6.5 | PROJECT UNDERSTANDING

CSG has thoroughly reviewed the City's RFP, reviewed all the City-owned bridges (with Google and site visits) to gain a close understanding of the City's bridge maintenance repair needs for this project. Our overall approach is based upon our direct experience in developing similar projects for our clients throughout Northern California. The range of projects we have performed for other Cities include performing bridge inspection and documentation, emergency assessment inspection and evaluation of damaged bridge structures, developing BPMP lists and applications to secure federal funds, HBP and Caltrans Local Assistance Process requirements, developing quality design packages for bridge projects and performing construction design support.

CSG has developed our understanding and work plan for the inspection and development of the technical studies, PS&E, CEQA/NEPA clearance and regulatory agency permitting for the City's BPMP repairs of the City's four bridges listed in the RFP. Based upon the City's current bridge inventory and a review of the Caltrans Local Agency Bridges list, ***the City's four bridges that are owned and maintained by the City are eligible for funding under the current BPMP guidelines.***

This project will provide environmental clearance and final PS&E for the repair of four bridges that have been approved by Caltrans under the BPMP funding program. All four (4) bridges are on the National Bridge Inventory (NBI) list and are inspected by Caltrans' Division of Maintenance and Inspections on a bi-annual basis. The resulting inspection reports are delivered to the City and contain a summary of each bridge's deficiencies and recommendations for repair, rehabilitation or replacement. Proposed repairs include channel reconstruction, methacrylate deck sealing, fire damage repair. ***CSG will ensure that all proposed repairs are eligible for funding through the BPMP program under Caltrans' current guidelines and ensure that the City receives the full repairs possible under the BPMP program.***

CSG's detailed work plan as outlined below will achieve all these goals in an efficient manner and will result in comprehensive environmental clearance, permitting and final PS&E for the City's four bridges. Our scope is broken into tasks to achieve the following goals:

- Review all existing documentation and funding approval documents
- Inspect and confirm all work recommendations for the four bridge structures
- Develop technical studies required for environmental clearance and regulatory agency permitting
- Develop initial and final PS&E documents for the City to advertise and award for construction

6.6 | DETAILED WORK PLAN

PHASE 1 - PRELIMINARY ENGINEERING AND ENVIRONMENTAL CLEARANCE DOCUMENTS

Task 1 – Project Management

Task 1.1 Project Management and Meetings

Upon issuance of a Notice to Proceed, CSG will schedule a Kickoff meeting with the City to identify and discuss the project objectives, scope and schedule. At this meeting, points of contact will be established; CSG's detailed schedule will be reviewed, and expectations communicated. After the meeting, CSG will attend up to five (5) meetings for review of CSG Team deliverables and City staff coordination, stakeholder coordination. CSG will always be responsible for coordination with clear and consistent communication with the City to discuss the progress of the bridge repair development and upcoming action items.

Task 1.2 Quality Control

CSG will perform quality assurance and quality control before each milestone submittal and in conformance to City and Caltrans standards. All deliverables will be reviewed by our QA/QC Reviewer/Manager for completeness, paying attention to see that all bid items are properly defined, and payment sections of the specifications cover all significant cost elements and major items of work. **QA/QC Reviewer/Manager will sign the City's PS&E Quality Assurance/Quality Control Checklist/Documentation, PS&E Checklist, Plan Checklist for Title Sheet, Review Comments and Responses Form, and PS&E Cross Check Form at each deliverable submittal** as described above.

Task 1 Deliverables:

- Kick-off and submittal of meeting agendas and minutes
- Signed PS&E Quality Assurance/Quality Control Checklist/Documentation at Each Deliverable Submittal

Task 2 – Review Existing Documents

Under Task 2, CSG will review any available as-builts, Caltrans and/or City inspection or maintenance reports for the four City-owned bridges. Potential preventive maintenance work items include minor repair of structural elements, deck repair and sealing, spall repair, joint seal repair, erosion countermeasures, barriers and guardrail, etc. Any major structural deficiencies such as potential seismic vulnerability will be immediately reported to the City.

To ensure a successful bridge repair project, Task 2 includes a thorough discussion with City staff to clearly establish the potential repair scope, repair concepts, schedule, management, and review of existing information about the City's bridges. CSG will prepare a brief memo confirming BPMP repair eligibility per current BPMP guidelines for the City's four BPMP bridges.

Task 2 Deliverables:

- Brief memo confirming BPMP repair eligibility

Task 3 – Bridge Field Inspections

After available information for the bridges has been reviewed under Task 2, CSG staff will visit each bridge site, perform inspections as needed to confirm the required repairs and complete Bridge Field Inspection Forms. The purpose of the site reviews is to verify previously identified repairs needed, identify additional potential repairs and to assess site conditions that may affect repair construction and make any needed updates to previous recommendations.

The site review will follow Caltrans procedures and include determining the type and extent of repairs needed, a check for evidence of concrete deterioration and observing horizontal and/or vertical obstructions. The channel bottom will be probed to the extent possible if there is evidence of localized scour adjacent to any supports. Maintenance items that are already noted in the City's existing inspection reports will be assessed as well.

Inspections of the bridges will focus on confirming Caltrans work recommendations and noting other deficiencies not captured in the Caltrans inspection. Some of the City's NBI bridges are in Poor Condition and are considered Structurally Deficient. The cause of this condition is often related to a poor deck condition but can also be an indication that the bridge needs rehabilitation and possibly replacement. CSG will consider all of these existing conditions when making final work recommendations for the bridges.

All accessible areas of the structure will be observed. No destructive or non-destructive testing or structural analysis is included in the bridge inspection and evaluations.

In addition to confirming and identifying the required maintenance repairs, the following observations will be made for each site to consider in the future funding and design phases:

- Traffic control requirements
- Right-of-Way impacts and access issues
- Environmentally sensitive areas of impact and potential permit requirements
- Obstructions to construction and/or clearance issues

- Utility conflicts
- Other Site Constraints

Task 3 Deliverables:

- Bridge Field Inspection forms for the City's four BPMP bridges

Task 4 – Survey

UNICO will perform topographic surveys and right of way surveys at each bridge site.

UNICO will perform mapping research, horizontal and vertical control, boundary and right of way surveying, along with topographic surveying and mapping. UNICO will utilize GPS and conventional survey methods to perform our work. UNICO will coordinate closely with the City of Stockton (City) to attain the necessary mapping, documentation, traffic control and permitting required for this project. UNICO will also provide regular survey status, progress reports, updates and schedules.

UNICO will attain current County right of way maps, deeds, record of surveys, parcel maps and other relevant mapping information along the project limits to determine the right of way boundaries.

A right-of-way base map will be prepared to assist with searching for monuments and right-of-way boundaries. GPS and conventional surveys will be performed to locate monuments, pins, wells, fences and other boundary markers necessary to resolve and map the right of way and adjacent parcels. All found monuments that lie within the project footprint will be surveyed and noted in base map for insertion into engineering design plan set.

