscal and project books, records, documents, and other evidence pertinent to the subcontractor's work on the project in accordance with generally accepted accounting principles. Adequate supporting documentation shall be maintained in such detail so as to permit tracing transactions from the invoices, to the accounting records, to the supporting documentation. These records shall be maintained for a minimum of three (3) years after the acceptance of the final grant project audit under the Grant Agreement and shall be subject to examination and/or audit by the BSCC or designees, state government auditors or designees, or by federal government auditors or designees.

2) Access to Books and Records

Make such books, records, supporting documentations, and other evidence available to the BSCC or designee, the State Controller's Office, the Department of General Services, the Department of Finance, California State Auditor, and their designated representatives during the course of the project and for a minimum of three (3) years after acceptance of the final grant project audit. The Subcontractor shall provide suitable facilities for access, monitoring, inspection, and copying of books and records related to the grant-funded project.

4. PROJECT ACCESS

Grantee shall ensure that the BSCC, or any authorized representative, will have suitable access to project activities, sites, staff and documents at all reasonable times during the grant period including those maintained by subcontractors. Access to program records will be made available by both the grantee and the subcontractors for a period of three (3) years following the end of the grant period.

5. ACCOUNTING AND AUDIT REQUIREMENTS

- A. Grantee agrees that accounting procedures for grant funds received pursuant to this Grant Agreement shall be in accordance with generally accepted government accounting principles and practices, and adequate supporting documentation shall be maintained in such detail as to provide an audit trail. Supporting documentation shall permit the tracing of transactions from such documents to relevant accounting records, financial reports and invoices.
- B. Grantees are required to provide the BSCC with a financial audit no later than the end of the contract term, December 31, 2025. The financial audit shall be performed by a Certified Public Accountant or a participating county or city auditor that is organizationally independent from the participating county's or city's project financial management functions. Expenses for this final audit may be reimbursed for actual costs up to \$25,000
- C. The BSCC reserves the right to call for a program or financial audit at any time between the execution of this Grant Agreement and three years following the end of the grant period. At any time, the BSCC may disallow all or part of the cost of the activity or action determined to not be in compliance with the terms and conditions of this Grant Agreement or take other remedies legally available.

6. DEBARMENT, FRAUD, THEFT OR EMBEZZLEMENT

It is the policy of the BSCC to protect grant funds from unreasonable risks of fraudulent, criminal, or other improper use. As such, the Board will not enter into contracts or provide reimbursement to grantees that have been:

- 1. debarred by any federal, state, or local government entities during the period of debarment; or
- 2. convicted of fraud, theft, or embezzlement of federal, state, or local government grant funds for a period of three years following conviction.

EXHIBIT D: SPECIAL TERMS AND CONDITIONS

Furthermore, the BSCC requires grant recipients to provide an assurance that there has been no applicable debarment, disqualification, suspension, or removal from a federal, state or local grant program on the part of the grantee at the time of application and that the grantee will immediately notify the BSCC should such debarment or conviction occur during the term of the Grant contract.

BSCC also requires that all grant recipients include, as a condition of award to a subgrantee or subcontractor, a requirement that the subgrantee or subcontractor will provide the same assurances to the grant recipient. If a grant recipient wishes to consider a subgrantee or subcontractor that has been debarred or convicted, the grant recipient must submit a written request for exception to the BSCC along with supporting documentation.

All Grantees must have on file with the BSCC a completed and signed Certification of Compliance with BSCC Policies on Debarment, Fraud, Theft and Embezzlement (Required as Attachment E of the original Proposal Package).

7. MODIFICATIONS

No change or modification in the project will be permitted without prior written approval from the BSCC. Changes may include modification to project scope, changes to performance measures, compliance with collection of data elements, and other significant changes in the budget or program components contained in Attachment 1: CalVIP Request for Proposals Request for Proposals and Attachment 2: CalVIP Proposal.

