Company History

Since 1905, Demco has served the library and education markets. The key to our longevity is our focus on anticipating the changing needs of schools and libraries and creating and supplying innovative solutions to meet those needs.

1905	The Democrat Printing Company in Madison, Wisconsin, creates a Library Department to serve libraries and promote their mission.
1907	Harry Netherwood and Frank Matthews, coworkers in the Library Department, invent the Book Pocket to hold Date Due Slips. Result: While materials and printing have changed, this enduring design has lasted for over a century.
1925	The company is renamed Demco Library Supplies. Norman Bassett, who will eventually purchase the company in 1931, joins the library department and sets a precedent for working with librarians to understand their needs. Results: The development of how-to books and guides, mending materials, cleaners, and standardized catalog cards.
1944	Demco Library Supplies commissions and publishes the Pictorial Library Primer by Winifred Lemon Davis. Result: A how-to manual to aid untrained librarians.
1951– 1955	Demco Library Supplies develops and introduces Paperfold™ and Durafold™ Book Jacket Covers; Norbond™ Glue; and Fastape to meet librarians' book protection and repair needs. Result: These solutions continue to be staples for extending the life of library collections today.
1965	The Value Center, a production and warehouse facility, arises on 20 acres in DeForest, Wisconsin. With four more additions, this facility now totals 164,000 square feet.
1968	John Wall becomes president of the newly renamed Demco Educational Corp.
1978	John Wall shortens the company name to Demco and becomes its new owner, making it a subsidiary of Wall Family Enterprises.
1988	Demco relocates to a new 42,000 square foot building in Madison.
1997	Demco launches demco.com . Results: A easy-to-use website that now serves thousands every day and features our complete line of products.
2003	Demco acquires Gaylord and adds interior design services. Results: Demco continues to offer popular Gaylord products today. K–12 schools, public and higher education libraries, and architects can now take advantage of a range of interior services found at demcointeriors.com .
2010	Demco acquires Highsmith. Results: Upstart promotions add a collection of exclusive reading incentives to our offering, including bookmarks, decor, and more to help nurture a lifelong love of learning.

GREEN INITIATIVES

Environmental stewardship

Doing the right thing is ingrained in Demco's DNA. We recognize that business success goes hand-in-hand with ethical practices, eco-consciousness, and community citizenship. We believe that our business is dependent on meeting the needs of customers without endangering employees or compromising the natural environment. As a result, we aim to minimize our impact on communities, natural habitats, and resources.

Recycling

Demco has an aggressive recycling plan covering all corrugated products, paper, plastic, and metals within our office and manufacturing and distribution facilities. We donate computer components to organizations that rebuild and distribute them to individuals and agencies. Monitors are stripped down and properly disposed of following local regulations.

Energy efficiency

- Lighting in our manufacturing and distribution facility comes from energy-efficient T5 fluorescent bulbs. These bulbs provide better light, enhancing employee safety and productivity.
- Our office lighting comes from energy-saving T8 bulbs to reduce energy consumption. All conference rooms, restrooms, storage, and dock areas are outfitted with motion or audio sensors so that bulbs only illuminate these areas when people are present.
- Programmable thermostats allow better control of heating and cooling energy use. For example, in the winter, we lower our buildings' operating temperature after business hours and on weekends when no one occupies the premises. We do the reverse in summer. We maintain computer servers in a temperature-controlled environment regardless of the season.
- All windows in our manufacturing and distribution facilities are double-paned and energy-efficient.

Printing

- Our conventional, offset, and flexo printing processes use environmentally friendly plant-based inks and plating processes.
- We have taken on an aggressive paper reduction initiative, including eliminating hard copy forms and depending more on the electronic distribution of common reports and other business data. These efforts have resulted in significant reductions in paper consumption.

