**Project Summary** | The Airport Way Traffic Signal and Corridor Synchronization Project will deliver safety, operational, and multimodal mobility improvements along a critical north-south arterial through the installation of a new traffic signal at Airport Way and 6th Street and the coordination of nine signalized intersections between Dr. Martin Luther King Jr. Blvd and Arch Airport Road. The project includes detailed traffic signal design, updated timing plans, and corridor-wide operational modeling to reduce delays, minimize stops, and improve performance under peak-hour conditions. Work will also encompass comprehensive background research, topographic and utility review, and full PS&E development in accordance with City of Stockton standards and Caltrans Local Assistance requirements. Supported by CMAQ and Carbon Reduction Program Local funding, the project requires strict adherence to CEQA and NEPA compliance, coordination with utility agencies, and integration of stakeholder priorities to ensure a buildable, federally compliant design that enhances long-term corridor operations.

### **Task 1 | Background Research**

The Project Team will research and review existing topographic mapping, photos, right of way maps, “as-built” plans, record maps, surveys, assessor maps, local street improvement plans, collision reports, sight distance, approach speed, total pedestrians and vehicle volumes, public transit routes, grade, and other geometrical and operational characteristics for the project.

We will conduct a topographic survey of the Sixth Street intersection including improvements 100 feet in all direction. Said survey will be prepared in CAD and utilized as a base for the improvement plans. The remaining signals and intersections will not be surveyed given they are timing and synchronization improvements only. Monumentation of the existing ROW will be collected so that the ROW can be plotted on the improvement plans.

We will perform one (1) day of non-destructive utility locating using GPR during early design at the proposed signal pole locations to verify no conflicts with the foundations.

The Project Team will acquire signal as-built, and signal timing information for the project corridor from the City to understand existing signal timing and patterns and review the existing signal operations throughout the corridor. The team will provide traffic data for AM & PM Peak hours to develop the signal timing.

The Project Team will conduct field reconnaissance of the project limits. We will work with pertinent utilities to identify conflicts, coordinate utility plan reviews, conduct necessary coordination meetings, and locate designed improvements as required to facilitate any utility relocations. We will coordinate with the City to route this information to utility companies. We will show existing utilities that will be impacted or cause impact by the proposed project. We will arrange and coordinate with utility companies, within the project sphere, to resolve any utility issues.

The Project Team will identify required permits, prepare all permit applications, and assist the City with negotiations relative to permit conditions, if required. Permit fees will be paid by the City.

## Task 2 | Environmental Services

The project is funded with federal funds, and therefore California Environmental Quality Act (CEQA) and National Environmental Policy Act (NEPA) compliance is required through Caltrans District 10 Office of Local Assistance. The Project Team will be responsible for coordinating with Caltrans and Stakeholders as needed, including completion of the Preliminary Environmental Study (PES). We will prepare any studies that Caltrans requires in the approved PES.

**Preliminary Environmental Assessment Form:** The Project Team will prepare a Preliminary Environmental Study (PES) form in accordance with the requirements of the Local Assistance Procedures Manual (LAPM), Chapter 6. Once the Project Team and City have approved the Draft PES, the Draft PES will be submitted to the Caltrans District 10 Local Assistance team. If a Field Review is required, a project manager would attend the [virtual] Field Review Meeting with Caltrans to support environmental elements of that meeting. Following the Field Review Meeting, we will prepare any needed revisions to the Draft PES and submit it to Caltrans for final approval.

**Air Quality Conformity:** The Project Team will complete Interagency Consultation (IAC) for PM10/PM2.5. This will consist of preparation of a San Joaquin Valley Hot Spot Checklist for Interagency Consultation and project presentation materials for submittal to the San Joaquin Valley Project-Level Conformity Working Group. We will submit the required materials to the Working Group for public circulation and attend the Working Group meeting to present the project.

Following completion of the IAC process, the Project Team will prepare a Caltrans-format Air Quality Conformity Findings Checklist to document the project's conformity with federal air quality requirements, including the conclusions of the IAC process.