8. TERMINATION

- A. This Grant Agreement may be terminated by the BSCC at any time after grant award and prior to completion of project upon action or inaction by the Grantee that constitutes a material and substantial breach of this Grant Agreement. Such action or inaction includes but is not limited to:
 - 1) substantial alteration of the scope of the grant project without prior written approval of the BSCC;
 - 2) refusal or inability to complete the grant project in a manner consistent with Attachment 1: CalVIP Request for Proposals Request for Proposals and Attachment 2: CalVIP Proposal, or approved modifications;
 - 3) failure to provide the required local match share of the total project costs; and
 - 4) failure to meet prescribed assurances, commitments, recording, accounting, auditing, and reporting requirements of the Grant Agreement.
- B. Prior to terminating the Grant Agreement under this provision, the BSCC shall provide the Grantee at least 30 calendar days written notice stating the reasons for termination and effective date thereof. The Grantee may appeal the termination decision in accordance with the instructions listed in Exhibit D: Special Terms and Conditions, Number 8. Settlement of Disputes.

9. SETTLEMENT OF DISPUTES

- A. The parties shall deal in good faith and attempt to resolve potential disputes informally. If the dispute persists, the Grantee shall submit to the BSCC Corrections Planning and Grant Programs Division Deputy Director a written demand for a final decision regarding the disposition of any dispute between the parties arising under, related to, or involving this Grant Agreement. Grantee's written demand shall be fully supported by factual information. The BSCC Corrections Planning and Grant Programs Division Deputy Director shall have 30 days

EXHIBIT D: SPECIAL TERMS AND CONDITIONS

after receipt of Grantee's written demand invoking this Section "Disputes" to render a written decision. If a written decision is not rendered within 30 days after receipt of the Grantee's demand, it shall be deemed a decision adverse to the Grantee's contention. If the Grantee is not satisfied with the decision of the BSCC Corrections Planning and Grant Programs Division Deputy Director, the Grantee may appeal the decision, in writing, within 15 days of its issuance (or the expiration of the 30-day period in the event no decision is rendered), to the BSCC Executive Director, who shall have 45 days to render a final decision. If the Grantee does not appeal the decision of the BSCC Corrections Planning and Grant Programs Division Deputy Director, the decision shall be conclusive and binding regarding the dispute and the Contractor shall be barred from commencing an action in court, or with the Victims Compensation Government Claims Board, for failure to exhaust Grantee's administrative remedies.

- B. Pending the final resolution of any dispute arising under, related to or involving this Grant Agreement, Grantee agrees to diligently proceed with the performance of this Grant Agreement, including the providing of services in accordance with the Grant Agreement. Grantee's failure to diligently proceed in accordance with the State's instructions regarding this Grant Agreement shall be considered a material breach of this Grant Agreement.
- C. Any final decision of the State shall be expressly identified as such, shall be in writing, and shall be signed by the Executive Director, if an appeal was made. If the Executive Director fails to render a final decision within 45 days after receipt of the Grantee's appeal for a final decision, it shall be deemed a final decision adverse to the Grantee's contentions. The State's final decision shall be conclusive and binding regarding the dispute unless the Grantee commences an action in a court of competent jurisdiction to contest such decision within 90 days following the date of the final decision or one (1) year following the accrual of the cause of action, whichever is later.
- D. The dates of decision and appeal in this section may be modified by mutual consent, as applicable, excepting the time to commence an action in a court of competent jurisdiction.

9. UNION ACTIVITIES

For all agreements, except fixed price contracts of \$50,000 or less, the Grantee acknowledges that applicability of Government Code §§16654 through 16649 to this Grant Agreement and agrees to the following:

- A. No State funds received under the Grant Agreement will be used to assist, promote or deter union organizing.
- B. Grantee will not, for any business conducted under the Grant Agreement, use any State property to hold meetings with employees or supervisors, if the purpose of such meetings is to assist, promote or deter union organizing, unless the State property is equally available to the general public for holding meetings.
- C. If Grantee incurs costs or makes expenditures to assist, promote or deter union organizing, Grantee will maintain records sufficient to show that no reimbursement from State funds has been sought for these costs, and that Grantee shall provide those records to the Attorney General upon request.

10. WAIVER

The parties hereto may waive any of their rights under this Grant Agreement unless such waiver is contrary to law, provided that any such waiver shall be in writing and signed by the party making such waiver.