The right of way map will be prepared from record information from available County and City records. Title reports will not be used as part of the resolution and mapping. In the event the project impacts the right of way and adjacent private properties, UNICO will request current title reports be provided for any property impacted by the project as an additional service.

A design level topographic survey will be performed at each of the 4 bridge locations utilizing conventional (non-aerial) field surveying methods. UNICO will review any survey information or drawings available from the City and utilize as necessary. UNICO will locate and map all topographic features necessary to complete the design and repairs.

Task 4 Deliverables:

- Control Table and Report
- AutoCAD Right of Way Base Map
- Points Files
- Maps, Deeds and Record Information
- Pre-Construction Corner Record Cards or Record of Survey if Necessary

Task 5 -Utility Coordination

Task 5.1 Utility Coordination:

CSG will coordinate with all utility companies with facilities that may be impacted by the bridge repairs that have facilities within the project area to request mapping of their facilities in the area, identify and minimize utility conflicts, and notify utility companies of facilities or covers which need to be relocated or adjusted to grade because of the proposed improvements. Utilities impacted by the proposed improvements within the project area will be shown on improvement plans.

CSG will prepare and submit a project limit map showing the project area to request utility information from utility companies. During the preliminary 30% design stage, prepare and submit Utility Letter "A" to the City for review prior to sending the letter to the utility companies. Utility information received from the utility companies will be shown on a base map in both plan and profile views. During the 65% design phase, CSG will prepare Utility Letter "B" and submit to the City for review prior to sending it to utility companies. During the 90% design phase, CSG will prepare and submit Utility Letter "C" to the City for review prior to sending it to utility companies. Two sets of half-sized 100% plans will be submitted with Letter "C" to utility companies to

indicate whether any changes to the design plans have been made and request written confirmation of utility relocations if any, and utility relocation schedule. Provide copies of all utility data obtained from the utility companies to the City for the record. Locations and depths of existing utilities based on the utility pothole data will be shown on the design plans.

Task 5.2 – Utility Potholing

BESS Test Lab will pothole up to two potholes per bridge (8 potholes total) based upon information determined during the 30% design development and information gained from coordination with the utility companies. The utilities are not known at this time, but based on site visits, 8 total potholes should be sufficient for this project.

Task 5 Deliverables:

- Prepare Utility A, B, and C Letters
- Prepare Relocation Exhibits if needed
- Utility Map confirmed with potholing information for 2 utilities at each bridge site location.

Task 6 -Geotechnical and ISA Hazardous Material Reports

Task 6.1 – ISA Hazardous Material Report

PARIKH Consultants will prepare one Phase I Initial Site Assessment (ISA) report for each bridge location. Generally, the objective of the ISA will be to determine the presence or likely presence of any hazardous substances or petroleum products within the project limits. Data will be ordered from Environmental Data Research, Inc. (EDR Inc.). No field exploration involving soil or material disturbance or testing is included in this phase of the work.

Task 6.2 Geotechnical Investigation

After reviewing the available information, we have summarized the

- Pershing Avenue over Smith Canal (Br. No. 29C0242, located at 37.966222, -121.313907): As-built data is available. However, the available boring data were obtained by non-standard sampling near the bottom of the canal.
- San Joaquin Street over Mormon Slough (Br. No. 29C0237, located at 37.946615, -121.285423): No as-built boring data is available, and the closest available data is about 1,500 feet north of the site.
- Manthey Road over Walker Slough (Br. No. 29C0400, located at 37.916915, -121.291452): As-built LOTB were obtained from the Caltrans GeoDOG website, including one boring and one CPT.
- Airport Way over Duck Creek (Br. No. 29C0093 L/R, located at 37.923398, -121.264009): No as-built boring data is available.

Per discussion with the design team, the following approaches are being considered:

Approach Alternative 1:

If engineering analyses are required to evaluate the stability of the abutments with proposed grading, field explorations should be performed for bridges 29C0242, 29C0237, and 29C0093.

Approach Alternative 2:

If the primary goal is to restore the condition to the original configuration:

- For bridges 29C0242 and 29C0237, the as-built plans show their original design. If the proposed work is limited to repairing the current conditions with minimal earthwork or grading, a full geotechnical engineering evaluation is likely unnecessary. In such cases, geotechnical recommendations will only address earthwork and grading, without requiring additional site investigations.
- For bridges 29C0400 and 29C0093 L/R, the as-built plans do not show the original sections. As a result, engineering evaluations are expected to be necessary for both locations.

- For 29C0400, the available as-built data can serve as the basis for an engineering evaluation.
- For 29C0093 L/R, site explorations should be considered to gather sufficient data for evaluation.

The detailed scope of work is presented below:

Research/Data Review:

PARIKH will review published geologic maps and available as-built boring data, including previous studies in the project vicinity from the City’s database if provided.

Permits and Utility Clearances:

Encroachment Permit:

- PARIKH will apply for the City’s encroachment permit. It is assumed that the encroachment permit fee will be waived by the City to perform the geotechnical field explorations.
- Traffic control is expected. , and the traffic control plans will be prepared by an outside vendor.

Drilling Permit: PARIKH will apply for the drilling permit from the San Joaquin County Environmental Health Department.

Utility Clearance: PARIKH’s field engineer will mark the exploration locations and contact Underground Service Alert (USA) for the utility clearance. A private utility locator is not included in the scope since all locations are expected to be within the public right-of-way. Removing the USA marking is not included in the scope.

Field Explorations:

Where additional geotechnical explorations are needed, one Cone Penetration Test (CPT) and a Seismic CPT are planned at each bridge location to verify the subsurface conditions and to measure the shear wave velocities. Based on the design approaches, the proposed explorations are summarized below:

Location	Design Approach 1	Design Approach 2
Pershing Avenue over Smith Canal (Br. No. 29C0242)	One CPT & one SCPT	-
San Joaquin Street over Mormon Slough (Br. No. 29C0237)	One CPT & one SCPT	-
Manthey Road over Walker Slough (Br. No. 29C0400)	-	-
Airport Way over Duck Creek (Br. No. 29C0093 L/R)	One CPT & one SCPT	One CPT & one SCPT

Temporary lane closures will be in place while drilling. PARIKH will engage a vendor to provide traffic control with flaggers during the field exploration. We assumed that the field exploration would be completed between regular business hours, i.e., no night work. If drilling activities take longer due to unforeseen conditions, an additional budget will be needed.

The GPS coordinates will be recorded using the cellphone. Our scope does not include a survey of the locations. Please note that the actual boring locations are subject to utility conflict and site access. It is assumed that the pavement will be restored by cold AC patch or concrete. The use of hot asphalt mix (HMA) for pavement restoration is not included in the cost estimate.

The average shear wave velocity (V_{s30m}) will be measured from the CPTs and also based on the correlations from the boring data.