ANTI-DISCRIMINATION POLICY

We are committed to providing equal employment opportunity for all persons regardless of race, color, sex, religion, sexual orientation, age, marital status, national origin, citizenship status, disability, or veteran status. Equal Opportunity/Affirmative Action extends to all aspects of the employment relationship, including hiring, transfers, promotions, training, terminations, working conditions, compensation, benefits, and other terms and conditions of employment. Taking Classroom Organization from Sketch to Storage Solution

It's an undeniable fact that teachers need storage, and classrooms are rarely equipped with ample accessible shelving. This often results in a hodgepodge of hand-me-down bins, open shelving, and visual mess — not exactly a learning haven.

Recent research has also shown that reducing clutter encourages a healthier learning environment, allowing students to focus with less visual distraction. Even if you're lucky enough to have a large closet, you still want your materials accessible to students, and you want to minimize the time you spend putting away learning supplies between lessons. Your time is at a premium!

Physical clutter creates less square footage for learning. And then visual clutter creates less square footage in our brains for learning. So in both of these areas, it's important that our kids have as many square feet as possible.

- Dr. Bob Dillon, Author *The Space: A Guide for Educators*

So what's the solution when your classroom lacks adequate closet space? **Demco's Show & Stow System** is a low-profile, customizable storage solution that was born out of necessity in collaboration with industry experts, practicing teachers, and designers. The system features **open shelving** and **roll-out carts** that are conveniently hidden behind ceramic-coated steel panels that operate as both a **magnetic whiteboard** and an invisibility cloak for classroom supplies.

We spoke with Stephen Gower, Design Supervisor at Demco, to get a behind-the-scenes look at how this exciting solution evolved from a simple sketch to a standout classroom innovation.

What issue with current learning spaces did you aim to solve?

The main problem was really overly cluttered environments and classrooms. Storage is always an issue, and a lot of the time the storage is exposed. It's a mix of miscellaneous items, like mobile carts, shelving, filing cabinets — in some cases five or six different types

of storage and using the perimeter walls to basically create storage areas. This creates a very cluttered environment which can be a challenge for students, and all of us, in terms of focus. So, our goal was to declutter that learning environment and increase productivity.

Tell us about your collaboration process and the steps to creating a functional prototype.

There was a very basic sketch outlining a very high-level concept of what we thought would be a good solution, and then I was tasked with taking this and designing the early stages of a product concept on how this could be made in reality.

We created two concepts, one that was mobile and one that was fixed and would be attached to the wall. Those two ideas were shared out with a focus group and industry experts for feedback, and we arrived at moving forward with the wall-mounted option...

Why Your School Needs This SEL Solution

Four reasons this dedicated social-emotional learning tool is essential for your school's success

Robin is a new program focused on supporting mental health and social-emotional growth in school communities. Its live coaching and skill-building curriculum are customized to your needs, reflecting the specific ways your educators teach and your students learn. As one pillar of a well-rounded education, this kind of social-emotional learning program builds critical real-world skills, promotes holistic well-being, and prepares students and teachers for a more balanced life in school and beyond. But what makes Robin uniquely effective and easy to adopt?

1. It's CASEL aligned

The Collaborative for Academic, Social, and Emotional Learning (CASEL) is a non-profit that began more than 20 years ago. It's the gold standard in evidence-based SEL strategies and a leader in advocating for SEL as a part of every child's education.

The CASEL framework identifies five key competencies that can help educators define and articulate age-appropriate milestones for their students' development: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. Each of these can be applied in all four environments where students grow, from classrooms and schools to families and communities.

Robin's coaching, curriculum, gamification, and assessments align closely with the CASEL framework. As a result, its customized and human-centered approach helps to build authentic school-family-community partnerships, support equitable learning environments, and provide resources that make a meaningful impact on your community.

2. It's easy to fund

Robin programming is eligible for Titles I, II, IV and ESSER funding. This funding allows schools across the country to provide well-rounded support to their students and teachers.