**Phase I Initial Site Assessment:** The Project Team will prepare a Phase I Initial Site Assessment (Phase I ISA) in general accordance with the Caltrans SER Chapter 10 requirements and the American Society for Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (ASTM E1527-21), and the U.S. Environmental Protection Agency (EPA) Final Rule regarding Standards and Practices for All Appropriate Inquiries (70 Federal Register [FR] 66070, July 1, 2005; 40 Code of Federal Regulations [CFR] Part 312) (AAI Rule). To support completion of the Phase I ISA, we will review regulatory agency and other records to help identify site conditions, conduct a physical setting review, review historic land use, conduct a site reconnaissance and vicinity survey, and conduct interviews of past and present owners or occupants of the subject property, if possible.

Following these investigations, the Project Team will prepare a Phase ISA Report to document the results of the investigations and recommendations. The report will include findings, opinions, conclusions, and significant data gaps, if any, that could affect the identification of Recognized Environmental Conditions at the subject property. If the ISA identifies any such gaps in the records, they will be disclosed and

discussed, including by identifying sources consulted to address them and comment upon their significance with regard to the ability to identify conditions indicative of releases and threatened releases of hazardous substances on, at, in, or to the subject property. The Phase I ISA will include illustrations and pertinent regulatory agency documentation regarding the subject property.

**Community Impacts Assessment Memo:** The Project Team will prepare a Community Impact Assessment Memo to describe potential project effects to community resources, including from temporary traffic detours, utility relocations, right-of-way acquisitions and reductions in parking, if any. Recommendations for avoidance and minimization measures will be included, as needed, to minimize potential effects.

**CEQA Categorical Exemption:** The Project Team will review the project for application of a CEQA Categorical Exemption (CE) and prepare a CE Support Memo for the project file that describes why a CE is the appropriate level of documentation for the project and documents the investigations completed during the review. We will rely on the information prepared to support the PES Form, specifically as it pertains to hazardous materials, cultural resources, and biological resources, to inform the CE Support Memo.

Upon completion of the CE Support Memo, The Project Team will prepare a Notice of Exemption (NOE) in the City's preferred format and provide it to the City for their signature and posting at the County Clerk-Recorder's office and State Clearinghouse.

**Deliverables:**

*Preliminary Environmental Study Form*

### **Task 3 | Utility Coordination**

The Project Team will be responsible for performing utility investigations and coordination with utility owners throughout the project development process. We will be present at all necessary meetings with each utility owner. We will be responsible for, but not limited to, the following:

*Prepare a project limits map and request utility information from each utility owner within the area of work.*

*Prepare Utility Letter "A" during preliminary design phase to the affected utility owners for City to review and approve prior to transmitting to utility owners. Information on existing utilities obtained as a result of the "A" letter will be transferred to base maps in both plan and profile view. A copy of the utility data obtained from utility owners will be provided to the City and the originals will be filed in the project files.*

*Prepare Utility Letter "B" during 65% design phase to the affected utility owners for City to review and approve prior to transmitting to utility owners. Two sets of half-sized 65% plans will be provided to each utility owner as an attachment to the letter. The letter will request that utility owners verify any utility conflicts with proposed improvements and indicate whether any future utilities are proposed in the area that may require accommodation through the improved area. Information on existing utilities obtained as a result of the "B" letter will be used to determine potential utility conflicts and to resolve the conflicts identified. A copy of the utility data obtained from utility owners will be provided to the City and the originals will be filed in the project files.*

*Prepare Utility Letter “C” during 100% design phase to the affected utility owners for City to review and approve prior to transmitting to utility owners. Two sets of half-sized 100% plans will be provided to each utility owner as an attachment to the letter. The letter will indicate to the utility owners whether any changes have been made to the project plans since the Utility Letter “B” and will request written confirmation of utility relocations and utility relocation schedule. A copy of the utility data obtained from utility owners will be provided to the City and the originals will be filed in the project files.*

*The Project Team will meet with utility companies as needed to determine that conflicts are identified and relocations performed if necessary.*

*The Project Team will use data provided by utility companies and perform field work such as: **potholing and** ground penetrating radar, per Task 1. This field work will be performed as soon as possible so that conflicts can be identified, and utility companies can be notified of any necessary relocating.*

#### **Task 4 | Plans, Specifications, and Estimate**

The Project Team will prepare PS&E documents, which include design improvement plans, traffic control plans, electrical plans, drainage plans, technical specifications, and engineer’s estimates. The PS&E’s will be prepared according to the City’s standards and current CA MUTCD, as appropriate. We will use modeling software to determine acceptable Level of Service (LOS) and geometric layout and submit recommendations to City for concurrence. Prepare a base map showing existing information to facilitate the design of all the necessary improvements. The base map limits will be sufficient to cover all necessary improvements within the project area.

