EDGAR Certification

1. EDGAR Certification

When an E&I Member seeks to procure goods and services using funds under a federal grant or contract ("federal funds"), specific federal laws, regulations, and requirements may apply in addition to those under state law. This includes, but is not limited to, the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 CFR 200 (sometimes referred to as the "Uniform Guidance" or "new EDGAR"). All Suppliers submitting proposals must complete this EDGAR Certification Form regarding Supplier's willingness and ability to comply with certain requirements that may be applicable to specific E&I Member purchases using federal funds. This completed form will be made available to E&I Members for their use while considering their purchasing options. E&I Members may also require Supplier to enter into ancillary agreements, in addition to E&I's Master Agreement's general terms and conditions, to address the Member's specific contractual needs, including but not limited to, contract requirements for a procurement using federal funds.

The following certifications and provisions are required and apply when Members expend federal funds for any contract resulting from this procurement process. Members will provide notification to Supplier, in writing, if federal funds are to be used and thus these requirements met.

Pursuant to 2 CFR 200.326, all contracts, including small purchases, awarded by the Agency and the Agency's subcontractors shall contain the procurement provisions of Appendix II to part 200, as applicable, which are detailed in this document. **Accordingly, the parties agree that the following terms and conditions apply to the Contract between E&I and Supplier in all situations where Supplier has been notified by Member (in writing) that Supplier is paid or will be paid with federal funds:**

For each of the items below, Supplier should certify Supplier's agreement and ability to comply, by having Supplier's authorized representative complete and initial the applicable boxes and sign the acknowledgment at the end of this form. If you fail to complete any item in this form, E&I will consider Supplier's response as "NO," the Supplier is unable or unwilling to comply. A "NO" response to any of the items may, if applicable, impact the ability of an E&I Member to purchase from the Supplier using federal funds.

**REQUIRED CONTRACT PROVISIONS FOR NON-FEDERAL ENTITY CONTRACTS UNDER FEDERAL AWARDS
APPENDIX II TO 2 CFR PART 200**

(A) Contracts for more than the simplified acquisition threshold currently set at \$150,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Pursuant to Federal Rule (A) above, when Member expends federal funds, Member reserves all rights and privileges under the applicable laws and regulations with respect to this procurement in the event of breach of contract by either party. Provisions regarding Supplier default are included in the E&I RFP Attachment B & Master Agreement Attachment B General Terms and Conditions. Any contract awarded will be subject to such E&I Terms and Conditions, as well as any additional terms and conditions in any Purchase Order, E&I Member Ancillary Contract, or Member Construction Contract agreed upon by Supplier and E&I Member, which must be consistent with and protect the E&I Member at least to the same extent as the E&I Terms and Conditions and minimum requirements of law. The remedies under the Contract are in addition to any other remedies that may be available under law or in equity. By submitting a Proposal, you agree to these Supplier violation and breach of contract terms.