Please note that no in-situ percolation tests are planned at this time. The percolation rates will be estimated based on laboratory hydraulic conductivity test results.

Laboratory Testing:

No soil samples will be collected from the CPT testing. Two particle size analyses will be performed on the grab samples collected by hand tools near the creek bed.

Soil Analysis/Evaluation:

Based on our experience, engineering analyses may be required based on the proposed improvements:

Geotechnical Assessment Memorandum

PARIKH will prepare one (1) Geotechnical Assessment Memorandum for each structure. The CPT results and the analysis results will be included. A draft memorandum will be submitted for the design team and the agency’s review. The memorandum will be updated and finalized based on the review comments and design updates, if any.

Task 6 Deliverables:

- Four (4) Phase I ISA Reports
- Four (4) Geotechnical Assessment Memorandums, draft and final

Task 7 -Hydrology and Hydraulic Study Report

Task 7.1: Draft Location Hydraulic Study and Summary Floodplain Encroachment Reports:

Schaaf & Wheeler will provide a draft copy of the LHSSFER for review and comment by the City and project team. Schaaf & Wheeler will review and incorporate feedback and provide a revised draft report for circulation and comment. It is assumed that adequate topography of the channels and geometry of the bridges will be readily available. Hydrology and hydraulic modeling will utilize regional data and HEC-RAS 1D/2D. Modeling will extend approximately 300 feet upstream and downstream of each bridge.

Task 7.2: Final Location Hydraulic Study and Summary Floodplain Encroachment Report:

Schaaf & Wheeler will provide a final LHSSFER for submission to Caltrans incorporating comments from the previous draft reviews by the project team.

Task 7 Deliverables:

Draft and Final Location Hydraulic Study and Summary Floodplain Encroachment Report (LHSSFER) for four bridges.

Task 8 -30% Design Plans

Task 8.1 - 30% Preliminary Plans and Cost Estimate

CSG will prepare a 30% plan sheet set that incorporates the technical engineering, hydraulic, geotechnical and environmental reports and findings. CSG will prepare conceptual plans for the deck seals, joint seal replacement, fire damage and embankment repair for the City's approval before proceeding to the Final design phase. Key to this phase of the work is ensuring that all repairs fall within the approved BPMP funding scope and available fund.

Upon receipt of City approval of the conceptual repairs, CSG will prepare preliminary plans for the Project. These preliminary plans will provide enough data to convey a complete scope of the Project. Concurrent with the development of the 30% plans, CSG will prepare a preliminary construction cost estimate.

PHASE 2 - FINAL DESIGN & PERMITTING

Task 9 – Final Design and PS&E Development

After acceptance of the 30% Preliminary Plans, CSG will begin the final design work and preparation of the Final PS&E. This phase will include the development of the civil plans and the preparation of Special Provisions to accompany the State of California Standard Specifications.

The initial step of the final design phase will be the development of the first (60%) submittal of the plans, special provisions, and estimate (PS&E).

Task 9.1 - 65% Preliminary Plans, Special Provisions & Estimate

Concurrently with the preliminary design efforts, CSG will prepare the 65% Civil and Structural PS&E. This task will also include the preparation of Special Provisions to accompany the State of California Standard Specifications. Environmental mitigation measures, if required, will be incorporated into the development of these documents.

Plans

The plan sheets will be prepared in English units. CSG intends to use AutoCAD Civil 3D.

Special Provisions

CSG will use the most current version of the Standard Special Provisions available from Caltrans and will revise the Standard Special Provisions to meet the requirements for this Project. The special provisions document will be developed using Microsoft Word.

Cost Estimate

Along with the plans and special provisions, a detailed construction cost will be developed. This estimate will be based on quantity take-off calculations performed and checked by the designer and unit cost information for each of the items listed. The unit cost data will be based on past relevant experience with similar projects, including any of the City construction cost data, and the latest version of Contract Cost Data as prepared by Caltrans.

Task 9.2 - 65% PS&E Submittal

Upon completion of this portion of work and after the environmental documents have been approved, CSG will submit for review and comment on the 65% PS&E package.

Task 9.3 - Response to Review Comments/95% PS&E Revisions

Upon receipt of the City and other review agency comments on the 65% complete project documents, revisions will be made to the Plans, Special Provisions, and Estimate in preparation for the 95% submittal package. A written response will be prepared by the designer addressing the reviewer or checker comments. The project Special Provisions will also be finalized in Caltrans' standard format for inclusion in the Bid Documents along with the boilerplate portion provided by The City.

A complete set of checked Plans, Specifications, and Construction Cost Estimate will be submitted to the City and Caltrans for final review and approval.

Task 9.4 - 100% Final PS&E

Design comments on the 95% PS&E submittal made by the City and other agency reviewers will be incorporated as appropriate. The final drawings, special provisions, and estimates will be prepared in accordance with the Local Programs Manual and presented to the City at the completion of the design phase of the project. All documents will be stamped and signed by a licensed civil engineer registered in California. Quality control task will be performed as described on Task 1.2.

TASK 10 - REGULATORY AGENCY PERMITTING

Task 10.1 - Project Description Development

WRA will then develop a data request to obtain necessary information to prepare a Project Description suitable for use in completing required environmental technical studies and permit applications. Our team will work closely and iteratively with the Client to draft a Project Description that includes all elements necessary to comply with environmental review and permitting requirements. The Project Description will include the following:

- Project Location and Site Characteristics: Project location, size, zoning, relationship to other plans and uses
- Project Characteristics: Project components, including building height, number of dwelling units, amenities, parking, existing and proposed trees
- Project Construction: Phases, excavation, foundations, schedule, staging, construction equipment, vehicle trips

A draft of the Project Description will be submitted to the City for review. Upon receipt of comments, WRA will revise the Draft Project Description and prepare a Final Project Description, which will be the basis for evaluating the project for environmental review and permitting purposes. This task assumes that drawing sets, plans, renderings, and project details will be provided by the Client. This task also assumes preparation of a Draft Project Description and a Final Project Description will be sufficient. Additional iterations or changes to the project are not included in the scope. The Project Description will also be made available to the City for processing of California Environmental Quality Act documentation.

Task 10.2 -Site Visit and Natural Environment Study

WRA will conduct a biological site assessment in the project area to determine (1) habitat types present within the project area, (2) special status plant and wildlife species that may be present in the project area, and (3) presence of sensitive habitats subject to regulation by special jurisdictions, such as wetlands. Prior to the site visit, a desktop analysis will be conducted using reputable publicly available databases to determine special status species and sensitive habitats with potential to occur in the project area. The focus of the site assessment will be habitat mapping, documenting plant and wildlife species present, and identifying and mapping jurisdictional boundaries of waterways or wetlands regulated by the Corps, RWQCB, and CDFW. Site mapping will be done through the use of sub-meter accuracy GIS units. Cost assumes a one-day assessment for two biologists to cover all four bridge repair sites

Based on results of the field evaluation, WRA will prepare two draft and one final NES reports (one draft for City review, one draft for Caltrans review) that presents the results of the site assessment in the standard Caltrans format. Based on the Caltrans Preliminary Environmental Study (PES), we assume that one NES will be used to cover all four bridges. The NES report will summarize findings from the literature review and site visit and will address the quantity and type of habitats and/or special status species to be impacted (permanent, temporary, direct, indirect, and cumulative impacts). The NES will provide regulatory permitting requirements, and impact avoidance/minimization recommendations and mitigation measures for unavoidable impacts.