The COVID-19 pandemic deeply impacted the mental health of entire school communities. Because ESSER funding is set aside to aid in COVID-related recovery and development, Robin can be an excellent way to use some of your available ESSER funds. It can help rebuild the connectedness that's critical to a healthy school ecosystem, and its flexible virtual and in-person options make it easy to implement in ever-changing settings.

Titles I, II, and IV provide over \$1 billion in funding for programs that support student health, technology improvements, teacher quality, at-risk youth, and students from low-income families.

- Pursuant to Federal Rule (A) above, when a Participating Agency expends federal funds, the Participating Agency and Offeror reserves all rights and privileges under the applicable laws and regulations with respect to this procurement in the event of breach of contract by either party.

(B) Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of \$10,000)

- Pursuant to Federal Rule (B) above, when a Participating Agency expends federal funds, the Participating Agency reserves the right to terminate any agreement in excess of \$10,000 resulting from this procurement process in the event of a breach or default of the agreement by Offeror as detailed in the terms of the contract

(C) Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 CFR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

- Pursuant to Federal Rule (D) above, when a Participating Agency expends federal funds during the term of an award for all contracts and subgrants for construction or repair, offeror will be in compliance with all applicable Davis-Bacon Act provisions
- Any Participating Agency will include any current and applicable prevailing wage determination in each issued solicitation and provide Offeror with any required documentation and/or forms that must be completed by Offeror to remain in compliance the applicable Davis-Bacon Act provisions.

Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

- Pursuant to Federal Rule (E) above, when a Participating Agency expends federal funds, offeror certifies that offeror will be in compliance with all applicable provisions of the Contract Work Hours and Safety Standards Act during the term of an award for all contracts by Participating Agency resulting from this procurement process.

US OPEN 5 THINGS WE LEARNED FROM SUNDAY

Fitzpatrick's work ethic pays off

David Dusek
Golfweek | USA TODAY Network

BROOKLINE, Mass. — On a chilly, overcast New England day, the lead at the 122nd U.S. Open went back and forth throughout the afternoon.

Matt Fitzpatrick, Will Zalatoris and Scottie Scheffler all reached 6 under during their rounds at The Country Club on Sunday, but only one of them, the Englishman who won the 2013 U.S. Amateur at this course, was able to finish there.

Fitzpatrick becomes the third golfer to win a U.S. Amateur and U.S. Open on the same course, joining Jack Nicklaus at Pebble Beach and Juli Inkster at Prairie Dunes.

Here are five things we learned on Sunday at The Country Club.

Fitzpatrick did it the hard way

Last year, Jon Rahm, one of the most powerful players in golf, won the U.S. Open at Torrey Pines. The year before that, it was Bryson DeChambeau, one of the biggest hitters on the PGA Tour (or LIV Series starting in a few weeks). The year before that, Gary Woodland, another power player, won the U.S. Open at Pebble Beach.

Matt Fitzpatrick has always been an outstanding putter and possessed a solid short game but recently has gotten longer off the tee.

"My coach and biomechanist Sasho Mackenzie gave me this speed stick called The Stack. I've been doing that religiously week in and week out," Fitzpatrick said Sunday evening. "It's like going to the gym basically. It's like a training program. I'll be honest, it's worked wonders."

"I feel like maybe three years ago if I was in this position, four years ago, and I was playing with Will in the final group, I'd be concerned that I'm going to be 15, 20 behind him. And I felt comfortable all day that I was going to be past him, which to me gives me confidence obviously going into the next shot knowing that you've got less club."

During the 2018-19 PGA Tour season, Fitzpatrick ranked 151st in driving distance on Tour (287.9 yards per drive), but this season he is up to 298 yards. That's still 108th, but he ranks 40th in driving accuracy, so while he's 11 yards longer, he still hits about 65% of the fairways.

On demanding golf courses like Southern Hills last month during the PGA Championship and this past week at The Country Club, which featured thick rough and fescue along the fairways, he ranked fifth in driving accuracy.

