SCOPE OF WORK FOR AIRPORT WAY BRIDGE OVER MORMON SLOUGH FIRE REPAIR, CITY PROJECT NO. WT19009

TASK 1: BACKGROUND RESEARCH

Siegfried will inspect the bridge and conduct field review prior to submitting the proposal. Siegfried will research and review Caltrans Bridge Inspection Reports, topographic mapping, photos, right of way maps, “as-built” plans, record maps, surveys, and other geometrical and operational characteristics for the project.

TASK 2: ENVIRONMENTAL SERVICES

Siegfried will determine the environmental requirements that apply to this project and obtain necessary permits. Siegfried understands that this is a locally funded project so CEQA will be required, and that the City will be responsible for paying all fees associated with environmental permitting.

Task 2.1.1 Project Initiation

Siegfried will meet with the project team to review the key project issues, collect additional background information, such as preliminary engineering reports, figures, maps/plans, etc., confirm communication protocols, etc. As part of project initiation, the Siegfried team will provide input on the environmental elements of the project schedule.

Task 2.1.1 Deliverables:

- ESA attendance at one virtual project initiation meeting
- Environmental elements of project schedule

TASK 2.1.2: ENVIRONMENTAL PROJECT DESCRIPTION

Siegfried, in close coordination with the project team, will prepare the environmental project description (PD). environmental PD will include project objectives, project location, proposed schedule, applicable engineering design information, and other relevant information. Figures/graphics will be developed using electronic files from existing information from the project team to identify the project area.

Task 2.1.2 Deliverables:

- Environmental Project Description

TASK 2.1.3: CEQA DOCUMENTATION

Siegfried will review the project for application of a CEQA Categorical Exemption (CE). To support issuance of the CE, Siegfried will prepare a CE Support Memo that describes why a CE is the appropriate level of documentation for the project, documents the investigations completed during the review, and includes statements confirming absence of exceptions to the categorical exemption.

To inform the CE Support Memo, Siegfried will review the EnviroStor database maintained by the Department of Toxic Substances Control (DTSC) to confirm absence of known contamination or sites in the project area.

To confirm absence of known cultural and historic resources in the project area, Siegfried will complete background research at the California Historical Resources Information System Central California Information Center (CCIC).

The CE Support Memo will be provided to the City for inclusion in the project files.

Upon completion of environmental review, Siegfried will prepare a Notice of Exemption (NOE) in the City’s preferred format and provide it to the City for their signature and posting at the County Clerk-Recorder’s office.

Task 2.2.3 Deliverables:

- Categorical Exemption Support Memo
- Notice of Exemption

TASK 2.1.4: REGULATORY PERMITTING

The City has received a June 24, 2020 letter from the U.S. Army Corps of Engineers (USACE) confirming that the site does not contain Waters of the U.S. It is assumed that this letter is still valid and therefore a Nationwide 404 permit from USACE is not needed. Despite this finding from the USACE, permit approvals may still be needed from the California Department of Fish and Wildlife (CDFW) and/or the Regional Water Quality Control Board (RWQCB). ESA will utilize the April 2020 Approved Jurisdictional Delineation report and coordinate with CDFW and RWQCB on their potential jurisdiction and need for approvals.

The City may need to obtain a Encroachment Permit from the Central Valley Flood Protection Board (CVFPB). ESA will prepare the base application form (Form 3615) and environmental questionnaire (Form 3615a) for submittal to the CVFPB.

The following outlines the detailed regulatory permitting scope of work:

Agency Coordination and Permit Verification

ESA will utilize the April 2020 Approved Jurisdictional Delineation report and coordinate with CDFW and RWQCB on their potential jurisdiction and need for approvals. If it is determined that approvals are needed from these agencies ESA will prepare applications for acquisition of permits, as appropriate.

Lake and Streambed Alteration Agreement:

A Lake or Streambed Alteration Agreement (LSAA) may be needed for work within the top of bank of Mormon Slough. ESA will prepare the necessary documentation to apply for an LSAA for the project.

To request an LSAA, project information must be uploaded to CDFW's Environmental Permit Information Management System (EPIMS) Permitting Portal. The LSAA Notification will include supplemental information on the proposed project, including the project description; a description of existing vegetation communities; special status species with potential to occur at the project site; impacts on Fish & Game Code 1600, et seq. resources including streams, vegetation, fish, and wildlife; and measures to avoid and minimize project impacts. Maps and figures will be developed to support the permit.

Because the application materials must be uploaded to the EPIMS portal, ESA will develop the draft application materials in a separate Word file for City's review and will revise the information once (i.e., finalize) based on one set of consolidated comments before uploading it to the EPIMS portal. The City, as the project applicant, will register on the EPIMS Permitting Portal, fill out the General Information section of the application, request ESA be associated with the permit application, and pay the associated notification fee. ESA will provide up to four hours to assist the City with the EPIMS registration and payment. ESA will submit the notification on City's behalf.

RWQCB WDR Application:

Impacts to Waters of the State (WOTS) will require a Waste Discharge Report (WDR) from the RWQCB. ESA will prepare a WDR application package for submittal to RWQCB

The application will follow the Implementation Guidance for the State Wetland Definition and Procedures for Discharges of Dredged or Fill Material to Waters of the State (Wetland Procedures; April 2020). The application form will be completed and submitted along with supplemental information on the proposed project, including the project description, potential project impacts, impact avoidance and minimization measures that will be implemented (including restoration/revegetation efforts), and a cover letter. Maps and figures will be utilized/developed to support the permit application package.