Task 10.3 - Caltrans Biological Assessment

Based on the PES, Caltrans has determined that a Biological Assessment is necessary. WRA will prepare the BA to Caltrans standards for Section 7 compliance. The BA will address potential effects of the Project on federal listed species identified as having the potential to be present based on the NES. The BA will include discussions of the species life histories, potential impacts from project construction, and proposed avoidance and minimization measures based on the NES as well as input from consulting resource agencies. A Bio-Acoustic Evaluation will also be included as a component of the BA. Based on the PES, we assume that one single BA will be prepared covering all four bridge locations.

Task 10.4 - Section 404 Delineation Report

Based on a review of the bridge locations, we anticipate that a wetland delineation will be required. The Corps of Engineers has published guidance on the indicators that are used to determine the presence of wetlands (Corps of Engineers, 1987 and 2006). These indicators include wetland plants, wetland hydrology, and wetland soils. WRA will conduct an on-site inspection to evaluate the presence, if any, of the indicators used by the Corps to determine wetland presence. WRA staff will review the data collected to determine areas which meet the criteria required in the Corps manual. A report will be prepared in accordance with the format required by the local Corps District. The report will include a delineation map submitted on either aerial photography or 100-scale topographic maps using one-foot contours or a suitable aerial photograph and sample point data sheets with the results of the field investigations. WRA will prepare a draft report for review by the client. Once approved for submittal, WRA will submit the delineation and request that the Corps conduct a site verification of the proposed delineation. WRA will attend the site visit and discuss its findings with Corps staff. A final map will be prepared following the site inspection by the Corps to reflect any modifications agreed to in the field, assuming those modifications are minor.

Task 10.5 - CDFW Lakebed and Stream Alteration Agreement Permit Application

WRA will prepare a Lakebed and Stream Alteration Agreement (LSAA) permit application for compliance with Section 1602 of the California Fish and Game Code. Based on past experience with CDFW, we assume that the agency will require four separate application submittals through the CDFW Environmental Permit Information Management System (EPIMS) for each individual bridge repair project. This is likely to entail the final issuance of four separate LSAA permits. Based on past experience, it is assumed that CDFW will accept the NES as the primary analysis document supporting the application package, though other background documentation, such as the Location Hydraulic Study, may be required to support the applications. This task also assumes response to up to one Notice of Incomplete Application, review of Draft LSAs for each bridge, and one round of negotiation with CDFW regarding details of permit requirements.

Task 10.6 - RWQCB Section 401 Water Quality Certification Permit Application

WRA will prepare a Water Quality Certification Permit Application for the RWQCB for compliance with Clean Water Act Section 401. The Caltrans NES/BA will be submitted as an attachment for the 401 application with the assumption that this will satisfy RWQCB requirements for supplemental information, though other background documentation, such as the Location Hydraulic Study, may be required to support the applications. It is assumed that the level of potential impacts to aquatic resources will remain below the level where an alternatives analysis would be required. This task includes time for up to one Incomplete Application Letter and response, as well as coordination for final permit issuance.

Task 10.7 - USACE Section 404 Nationwide Permit 14 Application

The Project is assumed to be classified as a Corps. recognized "Linear Transportation Project" qualifying it for Nationwide Permit 14 (NWP 14). WRA will prepare and submit application materials for NWP 14 to the Corps.

through their Regulatory Request System (RRS). It is assumed that all federal agency consultation requirements triggered by the Corps permit will be satisfied by preparation of documentation for Caltrans (e.g., the Biological Assessment). This task includes time for response to one set of clarifying questions from the Corps as well as communications with the Corps with regard to schedule for permit issuance.

Task 10.8 - NEPA Facilitation with Caltrans

WRA will assist Client with facilitating NEPA review by Caltrans. Cost assumes Project will qualify for a Categorical Exclusion under NEPA and a Categorical Exemption under CEQA. This task assumes up to ten meetings with Caltrans staff, City, and/or project team members responsible for preparing the required technical studies as well as associated email communications. This task assumes the studies listed in the PES are the extent of studies that will be required by Caltrans and that the project will not result in changes to federal flood control projects that would require a Section 408 consultation. As described in the RFP, it is assumed that the City will be responsible for completing CEQA documentation.

TASK 10.9 - Habitat Mitigation and Monitoring Plan

Based on the site location photographs, there is potential that the agencies will require preparation of a Habitat Mitigation and Monitoring Plan (HMMP) focused on revegetation by native riparian species. WRA will prepare a written HMMP describing the extent of project impacts to riparian vegetation, the approach to replanting (including species to be planted, use of irrigation, etc.), and a plan to monitor the replanted species for a period specified by regulatory agency requirements (typically 5 years). This task includes preparation of the written document only; incorporation of the replanting plan into the project design package is assumed to be completed by others, or would be subject to a change order.

Task 10.10 - Client Communications and Project Management

Cost for coordination with client and project management requirements for preparation of permitting package and other deliverables. Costs include time for email, phone calls, and requests for information on Project details, up to a total of 40 hours over the course of the project.

PHASE 3 - BIDDING AND CONSTRUCTION SUPPORT

TASK 13 - POST DESIGN SERVICES

Task 13.1 - Bidding Assistance

Upon completion of the final design phase, CSG will provide Bidding Assistance. CSG will assist the City in answering technical questions related to the plans, special provisions, and quantity estimates, and the preparation of required PS&E addendums.

Task 13.2 - Construction Support Services

CSG will provide construction support services for the project. The services for this task include:

- Making field visits to the construction site
- Attending construction meetings
- Responding to contractors' requests for information (RFI's)
- Reviewing contractor submittals and shop drawings.
- Reviewing and addressing contractor requested change orders
- Visiting the Project to determine whether the work is substantially complete and preparing a punch list of items to be completed prior to final acceptance.
- Preparing as-built drawings based on Resident Engineer red lines at the completion of the project. Files will be delivered in AutoCAD format.