F. STRATEGY TO BE IMPLEMENTED:		Focused deterrence, CBT, street outreach, credible messaging, and trauma-informed intensive case management	
G. PROJECT SUMMARY (100-150 words):			
<p>Stockton's Operation Ceasefire has produced a multi-year community-wide reduction in gun and gang violence. These reduction strategies utilize credible messengers, focused deterrence, intensive case management, and wraparound services, all of which address the needs of those at highest risk of becoming a perpetrator or victim of gun violence. The office of Violence Prevention (OVP) proposes to build on this success by expanding Ceasefire strategies to youth ages 12 to 17 while also creating a youth prevention/intervention program focused on deterring young people from violence. Additionally, utilizing the Office of Juvenile Justice and Delinquency Prevention (OJJDP) Comprehensive Gang Model, OVP and community partners seek to create a youth prevention/intervention steering committee to collectively, through an integrated system, address Stockton's gun violence. Equally crucial as suppressing violence in Stockton is fostering wellness and resilience in individuals, communities, and service providers impacted by gun violence. OVP and partners will engage in trauma-informed activities focused on healing and wellness.</p>

1. Description of Community Need (Percent of Total Value: 15%)

1.1 With gun-related homicides steadily on the rise throughout our country, the city of Stockton has—until recently—managed to maintain its grip on this historic problem for nearly two years evidenced by its pre- and mid-pandemic reductions of nearly 34%. Injury shootings are an entirely different story, however. Within the last 2 years, nonfatal injury shootings have risen by 13%. Unfortunately, homicides have also begun to rise. The current YTD homicide rate through June of 2022 is at 23, up 35% from last year, and is on pace to reach 50.4 by year's end; with the summer months still in full tilt (Stockton Crime Stats, 2022).

But despite this mixed and temporary success; Stockton remains as having one of the highest crime rates in the state of California. Historically, its homicide rate has been tripled that of other cities comparable to its population. One crime report highlighted Stockton as having more murders per capita than the notorious city of Chicago (Sullivan, 2012). And more recently, there has been an increase in youth violence, with over 400 gun-related incidents in 2020 and over 640 in 2021, all committed by those under the age of 18 (SPD Crime Stats, 2022). Gun crimes has always been a common theme among those associated and/ or who self-identify as being part of a gang/group. Currently, Stockton has more than 21 active groups with many residents being associates and/ or close family members of those involved in gang/group criminal behavior (CSPC-Stockton Problem Analysis, 2016).

Stockton also has one of the highest rates of poverty in the country with 16.8% living below the poverty line. This, compared to the national poverty rate of 13.4%, shows the disparity *and* need our community faces. We have zip codes with the unemployment rate as high as 51% and high school graduation rates as low as 40% (San Joaquin County Community Health Needs Assessment, 2022). These realities were also reflected in a survey conducted during the beginning stages of the South Stockton Promise Zone Initiative, where more than 700 Stockton residents described a lack of opportunity in education, health, safety, housing, recreation, and jobs.

In 2016, the City of Stockton partnered with the California Partnership for Safe Communities (CPSC) and the Stockton Police Department (SPD) to conduct a Gun

Violence Problem Analysis identifying the characteristics of those driving most of the violence. The findings showed that most violent crime is committed by 18-35 years old; which happens to be less than 1% of the overall city's population—totaling less than 250 people. Additional demographics found that most were Black or Hispanic males, with the average age of a perpetrator being 24-25, and the average age of victims being 30-32 years old. Most (if not all) have criminal records with an average of being arrested 4 times or more. As a result, the City of Stockton partnered with additional consultants to strengthen the newly implemented violence reduction strategy called Operation Ceasefire (Kennedy, 2001).

Operation Ceasefire is an evidence-based and data-informed strategy that uses weekly data from law enforcement agencies to inform both focused-deterrence and outreach operations while engaging high risk populations. These weekly meetings, called Shooting Reviews, also serve to identify those recently involved in acts of violence *and* who meet the criteria of having a high likelihood of being involved in retaliation. After identification, a “Safety Meeting” (formerly called custom notifications) is conducted to inform those individuals of their safety risk and/or their potential arrest if they continue in criminal behavior.

By communicating this “stick and carrot” message—in addition to offering services and supports—OVP aims to improve the outcomes of those considered at the highest risk of becoming victims and/ or perpetrators of gun violence. However, OVP is somewhat limited to working with individuals who do not have active warrants or pending charges due to implications resulting from those who may be arrested shortly after our engagement. And although OVP takes pride in the strong partnership it has with the SPD, sudden arrests made after client engagement may put credible messengers at risk of being considered informants, and potentially jeopardizes the relationships built between frontline staff and community. Therefore, our partnership has resulted in an agreement not to engage those with imminent arrests. As a result, more homicides and injury shootings can occur from those who continue in gun violence but have yet to be arrested. Generally, OVP only engages with about 150 (of the 250-300) high-risk individuals on an annual basis.