Traffic Signal Design Process – Intermediate Reviews: Improvement plans for traffic signal addition and connectivity, striping, roadway, drainage, electrical, erosion control and or water pollution prevention and miscellaneous plans will be submitted for review to the City at **30%**, 65%, 90% and 100% completion stage. The Project Team will provide one electronic (PDF format) and ten (10) hard copy sets of PS&E (1 - 24” x 36” plan sets, and 9 half-scale plan sets on 11” x 17”) at each design stage to the City for review and comments. With each stage, the review comments from the previous stage will be itemized and a written response to each will be prepared in a comment matrix. The original red-line comments from the reviewing agency will be returned with the succeeding submittal.

The Project Team will provide a project specification outline and project estimates at the 65% submittal and complete project estimate and specification at 100% submittal. A 100% check print must be submitted for review by staff prior to a 100% set of plans being plotted on mylars.

**Existing and Recommended Signal Timing Analysis:** Under this task, the Project Team will evaluate existing signal timings during the a.m. and, p.m. peak periods for the existing signalized study intersections. We will review the traffic data collected to ensure accuracy and develop baseline Synchro Models for existing conditions. The existing conditions model will be validated and calibrated to reflect traffic patterns observed in the field with reasonable accuracy.

The Project Team will also review the minimum signal timing parameters such as minimum green for bicycles, walk and flash don't walk (FDW), yellow and all-red intervals at all study intersections in compliance with City of Stockton Standards and the California Manual on Uniform Traffic Control Devices, 2014 Edition (CA MUTCD 2014).

City provided existing conditions Synchro models will be used to estimate the measures of effectiveness for the signalized intersections and arterial. The following MOE will be estimated and reported:

***Average Delay; Average Speed; Travel Time; Emissions; Queue***

Based on the existing conditions evaluation optimized signal timing plans will be developed. The Project Team will update the existing conditions Synchro models with the recommended minimum timing parameters for City Staff. We will evaluate suitable options including but not limited to time-base coordination plans, changes to signal timing parameters, etc. to help reduce queuing along Airport Way.

SimTraffic model calibrated for existing conditions will be used for analysis and development of recommended timings. This will help to evaluate the benefits of the recommended timings. Upon development of recommended timing plans, The Project Team will prepare a technical memorandum summarizing the work completed under this task.

***Implementation, Fine-Tuning and Evaluation:*** Upon approval from City Staff, the Project Team will help implement the recommended timing plans at the study intersections during the study peak periods. Fine-tuning of the optimized signal timing and offsets will be conducted in the field while monitoring the operations. Adjustment made in the field during fine-tuning will be documented and included in the final report. Timing sheets will be updated based on adjustments made during fine-tuning of the optimized timing plans.

Following the signal timing plan implementation, and fine-tuning, the Project Team will collect a minimum of four GPS travel time surveys during the same periods as existing conditions along the study corridors. We will document and develop a comparison report of the "Before" and "After" results and summarize improvements, time-savings, estimated fuel savings, delay savings, and others deemed appropriate.

Based on the final optimized timing plans implemented in the field, the Project Team will generate and compare the same MOE's that were generated in earlier task for existing conditions to determine the level of improvement provided by the new timing plans.

The electrical design plans will be developed to scale in AutoCAD following the latest City of Stockton, CA-MUTCD and Caltrans Standards and Specifications. The Project Team will coordinate for new service at the intersection to energize the signal.

**PS&E (65% Complete):** At a minimum the design will be developed to adequately identify locations of utilities, right of-way, geometric features, and other design elements. Project estimates and specifications will be included at this stage.