Exclusions

- Landscape Architecture Services
- Temporary and Permanent ROW Negotiation/Acquisition
- Traffic Impact Study/Report
- Traffic Control Plans

Bridge Rehabilitation and Replacement Program Phase IV
Project No. WT18001 / Federal Project No. BPMP-5008(201)
(Professional Services)

Consultant shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Consultant, its agents, representatives, or employees.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

- 1. Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **\$2,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.
- 2. Automobile Liability:** Insurance Services Office Form Number CA 0001 covering, Code 1 (any auto), or if Consultant has no owned autos, Code 8 (hired) and 9 (non-owned), with limit no less than **\$1,000,000** per accident for bodily injury and property damage.
- 3. Workers' Compensation** insurance as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than **\$1,000,000** per accident for bodily injury or disease.
(Not required if consultant provides written verification it has no employees)
- 4. Professional Liability (Errors and Omissions)** Insurance appropriate to the Consultant's profession, with limit no less than **\$5,000,000** per occurrence or claim, **\$5,000,000** aggregate.

If the Consultant maintains broader coverage and/or higher limits than the minimums shown above, the City of Stockton requires and shall be entitled to the broader coverage and/or the higher limits maintained by the contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City of Stockton.

Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status

The City of Stockton, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of **both** CG 20 10, CG 20 26, CG 20 33, or CG 20 38; **and** CG 20 37 if a later edition is used). Additional insured Name of Organization shall read "City of Stockton, its officers, officials, employees, and volunteers." Policy shall cover City of Stockton, its officers, officials, employees, and volunteers for all locations work is done under this contract.

Primary Coverage

For any claims related to this contract, the **Contractor's insurance coverage shall be primary and non-contributory** and at least as broad as ISO CG 20 01 04 13 as respects the City of Stockton, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City of Stockton, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies. The City of Stockton does not accept endorsements limiting the Contractor's insurance coverage to the sole negligence of the Named Insured.

Umbrella or Excess Policy

The Contractor may use Umbrella or Excess Policies to provide the liability limits as required in this agreement. This form of insurance will be acceptable provided that all of the Primary and Umbrella or Excess Policies shall provide all of the insurance coverages herein required, including, but not limited to, primary and non-contributory, additional insured, Self-Insured Retentions (SIRs), indemnity, and defense requirements. The Umbrella or Excess policies shall be provided on a true "following form" or broader coverage basis, with coverage at least as broad as provided on the underlying Commercial General Liability insurance. No insurance policies maintained by the Additional Insureds, whether primary or excess, and which also apply to a loss covered hereunder, shall be called upon to contribute to a loss until the Contractor's primary and excess liability policies are exhausted.

Notice of Cancellation

Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the City of Stockton.

Waiver of Subrogation

Contractor hereby grants to City of Stockton a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City of Stockton by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City of Stockton has received a waiver of subrogation endorsement from the insurer.

Self-Insured Retentions

Self-insured retentions must be declared to and approved by the City of Stockton. The City of Stockton may require the Contractor to purchase coverage with a lower retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City of Stockton. The CGL and any policies, including Excess liability policies, may not be subject to a self-insured retention (SIR) or deductible that exceeds \$25,000 unless approved in writing by City of Stockton. Any and all deductibles and SIRs shall be the sole responsibility of Contractor or subcontractor who procured such insurance and shall not apply to the Indemnified Additional Insured Parties. City of Stockton may deduct from any amounts otherwise due Contractor to fund the SIR/deductible. Policies shall NOT contain any self-insured retention (SIR) provision that limits the satisfaction of the SIR to the Named. The policy must also provide that Defense costs, including the Allocated Loss Adjustment Expenses, will satisfy the SIR or deductible. City of Stockton reserves the right to obtain a copy of any policies and endorsements for verification.

Acceptability of Insurers

Insurance is to be placed with insurers authorized to conduct business in the state with a current A.M. Best's rating of no less than A:VII, unless otherwise acceptable to the City of Stockton.

Claims Made Policies (Professional & Pollution only)

If any of the required policies provide claims-made coverage:

1. The Retroactive Date must be shown, and must be before the date of the contract or the beginning of contract work.
2. Insurance must be maintained and evidence of insurance must be provided ***for at least five (5) years after completion of the contract of work.***
3. If coverage is canceled or non-renewed, and not replaced ***with another claims-made policy form with a Retroactive Date prior to*** the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of ***five (5)*** years after completion of work.

Verification of Coverage

Contractor shall furnish the City of Stockton with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause **and a copy of the Declarations and Endorsements Pages of the CGL and any Excess policies listing all policy endorsements.** All certificates and endorsements and copies of the Declarations & Endorsements pages are to be received and approved by the City of Stockton before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City of Stockton reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time. City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Subcontractors

Consultant shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that City of Stockton is an additional insured on insurance required from subcontractors.

Duration of Coverage

CGL & Excess liability policies **for any construction related work, including, but not limited to, maintenance, service, or repair work,** shall continue coverage for a minimum of 5 years for Completed Operations liability coverage. Such Insurance must be maintained and evidence of insurance must be provided ***for at least five (5) years after completion of the contract of work.***

Special Risks or Circumstances

City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

- B. The work to be performed under this AGREEMENT is described in Article III Statement of Work and the approved CONSULTANT's Cost Proposal dated JANUARY 12, 2026. The approved CONSULTANT's Cost Proposal is attached hereto EXHIBIT B and incorporated by reference. If there is any conflict between the approved Cost Proposal and this AGREEMENT, this AGREEMENT shall take precedence.
- C. CONSULTANT agrees to the fullest extent permitted by law, to indemnify, protect, defend, and hold harmless LOCAL AGENCY, its officers, officials, agents, employees and volunteers from and against any and all claims, damages, demands, liability, costs, losses and expenses, including without limitation, court costs and reasonable attorneys' and expert witness fees, arising out of any failure to comply with applicable law, any injury to or death of any person(s), damage to property, loss of use of property, economic loss or otherwise arising out of the performance of the work described herein, to the extent caused by a negligent act or negligent failure to act, errors, omissions, recklessness or willful misconduct incident to the performance of this AGREEMENT on the part of CONSULTANT, except such loss or damage which was caused by the sole negligence, or willful misconduct of LOCAL AGENCY, as determined by a Court of competent jurisdiction. The provisions of this section shall survive termination or suspension of this AGREEMENT.
- D. CONSULTANT in the performance of this AGREEMENT, shall act in an independent capacity. It is understood and agreed that CONSULTANT (including CONSULTANT's employees) is an independent contractor, and that no relationship of employer-employee exists between the Parties hereto. CONSULTANT's assigned personnel shall not be entitled to any benefits payable to employees of LOCAL AGENCY.
- E. LOCAL AGENCY is not required to make any deductions or withholdings from the compensation payable to CONSULTANT under the provisions of the AGREEMENT and is not required to issue W-2 Forms for income and employment tax purposes for any of CONSULTANT's assigned personnel. CONSULTANT, in the performance of its obligation hereunder, is only subject to the control or direction of the LOCAL AGENCY as to the designation of tasks to be performed and the results to be accomplished.
- F. Any third-party person(s) employed by CONSULTANT shall be entirely and exclusively under the direction, supervision, and control of CONSULTANT. CONSULTANT hereby indemnifies and holds LOCAL AGENCY harmless from any and all claims that may be made against LOCAL AGENCY based upon any contention by any third party that an employer-employee relationship exists by reason of this AGREEMENT.