As mentioned, most efforts are targeted towards young “adults”. However, based on the data, intervention services should also be targeted towards a much younger population (ages 12-17) in order to reduce and sustain reductions. 1.2 Due to this, OVP also recognizes the importance in using a public health approach to reduce gun violence which includes *prevention* efforts that are targeted more upstream. Underlying factors and the known social determinants of health contribute to individuals being more likely to become victims and/ or perpetrators of gun violence and are reflected in most Stockton communities including poverty, poor education, poor healthcare, etc. Contributing factors like these, including witnessing, and residing in neighborhoods with high crime, all lead to the likelihood of an individual becoming high-risk (Bleeding Out, 2019).

2. Project Description (Percent of Total Value: 40%)

2.1 Based on the detailed need above, OVP seeks funding from the Board of State and Community Corrections (BSCC) CalVIP program to expand its current model and the city of Stockton’s community violence intervention ecosystem, to address gun violence overall, while immediately decreasing homicides and nonfatal shootings in the near term.

OVP seeks to enhance its efforts in intervention and implement a *new* prevention component to aid in the overall reduction of gun-related homicides, injury shootings, and aggravated assaults. Through performance management measures, OVP maintains weekly data-informed Coordination meetings to discuss all recent and newly identified high-risk individuals. Outreach Workers/ Case Managers (also known as “Peacekeepers” and credible messengers) are then dispatched to engage with these individuals while building relationships and offering wraparound services. Peacekeepers begin by completing a safety plan assessing any immediate safety needs including emergency and rapid relocation to prevent victimization. Participants are then placed on caseloads where Peacekeepers work with participants to reach both short-term and long-term goals. OVP also receives calls 24/7 when a shooting incident occurs; to which, Outreach Supervisors then dispatch Peacekeepers to either the incident location

or the hospital (or both) to engage with the families of the victim and at times, the victim themselves.

In consideration of OVP's current programs and activities, we propose to enhance these efforts to accomplish the goal of reducing homicides, nonfatal injury shootings, and aggravated assaults citywide by 1) Engaging more high-risk individuals overall, 2) Expanding the current model to include prevention strategies, 3) Improving the outcomes of clients and family members, and 4) Improving coordination efforts between violence prevention agencies.

Goal 1: Engaging more high-risk individuals by expanding the age demographic and target population. As mentioned, OVP has worked primarily with young adults from the ages of 18-35. But because of the increase in youth violence, OVP proposes to expand its target population to include high risk youth, ages 12-17 years old, who are likely to become victims and/ or perpetrators of gun violence.

a. High-Risk Youth: I.) Identification - OVP will use the current Ceasefire strategy to identify youth by the aforementioned Shooting Review process. In addition, OVP will begin taking referrals from the local Juvenile Detention Center, San Joaquin County Probation Department, Stockton Unified School District (SUSD) Police, and the County Office of Education (One.Schools). All referrals will be assessed to determine if they meet program criteria. The Child and Adolescence Needs and Strengths tool (an evidence-based assessment) will be used to determine the level of need, guide service planning, and monitor outcomes (CANS, 2021). **II.) Street Outreach** - OVP will use the Office of Juvenile Justice and Delinquency Prevention's (OJJDP) Street Outreach and Comprehensive Gang Model as a guiding framework to engage these youth (OJJDP, 2009). Outreach workers in the model are referred to as "street" outreach workers because their work is not office-based or even institutional or school-based, but occurs primarily in targeted neighborhoods, at the street and home level, and is similar to the Cure Violence model (Arciaga & Gonzalez, 2012). A Youth Outreach Worker will attempt to contact the referral only after meeting with and securing consent from the parent and/ or guardian. **III.) Intensive Case Management** - Upon agreement, the Youth Outreach Worker will conduct a Safety and Needs Assessment to determine any immediate safety risks and/or needs (including emergency relocation). Then after, the

primary goal is to build relationships with clients (and their family) and engage with them in office, at their home, school, or while in custody. Referred clients will be engaged in-person, 2-3 times per week, and supported with any additional resources like employment, education, etc. *IV).* Mentorship - Active clients will then be invited to participate in a newly developed youth mentorship group to support clients' success at maintaining a more prosocial lifestyle. These group sessions will be offered once a week and will include the Pathway to Restoration curriculum (provided by Choices for Freedom, Inc.). OVP anticipates serving between 58-60 high risk youth per year, with two (2) Youth Outreach Workers maintaining an average caseload of 10-12 individuals at any given time.