The Project Team will receive one set of comments on the 30% Design and will incorporate all comments and provide any comment clarification items via email. At this point the plans will be detailed further by having the equipment and wiring schedules filled out, non-standard details added to plans. The traffic signals plans will provide more information on conduit routing/cabling along with any detail sheets required added to plans. We will develop an Engineers estimate for the design. We will acquire master specification file from the City and incorporate the electrical, signage and striping items into the file. The Project Team will provide either redline or response to comment matrix with all comments addressed.

***Deliverables:***

*65% PS&E*

*Response to Comments*

**PS&E (90% Complete):** The review comments from the 65% submittal will be itemized and a written response to the comments will be prepared in a comment matrix. The original red-line mark-up from the City will be returned with the succeeding submittal.

The Project Team will receive one set of comments on the 65% submittal and will incorporate all comments and provide any comment clarification items via email. The plans, estimates, and specifications will be updated, and all non-standard details will be ironed out and greater level of detail will be added to plan for close to construction ready set. We will provide either redline or response to comment matrix with all comments addressed.

***Deliverables***

*90% PS&E*

**Final PS&E (100% COMPLETE):** Complete design revisions from PS&E 90% design. Detailed project estimates and specifications will be included at this stage. This is the final design, including final construction staging and work zone traffic control, and utility coordination. The Project Team will coordinate with PG&E for power service as needed. We will provide the necessary final PS&E documents in a bid-ready form. Project files and the Project Engineer's/Resident Engineer's file will also be submitted with the Final PS&E.

**Quality Control:** The PS&E will be subject to quality control reviews before submittal. These reviews will focus on conformance to City and Caltrans Standards, as well as minimize typographical omissions. **The Project Team will provide a signed Quality Control Checklist at the time of each deliverable submittal.**

## **Task 5 | Public Outreach**

The Project Team will research and develop a coded database of potentially interested parties, which will be updated throughout the project with names from the outreach efforts; information from the project team; and from telephone, e-mail and personal contacts. The database will be coded according to interest and involvement with the project. Among the groups on the stakeholders list will be the following:

*District 6 Council member and other elected and appointed officials*

*Residents and property owners adjacent to the proposed project area*

*Businesses and other establishments adjacent to the project area*

*Emergency responders*

*School District*

*Public Transit*

*Utility Companies*

*Pertinent City staff*

There will be no in person meetings with the public but there will be a digital outreach campaign with a mailer that will be designed primarily to provide information on the project features, goals, and construction impacts. The mailer will be sent after the 65% plans and environmental documents have been prepared.

## **Task 6 | Coordination/Meetings**

The Project Team will attend a design kick-off meeting and other subsequent meetings with the City (in-person or virtual), as needed, to finalize the design. We will attend a preconstruction meeting, a post construction meeting, and meet and assist staff during construction as required.

The Project Team will prepare and provide a comprehensive schedule to reflect the timeframe for each stage/task of the proposed scope of work, utilizing Microsoft Project.

The project schedule will show a base line, tasks, duration, milestones, assignments, critical paths, and other relevant data. The project schedule will be maintained and updated monthly throughout the PS&E phase of the project.

## **Task 7 | Design Support During Construction**

As part of the proposal, The Project Team will include bid support services that consist of assisting the City in responding to all Requests for Information (RFI) during the project advertisement phase. We will also include services for design support during construction. These services include responding to all RFI(s), submittal reviews and approval, altering project plans to address any changes needed,

attendance of the pre-construction meeting, consultation with the construction contractor, biological monitoring during construction, and preparation of record drawings.

The Project Team assumes that the City will perform the construction management in-house which includes resident engineer and inspection duties.

### **Task 8 | As-built Drawings**

We will prepare record drawings upon project completion. As-built record drawings will reflect change orders, accommodations, and adjustments to all improvements constructed. Prior to accepting the As-Built Plans, City staff will review the Record Drawings and electronic files to confirm that they reflect what has actually been constructed. Electronic files of the As-Built drawings (in standard PDF or TIF format at 300dpi resolutions settings) and CAD (DWG or DXF format) will be provided in addition to the original As-Built mylars.