- G. Except as expressly authorized herein, CONSULTANT's obligations under this AGREEMENT are not assignable or transferable, and CONSULTANT shall not subcontract any work, without the prior written approval of the LOCAL AGENCY. However, claims for money due or which become due to CONSULTANT from LOCAL AGENCY under this AGREEMENT may be assigned to a financial institution or to a trustee in bankruptcy, without such approval. Notice of any assignment or transfer whether voluntary or involuntary shall be furnished promptly to the LOCAL AGENCY.
- H. CONSULTANT shall be as fully responsible to the LOCAL AGENCY for the negligent acts and omissions of its contractors and subcontractors or subconsultants, and of persons either directly or indirectly employed by them, in the same manner as persons directly employed by CONSULTANT.
- I. No alteration or variation of the terms of this AGREEMENT shall be valid, unless made in writing and signed by the parties authorized to bind the parties; and no oral understanding or agreement not incorporated herein, shall be binding on any of the parties hereto.

The maximum total cost as specified in Paragraph "I" of this Article shall not be exceeded, unless authorized by AGREEMENT amendment.

EXHIBIT G

- B. The indirect cost rate established for this AGREEMENT is extended through the duration of this specific AGREEMENT. CONSULTANT's agreement to the extension of the 1-year applicable period shall not be a condition or qualification to be considered for the work or AGREEMENT award.
- C. In addition to the allowable incurred costs, LOCAL AGENCY will pay CONSULTANT a fixed fee of \$724,311. The fixed fee is nonadjustable for the term of the AGREEMENT, except in the event of a significant change in the scope of work and such adjustment is made by AGREEMENT amendment.

- B. LOCAL AGENCY may temporarily suspend this AGREEMENT, at no additional cost to LOCAL AGENCY, provided that CONSULTANT is given written notice (delivered by certified mail, return receipt requested) of temporary suspension. If LOCAL AGENCY gives such notice of temporary suspension, CONSULTANT shall immediately suspend its activities under this AGREEMENT. A temporary suspension may be issued concurrent with the notice of termination.
- C. Notwithstanding any provisions of this AGREEMENT, CONSULTANT shall not be relieved of liability to LOCAL AGENCY for damages sustained by LOCAL AGENCY by virtue of any breach of this AGREEMENT by CONSULTANT, and LOCAL AGENCY may withhold any payments due to CONSULTANT until such time as the exact amount of damages, if any, due LOCAL AGENCY from CONSULTANT is determined.
- D. In the event of termination, CONSULTANT shall be compensated as provided for in this AGREEMENT. Upon termination, LOCAL AGENCY shall be entitled to all work, including but not limited to, reports, investigations, appraisals, inventories, studies, analyses, drawings and data estimates performed to that date, whether completed or not.

ARTICLE VII COST PRINCIPLES AND ADMINISTRATIVE REQUIREMENTS

- A. The CONSULTANT agrees that 48 CFR 31, Contract Cost Principles and Procedures, shall be used to determine the allowability of individual terms of cost.
- B. The CONSULTANT also agrees to comply with Federal procedures in accordance with 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.
- C. Any costs for which payment has been made to the CONSULTANT that are determined by subsequent audit to be unallowable under 48 CFR 31 or 2 CFR 200 are subject to repayment by the CONSULTANT to LOCAL AGENCY.
- D. When a CONSULTANT or Subconsultant is a Non-Profit Organization or an Institution of Higher Education, the Cost Principles for Title 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards shall apply.

ARTICLE VIII RETENTION OF RECORD/AUDITS

For the purpose of determining compliance with Gov. Code § 8546.7, the CONSULTANT, Subconsultants, and LOCAL AGENCY shall maintain all books, documents, papers, accounting records, Independent CPA Audited Indirect Cost Rate workpapers, and other evidence pertaining to the performance of the AGREEMENT including, but not limited to, the costs of administering the AGREEMENT. All parties, including the CONSULTANT's Independent CPA, shall make such workpapers and materials available at their respective offices at all reasonable times during the AGREEMENT period and for three (3) years from the date of final payment under the AGREEMENT and records for real property and equipment acquired with federal funds must be retained for three (3) years after final disposition. LOCAL AGENCY, Caltrans Auditor, FHWA, or any duly authorized representative of the Federal government having jurisdiction under Federal laws or regulations (including the basis of Federal funding in whole or in part) shall have access to any books, records, and documents of the CONSULTANT, Subconsultants, and the CONSULTANT's Independent CPA, that are pertinent to the AGREEMENT for audits, examinations, workpaper review, excerpts, and transactions, and copies thereof shall be furnished if requested without limitation.

ARTICLE IX AUDIT REVIEW PROCEDURES

- A. Any dispute concerning a question of fact arising under an interim or post audit of this AGREEMENT that is not disposed of by AGREEMENT, shall be reviewed by LOCAL AGENCY'S Chief Financial Officer.
- B. Not later than thirty (30) calendar days after issuance of the final audit report, CONSULTANT may request a review by LOCAL AGENCY'S Chief Financial Officer of unresolved audit issues. The request for review will be submitted in writing.
- C. Neither the pendency of a dispute nor its consideration by LOCAL AGENCY will excuse CONSULTANT from full and timely performance, in accordance with the terms of this AGREEMENT.
- D. CONSULTANT and subconsultant AGREEMENTs, including cost proposals and Indirect Cost Rates (ICR), may be subject to audits or reviews such as, but not limited to, an AGREEMENT audit, an incurred cost audit, an ICR Audit, or a CPA ICR audit work paper review. If selected for audit or review, the AGREEMENT, cost proposal and ICR and related work papers, if applicable, will be reviewed to verify compliance with 48 CFR 31 and other related laws and regulations. In the instances of a CPA ICR audit work paper review it is CONSULTANT's responsibility to ensure federal, LOCAL AGENCY, or local government officials are allowed full access to the CPA's work papers including making copies as necessary. The AGREEMENT, cost proposal, and ICR shall be adjusted by CONSULTANT and approved by LOCAL AGENCY Contract Administrator to conform to the audit or review recommendations. CONSULTANT agrees that individual terms of costs identified in the audit report shall be incorporated into the AGREEMENT by this reference if directed by LOCAL AGENCY at its sole discretion. Refusal by CONSULTANT to incorporate audit or review recommendations, or to ensure that the federal, LOCAL AGENCY or local governments have access to CPA work papers, will be considered a breach of AGREEMENT terms and cause for termination of the AGREEMENT and disallowance of prior reimbursed costs.
- E. CONSULTANT's Cost Proposal may be subject to a CPA ICR Audit Work Paper Review and/or audit by the Independent Office of Audits and Investigations (IOAI). IOAI, at its sole discretion, may review and/or audit and approve the CPA ICR documentation. The Cost Proposal shall be adjusted by the CONSULTANT and approved by the LOCAL AGENCY Contract Administrator to conform to the Work Paper Review recommendations included in the management letter or audit recommendations included in the audit report. Refusal by the CONSULTANT to incorporate the Work Paper Review recommendations included in the management letter or audit recommendations included in the audit report will be considered a breach of the AGREEMENT terms and cause for termination of the AGREEMENT and disallowance of prior reimbursed costs.
1. During IOAI's review of the ICR audit work papers created by the CONSULTANT's independent CPA, IOAI will work with the CPA and/or CONSULTANT toward a resolution of issues that arise during the review. Each party agrees to use its best efforts to resolve any audit disputes in a timely manner. If IOAI identifies significant issues during the review and is unable to issue a cognizant approval letter, LOCAL AGENCY will reimburse the CONSULTANT at an accepted ICR until a FAR (Federal Acquisition Regulation) compliant ICR (e.g. 48 CFR Part 31; GAGAS (Generally Accepted Auditing Standards); CAS (Cost Accounting Standards), if applicable; in accordance with procedures and guidelines of the American Association of State Highways and Transportation Officials (AASHTO) Audit Guide; and other applicable procedures and guidelines) is received and approved by IOAI.

