Interests & Experiences

Please tell us about yourself and why you want to serve.

My father started his business here in Stockton in 1954 doing Heating & Air Conditioning. I have lived here my entire life and love my City. I want to be a part of making things better for EVERYONE. I know my business well, Heating & Air Conditioning, as I have been working and designing in the field my entire life, beginning when I was a child with my Father. I have seen many companies come and go. We are here to stay, so I want to help serve my community.

Please state the reason you would like to be a member of this board/commission.

First, read the statement above, that is still part of the answer for this question. But I will add that I have worked around this field, construction, permits, codes, etc my entire life also. I understand, and see room for improvement and areas that are very good, just need help being enforced. I think the fluidity will only strengthen and help to continue build this community and City.

Interests & Experiences

Please tell us about yourself and why you want to serve.

I am a graduating senior at California State University Northridge majoring in Political Science and minoring in Urban Studies and Planning. I have held several on campus leadership roles during my time at Cal State Northridge. I would like to begin my career in public service within the City of Stockton since as it is my hometown. Specifically, while I was interning in Washington, D.C. at the U.S. Department of Housing and Urban Development, I was saddened that Stockton was not chosen as a Promise Zone because I knew it meant the city would not receive extra funding. Since then, I have been looking into ways I could positively affect the city. I also want to serve because I feel that Stockton has an enormous amount of potential and that my knowledge as a 10+ year resident would be an asset to the city as well as the community.

Please state the reason you would like to be a member of this board/commission.

I would like to be a member of these boards/committees/councils because I would like to help create positive changes and feel that my experience and knowledge will add good perspective. I would also like to be a member because I feel as though I have thorough knowledge of the cities outlook especially in regards to its general plan.
