

Shade Sails Designer San Francisco

This patio shade sail structure cools employees and visitors at this San Francisco company. We were responsible for the design, engineering, fabrication, and construction.

DESCRIPTION

Photos of Shade Sails - Commercial and Residential

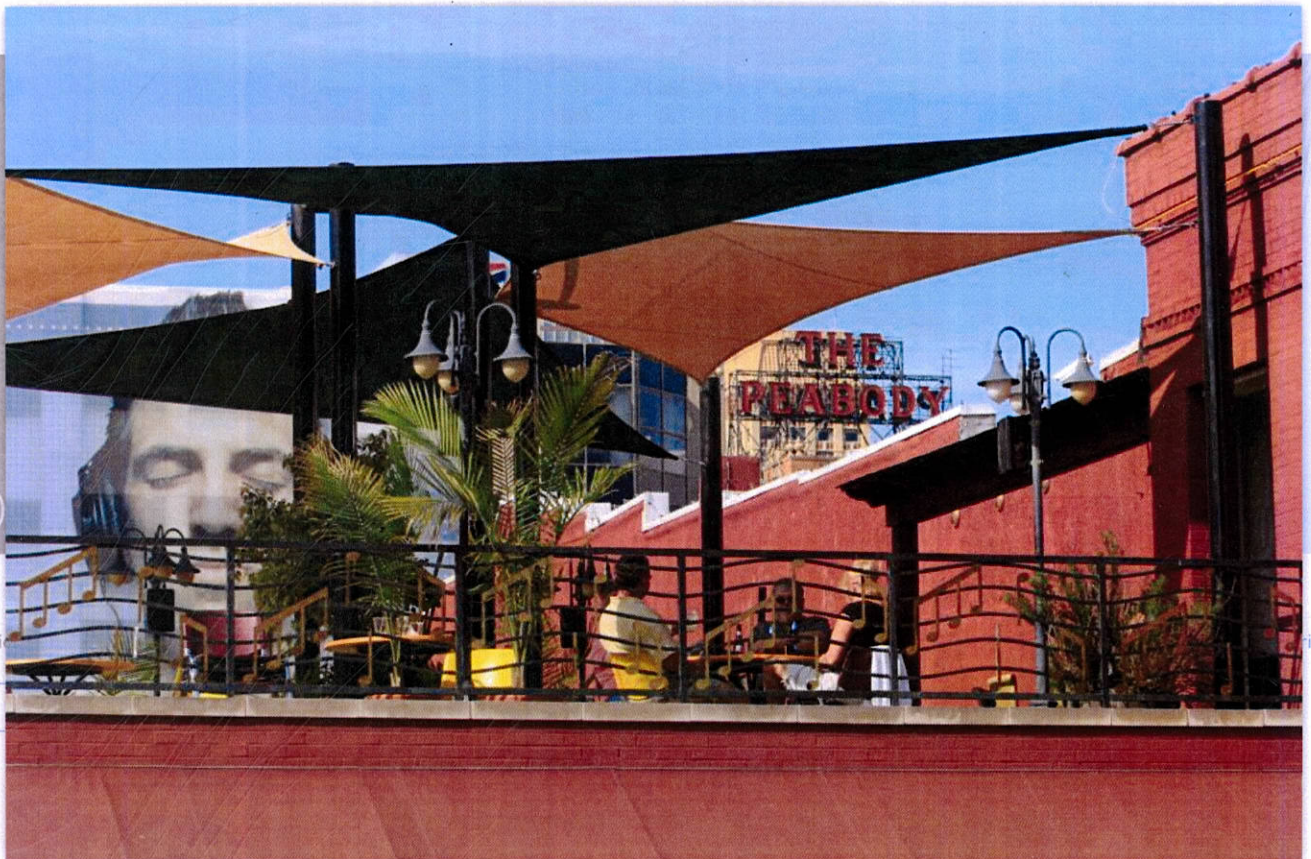

Check out our Photo Gallery of a variety of **Shade Sails**, sometimes referred to as Sun Shades. Shade sails are an innovative and aesthetically pleasing way to create shaded spaces outside of the home or business. At home, they allow you to cover your patio, swimming pool area, gardens, children's play areas, cars and other vehicles, and virtually any outdoor area that you would like to be protected from the sun. Businesses find shade sails valuable for creating shade in courtyards, outdoor break areas, and open air restaurants. Shade sails can be mounted to practically any surface and are simple to install. Now you can create a shaded area anywhere around your home, yard, or business.