Accepted rates will be as follows:

- a. If the proposed rate is less than one hundred fifty percent (150%) - the accepted rate reimbursed will be ninety percent (90%) of the proposed rate.
 - b. If the proposed rate is between one hundred fifty percent (150%) and two hundred percent (200%) - the accepted rate will be eighty-five percent (85%) of the proposed rate.
 - c. If the proposed rate is greater than two hundred percent (200%) - the accepted rate will be seventy-five percent (75%) of the proposed rate.
2. If IOAI is unable to issue a cognizant letter per paragraph E.1. above, IOAI may require CONSULTANT to submit a revised independent CPA-audited ICR and audit report within three (3) months of the effective date of the management letter. IOAI will then have up to six (6) months to review the CONSULTANT's and/or the independent CPA's revisions.
 3. If the CONSULTANT fails to comply with the provisions of this paragraph E, or if IOAI is still unable to issue a cognizant approval letter after the revised independent CPA audited ICR is submitted, overhead cost reimbursement will be limited to the accepted ICR that was established upon initial rejection of the ICR and set forth in paragraph E.1. above for all rendered services. In this event, this accepted ICR will become the actual and final ICR for reimbursement purposes under this AGREEMENT.
 4. CONSULTANT may submit to LOCAL AGENCY final invoice only when all of the following items have occurred: (1) IOAI accepts or adjusts the original or revised independent CPA audited ICR; (2) all work under this AGREEMENT has been completed to the satisfaction of LOCAL AGENCY; and, (3) IOAI has issued its final ICR review letter. The CONSULTANT MUST SUBMIT ITS FINAL INVOICE TO LOCAL AGENCY no later than sixty (60) calendar days after occurrence of the last of these items. The accepted ICR will apply to this AGREEMENT and all other agreements executed between LOCAL AGENCY and the CONSULTANT, either as a prime or subconsultant, with the same fiscal period ICR.

ARTICLE X SUBCONTRACTING

- A. Nothing contained in this AGREEMENT or otherwise, shall create any contractual relation between the LOCAL AGENCY and any Subconsultants, and no subagreement shall relieve the CONSULTANT of its responsibilities and obligations hereunder. The CONSULTANT agrees to be as fully responsible to the LOCAL AGENCY for the acts and omissions of its Subconsultants and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by the CONSULTANT. The CONSULTANT's obligation to pay its Subconsultants is an independent obligation from the LOCAL AGENCY's obligation to make payments to the CONSULTANT.
- B. The CONSULTANT shall perform the work contemplated with resources available within its own organization and no portion of the work shall be subcontracted without written authorization by the LOCAL AGENCY Contract Administrator, except that which is expressly identified in the CONSULTANT's approved Cost Proposal.
- C. Any subagreement entered into as a result of this AGREEMENT, shall contain all the provisions stipulated in this entire AGREEMENT to be applicable to Subconsultants unless otherwise noted.

EXHIBIT G

- D. CONSULTANT shall pay its Subconsultants within Fifteen (15) calendar days from receipt of each payment made to the CONSULTANT by the LOCAL AGENCY.
- E. Any substitution of Subconsultants must be approved in writing by the LOCAL AGENCY Contract Administrator in advance of assigning work to a substitute Subconsultant.
- F. Prompt Progress Payment

CONSULTANT or subconsultant shall pay to any subconsultant, not later than fifteen (15) days after receipt of each progress payment, unless otherwise agreed to in writing, the respective amounts allowed CONSULTANT on account of the work performed by the subconsultants, to the extent of each subconsultant's interest therein. In the event that there is a good faith dispute over all or any portion of the amount due on a progress payment from CONSULTANT or subconsultant to a subconsultant, CONSULTANT or subconsultant may withhold no more than 150 percent of the disputed amount. Any violation of this requirement shall constitute a cause for disciplinary action and shall subject the licensee to a penalty, payable to the subconsultant, of 2 percent of the amount due per month for every month that payment is not made.

In any action for the collection of funds wrongfully withheld, the prevailing party shall be entitled to his or her attorney's fees and costs. The sanctions authorized under this requirement shall be separate from, and in addition to, all other remedies, either civil, administrative, or criminal. This clause applies to both DBE and non-DBE subconsultants.

- G. Prompt Payment of Withheld Funds to Subconsultants

The LOCAL AGENCY may hold retainage from CONSULTANT and shall make prompt and regular incremental acceptances of portions, as determined by the LOCAL AGENCY, of the contract work, and pay retainage to CONSULTANT based on these acceptances. The LOCAL AGENCY shall designate one of the methods below in the contract to ensure prompt and full payment of any retainage kept by CONSULTANT or subconsultant to a subconsultant.

The LOCAL AGENCY shall hold retainage from CONSULTANT and shall make prompt and regular incremental acceptances of portions, as determined by the LOCAL AGENCY of the contract work and pay retainage to CONSULTANT based on these acceptances. CONSULTANT or subconsultant shall return all monies withheld in retention from all subconsultants within 15 days after receiving payment for work satisfactorily completed and accepted including incremental acceptances of portions of the contract work by the LOCAL AGENCY. Any delay or postponement of payment may take place only for good cause and with the LOCAL AGENCY's prior written approval. Any violation of these provisions shall subject the violating CONSULTANT or subconsultant to the penalties, sanctions, and other remedies specified in Section 3321 of the California Civil Code. This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies otherwise available to CONSULTANT or subconsultant in the event of a dispute involving late payment or nonpayment by CONSULTANT; deficient subconsultant performance and/or noncompliance by a subconsultant. This clause applies to both DBE and non-DBE subconsultants.

