

Resolution No.

STOCKTON CITY COUNCIL

RESOLUTION APPROVING FINDINGS AND A COOPERATIVE PURCHASE AGREEMENT WITH OJO TECHNOLOGY, INC. FOR THE MAINTENANCE OF THE SECURITY AND TRAFFIC VIDEO MONITORING SYSTEM, PROJECT NO. SEB-21-001

The City's Security and Traffic Video Monitoring System includes 377 cameras and peripheral equipment located throughout the City and is used by the Public Works and Police Departments to monitor traffic, safety, and security; and

The U.S. General Services Administration has established a Cooperative Purchasing Program which allows State and local agencies to purchase goods and services offered under specific Multiple Award Schedule ("MAS" or "Schedule") Contracts; and

California MAS (CMAS) contracts are cost effective because most of the procurement process has already been completed which saves staff time and resources; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. The City Council hereby approves the following findings in support of granting an exception to the competitive bid process pursuant to Stockton Municipal Code section 3.68.070:
 - a. The project involves a very specialized field, and its success requires an experienced professional who has successfully implemented and performed such projects. Furthermore, the City does not have the specialized personnel or equipment to perform the work required for this project.
 - b. Use of a cost competitive basis for the selection of professional consultant services for this project is not in the best interest of the City because it tends to result in lower quality and thoroughness of the services provided.
 - c. Taking advantage of the leveraged cooperative purchasing agreement through the California Department of General Services, State of California, Multiple Award Schedule will save the administrative expense of City staff conducting a separate procurement.

- d. Ojo Technology, Inc. has provided exemplary services to date. Ojo Technology, Inc. has developed an understanding of the City's operations of the cameras, which provides an additional benefit in having them continue as the contractor for this project.

2. The City Council hereby approves the use of a Cooperative Purchase Agreement through the California Department of General Services, State of California, Multiple Award Schedule for the maintenance of the Security and Traffic Video Monitoring System, Project No. SEB-21-001.

3. The City Council hereby authorizes the City Manager to execute a three-year contract, including an option for two one-year extensions, with Ojo Technology, Inc., in the amount of \$629,526.87 (\$209,842.29 per fiscal year), for the Security and Traffic Video Monitoring System, a copy of which is attached as Exhibit 1 and incorporated by this reference.

4. The City Manager is hereby authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

PASSED, APPROVED, and ADOPTED October 6, 2020.

MICHAEL D. TUBBS
Mayor of the City of Stockton

ATTEST:

ELIZA R. GARZA, CMC
City Clerk of the City of Stockton