### **Task 9 | Preserving and Perpetuating Survey Monuments**

The Project Team will identify, list, tie out/perform construction staking of survey monuments, and show existing survey monuments on construction plans. We will include language in the plans and specifications requiring the general contractors surveyor to file all pre-construction Corner Records or Records of Survey with San Joaquin County and submit a copy to the City. The Corner Records or record of Survey will show monuments within the area of construction reasonably subject to removal or disturbance not shown on a recent record document.

We will include language in the PS&E package to preserve all monumentation affected by the work being performed in accordance with Section 8771 of the Professional Land Surveyors Act in the Business and Professionals Code of the State of California. Siegfried will sign the **Acknowledgment** of Monument Preservation.

For the purpose of determining compliance with Gov. Code § 8546.7, the CONSULTANT, Subconsultants, and LOCAL AGENCY shall maintain all books, documents, papers, accounting records, Independent CPA Audited Indirect Cost Rate workpapers, and other evidence pertaining to the performance of the AGREEMENT including, but not limited to, the costs of administering the AGREEMENT. - A. Any dispute concerning a question of fact arising under an interim or post audit of this AGREEMENT that is not disposed of by AGREEMENT, shall be reviewed by LOCAL AGENCY'S Chief Financial Officer.
- B. Not later than thirty (30) calendar days after issuance of the final audit report, CONSULTANT may request a review by LOCAL AGENCY'S Chief Financial Officer of unresolved audit issues. The request for review will be submitted in writing.
- C. Neither the pendency of a dispute nor its consideration by LOCAL AGENCY will excuse CONSULTANT from full and timely performance, in accordance with the terms of this AGREEMENT.
- D. CONSULTANT and subconsultant AGREEMENTs, including cost proposals and Indirect Cost Rates (ICR), may be subject to audits or reviews such as, but not limited to, an AGREEMENT audit, an incurred cost audit, an ICR Audit, or a CPA ICR audit work paper review. If selected for audit or review, the AGREEMENT, cost proposal and ICR and related work papers, if applicable, will be reviewed to verify compliance with 48 CFR 31 and other related laws and regulations. In the instances of a CPA ICR audit work paper review it is CONSULTANT's responsibility to ensure federal, LOCAL AGENCY, or local government officials are allowed full access to the CPA's work papers including making copies as necessary. The AGREEMENT, cost proposal, and ICR shall be adjusted by CONSULTANT and approved by LOCAL AGENCY Contract Administrator to conform to the audit or review recommendations. CONSULTANT agrees that individual terms of costs identified in the audit report shall be incorporated into the AGREEMENT by this reference if directed by LOCAL AGENCY at its sole discretion. Refusal by CONSULTANT to incorporate audit or review recommendations, or to ensure that the federal, LOCAL AGENCY or local governments have access to CPA work papers, will be considered a breach of AGREEMENT terms and cause for termination of the AGREEMENT and disallowance of prior reimbursed costs.
- E. CONSULTANT's Cost Proposal may be subject to a CPA ICR Audit Work Paper Review and/or audit by the Independent Office of Audits and Investigations (IOAI). IOAI, at its sole discretion, may review and/or audit and approve the CPA ICR documentation. The Cost Proposal shall be adjusted by the CONSULTANT and approved by the LOCAL AGENCY Contract Administrator to conform to the Work Paper Review recommendations included in the management letter or audit recommendations included in the audit report. Refusal by the CONSULTANT to incorporate the Work Paper Review recommendations included in the management letter or audit recommendations included in the audit report will be considered a breach of the AGREEMENT terms and cause for termination of the AGREEMENT and disallowance of prior reimbursed costs.
1. During IOAI's review of the ICR audit work papers created by the CONSULTANT's independent CPA, IOAI will work with the CPA and/or CONSULTANT toward a resolution of issues that arise during the review. Each party agrees to use its best efforts to resolve any audit disputes in a timely manner. If IOAI identifies significant issues during the review and is unable to issue a cognizant approval letter, LOCAL AGENCY will reimburse the CONSULTANT at an accepted ICR until a FAR (Federal Acquisition Regulation) compliant ICR (e.g. 48 CFR Part 31; GAGAS (Generally Accepted Auditing Standards); CAS (Cost Accounting Standards), if applicable; in accordance with procedures and guidelines of the American Association of State Highways and Transportation Officials (AASHTO) Audit Guide; and other applicable procedures and guidelines) is received and approved by IOAI.