Any violation of these provisions shall subject the violating CONSULTANT or subconsultant to the penalties, sanctions and other remedies specified therein. These requirements shall not be construed to limit or impair any contractual, administrative, or judicial remedies otherwise available to CONSULTANT or subconsultant in the event of a dispute involving late payment or nonpayment by CONSULTANT, deficient subcontract performance, or noncompliance by a subconsultant.

ARTICLE XI EQUIPMENT PURCHASE AND OTHER CAPITAL EXPENDITURES

- A. Prior authorization in writing by LOCAL AGENCY's Contract Administrator shall be required before CONSULTANT enters into any unbudgeted purchase order, or subcontract exceeding five thousand dollars (\$5,000) for supplies, equipment, or CONSULTANT services. CONSULTANT shall provide an evaluation of the necessity or desirability of incurring such costs.
- B. For purchase of any item, service, or consulting work not covered in CONSULTANT's approved Cost Proposal and exceeding five thousand dollars (\$5,000), with prior authorization by LOCAL AGENCY's Contract Administrator, three competitive quotations must be submitted with the request, or the absence of proposal must be adequately justified.
- C. Any equipment purchased with funds provided under the terms of this AGREEMENT is subject to the following:
1. CONSULTANT shall maintain an inventory of all nonexpendable property. Nonexpendable property is defined as having a useful life of at least two years and an acquisition cost of five thousand dollars (\$5,000) or more. If the purchased equipment needs replacement and is sold or traded in, LOCAL AGENCY shall receive a proper refund or credit at the conclusion of the AGREEMENT, or if the AGREEMENT is terminated, CONSULTANT may either keep the equipment and credit LOCAL AGENCY in an amount equal to its fair market value, or sell such equipment at the best price obtainable at a public or private sale, in accordance with established LOCAL AGENCY procedures; and credit LOCAL AGENCY in an amount equal to the sales price. If CONSULTANT elects to keep the equipment, fair market value shall be determined at CONSULTANT's expense, on the basis of a competent independent appraisal of such equipment. Appraisals shall be obtained from an appraiser mutually agreeable to by LOCAL AGENCY and CONSULTANT, if it is determined to sell the equipment, the terms and conditions of such sale must be approved in advance by LOCAL AGENCY.
 2. Regulation 2 CFR 200 requires a credit to Federal funds when participating equipment with a fair market value greater than five thousand dollars (\$5,000) is credited to the project.

ARTICLE XII STATE PREVAILING WAGE RATES

Each payroll record shall contain or be verified by a written declaration that it is made under penalty of perjury, stating both of the following:
 - a. The information contained in the payroll record is true and correct.
 - b. The employer has complied with the requirements of Labor Code §1771, §1811, and §1815 for any work performed by his or her employees on the public works project.
 3. The payroll records enumerated under paragraph (1) above shall be certified as correct by the CONSULTANT under penalty of perjury. The payroll records and all supporting documents shall be made available for inspection and copying by LOCAL AGENCY representatives at all reasonable hours at the principal office of the CONSULTANT.  4. Each CONSULTANT shall submit a certified copy of the records enumerated in paragraph (1) above, to the entity that requested the records within ten (10) calendar days after receipt of a written request.
 5. Any copy of records made available for inspection as copies and furnished upon request to the public or any public agency by LOCAL AGENCY shall be marked or obliterated in such a manner as to prevent disclosure of each individual's name, address, and social security number. The name and address of the CONSULTANT or Subconsultant performing the work shall not be marked or obliterated.

EXHIBIT G

6. The CONSULTANT shall inform LOCAL AGENCY of the location of the records enumerated under paragraph (1) above, including the street address, city and county, and shall, within five (5) working days, provide a notice of a change of location and address.
 7. The CONSULTANT or Subconsultant shall have ten (10) calendar days in which to comply subsequent to receipt of written notice requesting the records enumerated in paragraph (1) above. In the event the CONSULTANT or Subconsultant fails to comply within the ten (10) day period, he or she shall, as a penalty to LOCAL AGENCY, forfeit one hundred dollars (\$100) for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated. Such penalties shall be withheld by LOCAL AGENCY from payments then due. CONSULTANT is not subject to a penalty assessment pursuant to this section due to the failure of a Subconsultant to comply with this section.
- E. When prevailing wage rates apply, the CONSULTANT is responsible for verifying compliance with certified payroll requirements. Invoice payment will not be made until the invoice is approved by the LOCAL AGENCY Contract Administrator.
- F. Penalty
1. The CONSULTANT and any of its Subconsultants shall comply with Labor Code §1774 and §1775. Pursuant to Labor Code §1775, the CONSULTANT and any Subconsultant shall forfeit to the LOCAL AGENCY a penalty of not more than two hundred dollars (\$200) for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the Director of DIR for the work or craft in which the worker is employed for any public work done under the AGREEMENT by the CONSULTANT or by its Subconsultant in violation of the requirements of the Labor Code and in particular, Labor Code §§1770 to 1780, inclusive.
 2. The amount of this forfeiture shall be determined by the Labor Commissioner and shall be based on consideration of mistake, inadvertence, or neglect of the CONSULTANT or Subconsultant in failing to pay the correct rate of prevailing wages, or the previous record of the CONSULTANT or Subconsultant in meeting their respective prevailing wage obligations, or the willful failure by the CONSULTANT or Subconsultant to pay the correct rates of prevailing wages. A mistake, inadvertence, or neglect in failing to pay the correct rates of prevailing wages is not excusable if the CONSULTANT or Subconsultant had knowledge of the obligations under the Labor Code. The CONSULTANT is responsible for paying the appropriate rate, including any escalations that take place during the term of the AGREEMENT.
 3. In addition to the penalty and pursuant to Labor Code §1775, the difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the CONSULTANT or Subconsultant.
 4. If a worker employed by a Subconsultant on a public works project is not paid the general prevailing per diem wages by the Subconsultant, the CONSULTANT of the project is not liable for the penalties described above unless the CONSULTANT had knowledge of that failure of the Subconsultant to pay the specified prevailing rate of wages to those workers or unless the CONSULTANT fails to comply with all of the following requirements:
 - a. The AGREEMENT executed between the CONSULTANT and the Subconsultant for the performance of work on public works projects shall include a copy of the requirements in Labor Code §§ 1771, 1775, 1776, 1777.5, 1813, and 1815.

EXHIBIT G

- b. The CONSULTANT shall monitor the payment of the specified general prevailing rate of per diem wages by the Subconsultant to the employees by periodic review of the certified payroll records of the Subconsultant.
 - c. Upon becoming aware of the Subconsultant's failure to pay the specified prevailing rate of wages to the Subconsultant's workers, the CONSULTANT shall diligently take corrective action to halt or rectify the failure, including but not limited to, retaining sufficient funds due the Subconsultant for work performed on the public works project.
 - d.