CVFPB Encroachment Application:

ESA will prepare the base application form (Form 3615) and environmental questionnaire (Form 3615a) for submittal to the CVFPB. Siegfried will prepare a basic hydraulic cross section calculation to illustrate that the theoretical flow capacity is not significantly impacted by the improvements. It is assumed that the rock places at the channel bottom will be installed below the current flow line and not decrease the cross-sectional area of the channel. Any additional engineering or hydraulic studies or documents requested by CVFPB are excluded.

Task 2.2.4 Deliverables:

CDFW LSAA Notification

CVFPB Encroachment Application

RWQCB Water Quality Certification or Waste Discharge Requirement Application, if necessary

TASK 3: PLANS, SPECIFICATIONS, AND ESTIMATE

Siegfried will prepare complete PS&E documents, which include design improvement plans, traffic control plans, specifications, and an engineer's estimate. PS&E shall be prepared according to current Caltrans Standard Plans and Specifications, City's Standards and CA MUTCD, as appropriate.

Siegfried will prepare a base map showing existing information to facilitate the design of all the necessary improvements using the City's latest Benchmark information. The base map limits shall be sufficient to cover all necessary improvements within the project areas.

Siegfried will provide an electronic submittal containing one (1) full size (24"x36") set of plans (PDF), two (2) copies of specifications (Word and PDF), and two (2) copies of the engineer's estimate (Excel and PDF) at the 65%, 95% and 100% phases to the Engineer for review. Prior to this, Siegfried will provide a 30% conceptual plan for City review. Siegfried will prepare a comment response matrix and submit to the City following each submittal stage. Siegfried will provide electronic copies of the plans after the 100% phase comments have been incorporated for final review prior to plotting on mylars.

Siegfried will be responsible for the final submittal which incorporates all previous review comments, technical requirements, right-of-way information, utility verification/protection, minimum contractor qualifications, regulatory agency permits and mitigation monitoring requirements, any applicable encroachment permit requirements, and City requirements.

Siegfried will provide the necessary final PS&E documents in a bid-ready form. The final submittal shall include: one (1) complete full size (24"x36") plan set of stamped reproducible mylars and electronic copy (PDF format), final cost estimate (stamped, in Excel and PDF format), and three (3) copies of the stamped final specifications (in Word and PDF format) delivered to the City, along with a USB drive containing all electronic files including AutoCAD drawing files. After completion of construction, Siegfried will incorporate the red lines (provided by contractor) into a set of as-built record drawings.

Siegfried will provide all correspondence and work products for City files.

TASK 4: COORDINATION/MEETINGS

Siegfried will attend meetings with City staff as needed to finalize the design. At a minimum, this will include a project kickoff meeting, a pre-construction meeting, a post-construction meeting, and to meet and assist staff during construction as required.

TASK 5: DESIGN SUPPORT DURING CONSTRUCTION

As part of the proposal, Siegfried will include bid support services that consist of assisting the City in responding to bidder's questions during the project advertisement phase. Siegfried will also include services for design support during construction. These services include responding to all RFI(s), submittal reviews, altering project plans to address any design changes or inconsistencies, attendance of meetings during construction, consultation with the construction contractor and/or the project manager. Any design changes that are determined to be an error or omission will be at no additional charge to the City.

TASK 6: AS-BUILT DRAWINGS

Siegfried will prepare as-built drawings upon receipt of red-lines from the contractor. Siegfried will produce one complete set of as-built drawings. Changes should be reflected on the original mylars either by hand or a new printed (mylar) sheet in AutoCAD.

TASK 7.1: PRESERVING AND PERPETUATING SURVEY MONUMENTS

Siegfried will identify, list, and show existing survey monuments on construction plans. Siegfried will include language in the PS&E package to preserve all monumentation affected by the work being performed in accordance with Section 8771 of the Professional Land Surveyors Act in the Business and Professions Code of the State of California. Siegfried will sign the Acknowledgment of Monument Preservation form.

TASK 7.2: RIGHTS OF ENTRY

Siegfried will assist the City in obtaining rights of entry documentation from property owners where work is required on their property. Siegfried will send out letters to property owners with a right of entry form (provided by the City) and any exhibits needed to adequately portray the work to be done. These documents are meant for minor conform work that is needed to conform the adjacent properties to the final project.

Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City of Stockton has received a waiver of subrogation endorsement from the insurer. **The Workers' Compensation policy shall be endorsed with a waiver of subrogation** in favor of the City of Stockton for all work performed by the Contractor, its employees, agents and subcontractors.

Self-Insured Retentions

All Self-insured retentions must be disclosed to Risk Management for approval and shall not reduce the limits of liability. 2. Insurance must be maintained and evidence of insurance must be provided ***for at least five (5) years after completion of the contract of work.***
3. If coverage is canceled or non-renewed, and not ***replaced with another claims-made policy form with a Retroactive Date*** prior to the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of ***five (5)*** years after completion of contract work.

However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City of Stockton reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

Contractor shall, prior to the commencement of work under this Agreement, provide the City of Stockton with a copy of its declarations page(s) and endorsement page(s) for each of the required policies.