With his victory in the U.S. Open, Englishman Matt Fitzpatrick has risen from No. 18 to No. 10 in the Official World Golf Ranking. PETER CASEY/USA TODAY SPORTS

cy and was 36th in driving average at 309 yards.

Fitzpatrick is also legendary on tour for his work ethic. He has tracked every shot he has hit in competition and practice rounds for the last 12 years. If he continues to put in the work, more victories could be on the way.

Zalatoris has the pieces but hasn't put them together — yet

It was an odd day for Will Zalatoris because his putter made up for shortcomings off the tee and from the fairway. Typically, that's not the case.

Zalatoris hit just seven of 14 fairways on Sunday, contributing to only 11 of 18 greens in regulation. He came into the U.S. Open ranked No. 11 in strokes gained off the tee. It's tough to win a tournament, especially a major championship, if the foundation of your game doesn't show up on Sunday.

"Considering where I drove it today, the fact I was even under par was obviously pretty nice," Zalatoris said after signing for his 69. "I thought I made a lot of nice putts just to keep myself in it. Stealing one on 9, saving par on 13. I really felt great with the putter all week, and I hit a great putt on 18. It just happened to hang out there."

This is now three close calls in major

championships for Zalatoris. He was the runner-up at the 2021 Masters, lost in a playoff last month at the PGA Championship and tied for second at the U.S. Open. He has the prototypical modern game but must put the pieces together for four rounds if he wants to win. He's 160th on the PGA Tour in strokes gained putting (0.227). If he can improve that, so his putting doesn't cancel out his excellent iron play, he will have a long and successful career.

LIV Golf Series may not be good preparation for majors

At the start of the U.S. Open, there were 14 golfers who either played in the first LIV Series event in London or who announced they are going to play LIV Series events in the future, but none of them were in real contention by Sunday, and most of them missed the cut. Dustin Johnson, the 2016 U.S. Open winner, was the "Low LIV" at 2 over through 54 holes, and he finished Sunday at 4 over (1-24).

The PGA Tour has suspended its members who played in the LIV Series event in London, and golfers who play at the end of June in the next LIV Series event will also assuredly get indefinitely suspended by Jay Monahan, which will

dramatically reduce playing opportunities in big events and against elite fields. Remember, LIV Series events are 54 holes, and there is no cut, so while they are lucrative, they may not be the best place for a golfer to get sharp before a major championship. The tough questions about being involved with Saudi Arabia will also surely be a distraction for LIV Series players in majors to come.

USGA really doesn't want a repeat of Shinnecock or Olympic

The Country Club proved to be an excellent venue for the United States Golf Association, and thanks to the wind and cool temperatures provided by Mother Nature, the course was as challenging to play as it was beautiful to see.

After Friday's round, some golf lovers were concerned that 23 golfers were under par. For them, carnage and struggle are what the U.S. Open is all about, but it's now clear that if the USGA is going to make a mistake when setting up courses, it will err on the conservative side. The fairways were narrow, the greens were fast and the rough was thick and lush, but the classic venue never felt tricked out or over the top.

On Wednesday, USGA CEO Mike Wahn talked with the media about anchor sites for USGA national championships, with Pinehurst, Oakmont and Pebble Beach already locked in for numerous events well into the 2040s.

The Country Club should be added to that list. Now.

No one should ever quit at a U.S. Open

It's cliché, but you can win if you make the cut at the U.S. Open. And if you don't win, you can still make a big move.

Hideki Matsuyama and Collin Morikawa did not win this week, but they shot the day's low rounds on Sunday, a 65 and a 66, respectively, and raced up the leaderboard. Both started the day at 2 over par, six shots off the lead, and Matsuyama finished in solo fourth. Morikawa finished in a tie for fifth.

It would be easy to feel dejected on a difficult course like The Country Club, as we saw when Grayson Murray threw his putter and then snapped an iron over his knee, but moves can be made. It felt like the crowd in Boston was trying to will Melroy up the leaderboard, and while he fell short of winning his second U.S. Open, he finished tied for fifth with Morikawa.