2.2 b. Adults with pending cases (or active warrants): To address OVP's inability to engage young adults with pending charges, OVP proposes to partner with a local nonprofit called Friends Outside (FO) that has a long history providing violence intervention services for high-risk individuals and over 35 years working with violent offenders in CDCR institutions and county jails. FO uses a curriculum called Creative Conflict Resolution, a program proven successful at changing the attitudes and behaviors of those who engage in physical violence due to interpersonal and/or group conflict (Kessler, 1978). FO has the advantage of not having an intervention strategy so closely aligned with law enforcement and is better suited to engage individuals who may or may not be arrested shortly after engagement. *I.) Identification* - OVP will use the current method outlined in the Ceasefire model that identifies high-risk adults but will refer to FO in a "Safety Meeting" (not including law enforcement). FO also has a separate partnership with the San Joaquin County Probation Department and CDCR. They have an extensive experience working with those who are in custody, have active warrants, pending charges, and/or deemed high-risk. As always, building rapport and a relationship is the first and primary goal when initiating engagement. Once established, the credible messenger can use their influence to help clients make better decisions and thereby; help improve individual outcomes. *II.) Intensive Case Management* – credible messenger will maintain caseload of the referred despite their potential for arrest. Credible messenger will also work with clients to complete an intake and safety risk assessment, and Life Plan (case plan) motivating clients to work towards meeting

both short-term and long-term goals. In-person engagements will occur 2-3 times per week, with at least one type of engagement (phone call, text, etc.) occurring every day. In addition, credible messenger will refer clients to additional resources including housing, mental and behavioral health services, employment, etc. FO anticipates the client may be arrested after engagement. If so, all credible messengers have been cleared to provide in-custody visits and will assess whether or not services should be paused. OVP anticipates Friends Outside serving between 25-30 high risk young adults per year, with one (1) Case Manager maintaining an average caseload of 12-15 individuals at any given time. In total, OVP anticipates increasing our number of engaging high-risk clients (including youth and young adults) by 50% from 150 to 225 individuals.

Goal 2: Incorporating Prevention Strategies. Strengthening and enhancing OVP's Public Health approach to gun violence. By identifying and communicating safety risks to our target population, OVP already uses a public health approach to curb gun violence. However, funding will help to strengthen this approach by incorporating prevention strategies to address the social determinants of health and root causes that lead to high-risk behaviors. In so doing, OVP proposes to create two new committees that will expand its current model and help achieve its goal of reducing gun violence overall. **Committee 1: Violence Prevention Steering Committee** – Also, drawn from OJJDP's Comprehensive Gang Model, this committee will support OVP and its efforts by bringing together a group of 9-12 community leaders specifically tasked with the following duties: 1) create, review, and update a comprehensive citywide violence prevention strategic plan, 2) explore strategies related to building police-community trust, and 3) identify, recommend, and advocate for additional funding or resources to sustain violence reduction strategies (OJJDP, 2009). Members will have different backgrounds and professional experience and represent the different fields associated with main social determinants of health (health care, education, social, economic, environmental). Other members will include those from faith communities, law enforcement, and juvenile justice or youth-serving organizations.

Funding will help convene participants and develop the strategic plan coordinated by technical assistance provider (reference in section 3.6). **Committee 2:**

Violence Prevention Referring Council - This committee will serve as the referring council for all youth, aged 12-17, referred by various community partners including SUSD police, Juvenile Detention Center, SJ County Probation Department, County Office of Education, Community, and another other referral source. Council members will review referral needs and make recommendations to local service providers and/ or community-based organizations that will best serve the youth, their families, and their needs. Members of this council will include a broad cross-section of education, healthcare, juvenile justice, law enforcement, and faith-based community leaders, and one (1) transitional aged minority youth between the ages of 18-25. Violence impacts racial and minority populations at disproportionate levels affecting their overall health and wellbeing. Therefore, the purpose of this committee is also to help reduce these disparities by increasing access to public health for our targeted population. **a.**

