

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION DESIGNATING ADDITIONAL STOP CONTROLLED INTERSECTIONS AND AMENDING THE “STOP CONTROLLED INTERSECTION SCHEDULE”

The City of Stockton installs stop controls (stop signs) to assign right-of-way and promote orderly traffic flow; and

Pursuant to the Stockton Municipal Code (SMC), stop sign installation is authorized by Council resolution, either by designation of through streets, or by designation of intersections where stop signs are warranted. These authorized locations are recorded on either the “Through Street Schedule” or the “Stop Controlled Intersection Schedule”, which are maintained by the Public Works Department; and

Residents expressed concerns regarding safety and traffic flow at the following intersection locations:

- 1) Alvarado Avenue and Essex Street,
- 2) B Street and Carpenter Road,
- 3) Diana Marie Drive and Greenoch Way/Jill Circle,
- 4) Garfield Street and Hazelton Avenue,
- 5) Hazelton Avenue and Stanislaus Street; and

Based on traffic analysis and review of field conditions, existing stop controls at the noted intersections will be converted to 2-way and 4-way stop controls to improve safety and traffic operations; now, therefore,