Accepted rates will be as follows:

- a. If the proposed rate is less than one hundred fifty percent (150%) - the accepted rate reimbursed will be ninety percent (90%) of the proposed rate.
  - b. If the proposed rate is between one hundred fifty percent (150%) and two hundred percent (200%) - the accepted rate will be eighty-five percent (85%) of the proposed rate.
  - c. If the proposed rate is greater than two hundred percent (200%) - the accepted rate will be seventy-five percent (75%) of the proposed rate.
2. If IOAI is unable to issue a cognizant letter per paragraph E.1. above, IOAI may require CONSULTANT to submit a revised independent CPA-audited ICR and audit report within three (3) months of the effective date of the management letter. IOAI will then have up to six (6) months to review the CONSULTANT's and/or the independent CPA's revisions.
  3. If the CONSULTANT fails to comply with the provisions of this paragraph E, or if IOAI is still unable to issue a cognizant approval letter after the revised independent CPA audited ICR is submitted, overhead cost reimbursement will be limited to the accepted ICR that was established upon initial rejection of the ICR and set forth in paragraph E.1. above for all rendered services. In this event, this accepted ICR will become the actual and final ICR for reimbursement purposes under this AGREEMENT.
  4. CONSULTANT may submit to LOCAL AGENCY final invoice only when all of the following items have occurred: (1) IOAI accepts or adjusts the original or revised independent CPA audited ICR; (2) all work under this AGREEMENT has been completed to the satisfaction of LOCAL AGENCY; and, (3) IOAI has issued its final ICR review letter. The CONSULTANT MUST SUBMIT ITS FINAL INVOICE TO LOCAL AGENCY no later than sixty (60) calendar days after occurrence of the last of these items. The accepted ICR will apply to this AGREEMENT and all other agreements executed between LOCAL AGENCY and the CONSULTANT, either as a prime or subconsultant, with the same fiscal period ICR.

## ARTICLE X SUBCONTRACTING

Nothing contained in this AGREEMENT or otherwise, shall create any contractual relation between the LOCAL AGENCY and any Subconsultants, and no subagreement shall relieve the CONSULTANT of its responsibilities and obligations hereunder. The CONSULTANT agrees to be as fully responsible to the LOCAL AGENCY for the acts and omissions of its Subconsultants and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by the CONSULTANT. The CONSULTANT's obligation to pay its Subconsultants is an independent obligation from the LOCAL AGENCY's obligation to make payments to the CONSULTANT.
- B. The CONSULTANT shall perform the work contemplated with resources available within its own organization and no portion of the work shall be subcontracted without written authorization by the LOCAL AGENCY Contract Administrator, except that which is expressly identified in the CONSULTANT's approved Cost Proposal.

F. Prompt Progress Payment

CONSULTANT or subconsultant shall pay to any subconsultant, not later than fifteen (15) days after receipt of each progress payment, unless otherwise agreed to in writing, the respective amounts allowed CONSULTANT on account of the work performed by the subconsultants, to the extent of each subconsultant's interest therein. In the event that there is a good faith dispute over all or any portion of the amount due on a progress payment from CONSULTANT or subconsultant to a subconsultant, CONSULTANT or subconsultant may withhold no more than 150 percent of the disputed amount. Any violation of this requirement shall constitute a cause for disciplinary action and shall subject the licensee to a penalty, payable to the subconsultant, of 2 percent of the amount due per month for every month that payment is not made.

In any action for the collection of funds wrongfully withheld, the prevailing party shall be entitled to his or her attorney's fees and costs. The sanctions authorized under this requirement shall be separate from, and in addition to, all other remedies, either civil, administrative, or criminal. This clause applies to both DBE and non-DBE subconsultants.