Servicing at-risk transitional aged youth. OVP also proposes to partner with Friends Outside, a local nonprofit organization specializing in reentry and community-based services geared towards system-impacted youth, young adults, and their families. Upon funding, Friends Outside will provide the following support to OVP: *I.) Youth Prevention Specialist* - to receive referrals for at-risk youth aged 13-25 years old. The prevention specialist will provide mentorship and wraparound service for all clients and their families. Referral sources will include Violence Prevention Referring Council, SUSD, Community, etc. *II.) Relocation Assistance* - OVP also proposes Friends Outside manage a relocation assistance program. This program will support high-risk clients and their families when and if there is an immediate need to relocate due to imminent threats of harm. A Resource Specialist will help coordinate rapid relocations with OVP and Friends Outside clients by 1) researching and identifying housing options (including emergency housing options like motels, hotels, etc.), 2) process and track financial assistance covering moving costs, and 3) schedule free online financial literacy courses for all program recipients.

Goal 3: Improving the Outcomes of clients and their family members with trauma-informed practices.

a. Crisis Response - OVP is in partnership with the local county hospital providing hospital-based violence intervention (HVI) whereby, Peacekeepers respond to

all gang related shootings to engage with victims, and their families. Peacekeepers are on-call 24/7 and are often met with family members who are grieving, vowing revenge, and in full crisis. Therefore, OVP proposes to execute a partnership with El Concilio, a local mental health provider who will respond to shootings (with Peacekeepers) to provide crisis management to families and victims of gun violence. The contractor will: a.) respond within 3hrs following a gun incident, b.) offer crisis management to family of recent victims, and c.) refer victims and/ or their families to additional services within 48hrs (if needed).

b. Addressing Trauma through Mental Health Services - Victims of gun violence are often re-victimized and/ or remain unserved immediately following their victimization due to their lack of trust with system-related resources. Peacekeepers are impacted by gun violence due to responding to crime scenes, hospitals, and working directly with families impacted by violence. As a result, Peacekeepers are susceptible to vicarious trauma and if not addressed can result in medical and/or mental health problems as well as increase staff turnover. Therefore, OVP proposes to use funding to execute a professional services contract to address client and staff trauma through the use of a Mental Health Clinician and provide trauma healing training with a focus of a.) help mitigate current and historical trauma experienced by clients, b.) help mitigate staff secondary trauma, and c.) provide on-site mental health support during Safety Meetings to offer on-going support to potential clients, d.) refer clients to community resources for on-going mental health needs, and e.) provide healing opportunities through trauma-informed training and reflective supervision.

3. Organizational Capacity and Coordination (Percent of Total Value: 20%)

3.1 Though OVP and its Ceasefire strategy was officially institutionalized and implemented in 2013, the office has been working with gang/group-involved youth and young adults since 1998. Through a local tax measure (Measure A), the office was funded with 14 full time staff including eight (8) Outreach Workers "Peacekeepers", two (2) Outreach Supervisors, and four (4) upper management positions including a Management/Data Analyst, Administrative Assistant, Senior Program Lead, and the OVP Director.

OVP has been successful in implementing and managing a comprehensive violence reduction strategy including providing violence interruption, street outreach, intensive case management, service brokerage, and support groups containing elements of cognitive behavioral therapy for youth and young adults. Our partnerships are strong, will continue to increase, and currently includes partners like SUSD Police, the Stockton Police Department, County Office of Education, local hospitals, El Concilio Community Services, San Joaquin Worknet, San Joaquin Delta College, The Mora Learning Institute, San Joaquin County Public Health, and Friends Outside that will help to advance this project if funded. And though OVP has the necessary infrastructure to execute an evidence-based strategy to reduce gun violence, coordination has not always been the best. Therefore, through this proposed project we hope to provide a more streamlined approach to addressing gun violence by enhancing the coordination between all partnering agencies; providing a roadmap to partnership and program sustainability.

3.2 Goal 4: Improving the coordination between violence reduction partners. OVP currently conducts weekly Strategy Meetings composed of interventionists (not including law enforcement) to discuss ongoing and brewing conflicts. Discussions are held around known and/ or likely involved individuals, associates, family, and gang/group involvement, with the goal of creating specific engagement strategies to reduce the likelihood of gun violence. Through BSCC funding, OVP plans to enhance these Strategy Meetings to include Friends Outside to 1) discuss and assign referrals received via Shooting Reviews, 2) contribute to strategy discussion outlining best client-engagement approach. **3.2** OVP also plans to contract with the Mora Learning Institute (MLI) to provide a 12-session leadership training for OVP (including the Leadership Council), and Friends Outside's intervention staff that will support staff achieve the goals of this project while also enhancing the camaraderie and coordination amongst partners. Topics include organizational communication, leadership responsibility, organizational unity, workplace toxicity, resiliency, etc. In addition, MLI will provide a Life Coaching certification for this project team. Staff will receive 40 hours of instruction and coaching that will provide tools to help clients succeed, motivate, and inspire them to reach their goals, and overcome life/work

challenges. **3.4** Most OVP and partnering staff have worked with the target population for more than five years and/ or are formerly system-involved and/ or have been impacted by gun violence. OVP will maintain our practice of hiring and/ or contracting with culturally competent subject matter experts and those with direct experience working with high-risk populations. **3.5** Originally funded by the BSCC CalVIP Strengthening Grant, OVP implemented a Leadership Council group composed of individuals who were at one point Ceasefire clients (high risk and impacted by violence) but have made sufficient progress to become advisors and advocates for reducing violence in the community and building police-community trust. Through listening sessions and focus group meetings, council members expressed a desire to mentor high-risk youth to build relationships with those who may not have positive role models and/ or support systems. They have also expressed a desire to be better positioned to apply for credible messenger/ case management positions and other opportunities.

Therefore, OVP plans to expand the council's **involvement in this project's design and implementation** by: 1) convening both the Leadership Council and the Youth Support Group on a quarterly basis to provide mentorship opportunities to high-risk youth, 2) offer council members an opportunity to serve on interview panels when hiring for the new positions detailed in this proposal, and 3) including council members in MLI's leadership training to help prepare them for additional leadership roles and positions. **3.6** In addition to providing training, OVP plans to contract with Peace Partners Consulting Group (PPCG) to be the lead **technical assistance provider**. PPCG will also work in close partnership with OVP leads providing direct project management while ensuring compliance as required by BSCC guidelines. PPCG will also help build out the aforementioned Violence Prevention Steering Committee by coordinating the planning and implementation phases of this activity helping to develop the comprehensive citywide violence reduction strategy report to include current efforts, past initiatives, and ongoing recommendations. PPCG is a California based consulting firm specializing in grant writing & management, training, technical assistance, and advocacy for criminal justice and violence reduction agencies, offices, and organizations.

The managing partner, who will serve as the lead consultant, has over 15 years of combined experience in nonprofit management, organizational development, and community outreach. More specifically, he has worked in the field of violence reduction for over 10 years, playing a crucial role in implementing citywide violence reduction strategies, and has provided technical assistance to multiple California cities and organizations.

Previously Relinquished Grant Funds - In 2020, OVP was awarded BSCCs CalVIP Cohort III grant funds to enhance intervention strategies but unfortunately due to the effects of COVID-19—staff shortages, county, and citywide health protocols the resulting inability to maintain engagement with clients—funds were relinquished to prevent poor execution of grant activities. All activities listed in this proposal are an enhancement and/ or new addition to existing violence prevention and intervention programs and are not duplicated.

4. Project Evaluation and Monitoring (Percent of Total Value: 12%)

4.1 In order to evaluate the proposed project, OVP will partner with a local nonprofit evaluation organization called San Joaquin Community Data Co-Op. The evaluation work will include a comprehensive process and outcome evaluation. As part of this effort, the evaluation team will collect baseline data on all homicides and gun-related crime from 2018 to 2021 to track patterns over time, allowing data comparisons from 2022 to 2025. In addition, baseline and outcome data collection (pre and post) will include the following: Employment and housing status; Whether clients have safe and permanent housing (for youth this will include housing permanency data regarding the family); Participation in both the youth and adult leadership councils (support groups); Whether clients have access to daily meals, whether such access was/is consistent day to day; Client families receipt of supportive services along with the number and type of supportive services; Whether clients feel safe; List of leaders and partners supporting the violence reduction efforts of Operation Ceasefire including the name, organization, and length of time in support of efforts; List of the trainings and the education provided to project staff; and specific data on the Violence Prevention Steering Committee and

the Violence Prevention Referring Council (i.e., number of meetings, participating partners, and meeting outcomes).

Methods of Tracking Changes and Project Performance - To effectively track changes and project performance over time, the project team will be working closely with the local evaluator. The project team will meet with the evaluator at least once every quarter. During these meetings (which will occur in person and via conference call), the collaborative team will work together to complete the BSCC quarterly reports. In addition, the evaluator will review grant progress and will discuss project data, progress, and successes. At these meetings, challenges will also be discussed as well as ways to address these.