G. Prompt Payment of Withheld Funds to Subconsultants

The LOCAL AGENCY may hold retainage from CONSULTANT and shall make prompt and regular incremental acceptances of portions, as determined by the LOCAL AGENCY, of the contract work, and pay retainage to CONSULTANT based on these acceptances. The LOCAL AGENCY shall designate one of the methods below in the contract to ensure prompt and full payment of any retainage kept by CONSULTANT or subconsultant to a subconsultant.

The LOCAL AGENCY shall hold retainage from CONSULTANT and shall make prompt and regular incremental acceptances of portions, as determined by the LOCAL AGENCY of the contract work and pay retainage to CONSULTANT based on these acceptances. CONSULTANT or subconsultant shall return all monies withheld in retention from all subconsultants within 15 days after receiving payment for work satisfactorily completed and accepted including incremental acceptances of portions of the contract work by the LOCAL AGENCY. Any delay or postponement of payment may take place only for good cause and with the LOCAL AGENCY's prior written approval. Any violation of these provisions shall subject the violating CONSULTANT or subconsultant to the penalties, sanctions, and other remedies specified in Section 3321 of the California Civil Code. This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies otherwise available to CONSULTANT or subconsultant in the event of a dispute involving late payment or nonpayment by CONSULTANT; deficient subconsultant performance and/or noncompliance by a subconsultant. This clause applies to both DBE and non-DBE subconsultants.

Any violation of these provisions shall subject the violating CONSULTANT or subconsultant to the penalties, sanctions and other remedies specified therein. These requirements shall not be construed to limit or impair any contractual, administrative, or judicial remedies otherwise available to CONSULTANT or subconsultant in the event of a dispute involving late payment or nonpayment by CONSULTANT, deficient subcontract performance, or noncompliance by a subconsultant.

## ARTICLE XI EQUIPMENT PURCHASE AND OTHER CAPITAL EXPENDITURES

A. Prior authorization in writing by LOCAL AGENCY's Contract Administrator shall be required before CONSULTANT enters into any unbudgeted purchase order, or subcontract exceeding five thousand dollars (\$5,000) for supplies, equipment, or CONSULTANT services. CONSULTANT shall provide an evaluation of the necessity or desirability of incurring such costs.

- B. For purchase of any item, service, or consulting work not covered in CONSULTANT's approved Cost Proposal and exceeding five thousand dollars (\$5,000), with prior authorization by LOCAL AGENCY's Contract Administrator, three competitive quotations must be submitted with the request, or the absence of proposal must be adequately justified.

If CONSULTANT elects to keep the equipment, fair market value shall be determined at CONSULTANT's expense, on the basis of a competent independent appraisal of such equipment. Appraisals shall be obtained from an appraiser mutually agreeable to by LOCAL AGENCY and CONSULTANT, if it is determined to sell the equipment, the terms and conditions of such sale must be approved in advance by LOCAL AGENCY.

4. If a worker employed by a Subconsultant on a public works project is not paid the general prevailing per diem wages by the Subconsultant, the CONSULTANT of the project is not liable for the penalties described above unless the CONSULTANT had knowledge of that failure of the Subconsultant to pay the specified prevailing rate of wages to those workers or unless the CONSULTANT fails to comply with all of the following requirements:

  - d. Prior to making final payment to the Subconsultant for work performed on the public works project, the CONSULTANT shall obtain an affidavit signed under penalty of perjury from the Subconsultant that the Subconsultant had paid the specified general prevailing rate of per diem wages to the Subconsultant's employees on the public works project and any amounts due pursuant to Labor Code §1813.
5. Pursuant to Labor Code §1775, LOCAL AGENCY shall notify the CONSULTANT on a public works project within fifteen (15) calendar days of receipt of a complaint that a Subconsultant has failed to pay workers the general prevailing rate of per diem wages.
6. If LOCAL AGENCY determines that employees of a Subconsultant were not paid the general

prevailing rate of per diem wages and if LOCAL AGENCY did not retain sufficient money under the AGREEMENT to pay those employees the balance of wages owed under the general prevailing rate of per diem wages, the CONSULTANT shall withhold an amount of moneys due the Subconsultant sufficient to pay those employees the general prevailing rate of per diem wages if requested by LOCAL AGENCY.