Process Evaluation - In tracking the program process, evaluators will collect data, information, and feedback about how the project develops and is implemented over time. In addition, the process evaluation will center on comparing what is implemented with respect to the original theory of the program that is outlined in the program logic model. In doing so, the evaluation team will determine if the project was implemented as planned. Moreover, evaluators will determine if services reached the target population. Program satisfaction surveys will be utilized to assess whether clients found the program to be beneficial. The data that will be collected to address the process measures include the number of Safety Meetings (call-ins and custom notifications) that were hosted, the number of Leadership Council meetings held, and the number of Youth Support Group meetings.

Results and Conclusion - As part of the final Local Evaluation Report, the evaluator will be providing a detailed explanation of the program process and impact using the data and information produced as a result of the project. The evaluation team will also interpret what the findings mean and whether the project worked as intended. The following questions will guide this process: a.) Did the project work as intended? b.) What did the project accomplish? c.) Were all the goals achieved? d.) Did the project results agree with the initial expectations? e.) What do the results mean? f.) Did project results agree with similar studies conducted by other researchers? and g.) Were there any lessons learned?

Re: **Letter of Support for City of Stockton's California Violence Intervention & Prevention (CalVIP) Grant**

Dear Selection Committee:

On behalf of San Joaquin County Public Health Services (PHS), I would like to express our strong support for Stockton's Office of Violence Prevention (OVP) CalVIP grant proposal. Violence prevention is a long-standing public health priority and we welcome the opportunity to work in partnership with OVP in developing and implementing strategies based on the Office of Juvenile Justice & Delinquency Prevention (OJJDP) comprehensive gang model.

Specifically, we are committed to:

- Serving on the Steering Committee that will bring together agencies and organizations interested in or responsible for managing Stockton's gang problem while leveraging existing community resources to support youth prevention and intervention.
- Providing epidemiologic support and technical assistance in understanding what the data tells us about the social, economic, and environmental conditions that exacerbate crime and violence in our more vulnerable neighborhoods. This also includes working with the San Joaquin Community Data Co-op to help evaluate the effectiveness of implementation strategies.
- Actively participating in the project referral network that will be key to serving the needs of identified at-risk youth and their families.

In summary, crime and violence are complicated multi-dimensional problems that requires action at both the individual and community level. CalVIP funding would provide the critical infrastructure we all have been seeking; it would be a much-needed catalyst and driver for collective action to realize healthier outcomes.

Thank you for considering the proposal, and please feel free to contact me should you have additional questions at zrodriquez@sjcphs.org.

Sincerely,

To Whom It May Concern:

On behalf of the San Joaquin Community Data Co-Op (Data Co-Op), a non-profit applied social research and evaluation organization in Stockton, California, I am writing to you to express my support of the City of Stockton, Office of Violence Prevention's California Violence Intervention and Prevention (CalVIP) grant application.

Stockton's proposal aims to mobilize the community behind violence reduction in Stockton and allow the Leadership Council to become a community asset. Previously, the grant expanded Operation Ceasefire to include a re-entry component along with family support with the efforts of Friends Outside. Also, Faith in the Valley implemented community engagement efforts to spread a message of violence reduction and to build community support for Ceasefire. The Operation Ceasefire partnership in Stockton has historically achieved successful outcomes and has created a Leadership Council. Leadership Council membership consists of clients who are at high risk of gun violence and who have made progress to become advisors and advocates. Through the new California Violence Intervention and Prevention (CalVIP) Grant, the Office of Violence Prevention (OVP) will continue to build on previous successes.

As part of the proposed project the Data Co-Op would be partnering with the project team and our organization's role will center on providing a process and outcome evaluation. More specifically, the Data Co-Op will be working with each grant partner in order to provide training on the collection and utilization of data to inform and guide the evaluation design – a process that will measure data from baseline, over the course of multiple quarters, as well as program completion. The Data Co-Op will also assist with the review of harvested data and developing content that illustrates impact and trends through data.

In my view as a researcher who has worked in Stockton and San Joaquin County for over 10 years, the City of Stockton, Office of Violence Prevention are at the ideal place with leadership and collaboration to effectively partner on this critically important grant opportunity and in doing so dramatically impact quality of life as it connects with reduction in violence, leadership development, and housing. Thank you very much for considering Stockton's proposal.