Next year, when you are filling out your U.S. Open pool, remember to pick grinders.

Umpires

and more a concern with rules."

Until the technical kinks are smoothed out and stakeholders agree the time has come for automation, MLB will be wedded to its "blues." That includes the Cuba-born Hernandez, who unsuccessfully sued MLB for discrimination, claiming he was denied crew chief and postseason assignments

based on his race and not performance.

In 2023, Hernandez will mark his 30th anniversary as an MLB umpire.

To the players?

Mention his name in private and the reaction is largely ambivalent. "Just another guy," says one pitcher. "If he's working a game in Seattle and I'm here, I'm not thinking about him," offers another.

A hitter opts to cut the conversation short rather than opine. "The game's hard," says one player, letting his forthcoming silence tell plenty about his feelings for Hernandez. "We'll leave it at that."

Factoring temporary call-ups and other substitutes, players will deal with roughly 100 umpires behind the plate. The greater enemy, always, is the grind, and within that the hope that over six months and up to 700 plate appearances, the good and bad calls will be a wash come October.

"If your team is winning and you're playing well, it's like all right, whatever, they'll even out," says Rockies third baseman Ryan McMahon. "And if it's

going bad, it's like ah, you're getting screwed all the time. But they do even out more than people realize."

"In sports, human error needs to be a thing," says Bassitt. "I think that's what makes the sports in general beautiful is that there is human error, not just from the athletes but the people umpiring and officiating, managers calling the game, general managers ... everybody makes mistakes."

"We're all human. We're all trying to do our best. And I think that's the beauty in it all."

EXHIBIT B
INSURANCE REQUIREMENTS
(Furniture Deliver & Installation)

Contractor shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder and the results of that work by the Contractor, his agents, representatives, employees or subcontractors.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **\$2,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.
2. **Automobile Liability:** ISO Form Number CA 00 01 covering any auto (Code 1), or if Contractor has no owned autos, hired, (Code 8) and non-owned autos (Code 9), with limit no less than **\$1,000,000** per accident for bodily injury and property damage.
3. **Workers' Compensation:** as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than **\$1,000,000** per accident for bodily injury or disease.

If the Contractor maintains broader coverage and/or higher limits than the minimums shown above, the City of Stockton requires and shall be entitled to the broader coverage and/or the higher limits maintained by the contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City of Stockton.

Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status

The City of Stockton, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. Coverage can be provided in the form of an endorsement to the Contractor's insurance (at least as broad

REV 2025-06-04

as ISO Form CG 20 10 11 85 or the addition of **both** CG 20 10, CG 20 26, CG 20 33, or CG 20 38; **and** CG 20 37 if a later edition is used). Additional insured Name of Organization shall read "City of Stockton, its officers, officials, employees, and volunteers." Policy shall cover City of Stockton, its officers, officials, employees, and volunteers for all locations work is done under this contract.

Primary Coverage

For any claims related to this contract, the **Contractor's insurance coverage shall be primary and non-contributory** and at least as broad as ISO CG 20 01 12 19 as respects the City of Stockton, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City of Stockton, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies. The City of Stockton does not accept endorsements limiting the Contractor's insurance coverage to the sole negligence of the Named Insured.

Umbrella or Excess Policy

The Contractor may use Umbrella or Excess Policies to provide the liability limits as required in this agreement. The Umbrella or Excess policies shall be provided on a true "following form" or broader coverage basis, with coverage at least as broad as provided on the underlying Commercial General Liability insurance.

Notice of Cancellation

Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the City of Stockton.

Waiver of Subrogation

Contractor hereby grants to City of Stockton a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City of Stockton by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City of Stockton has received a waiver of subrogation endorsement from the insurer.

Self-Insured Retentions

Self-insured retentions must be declared to and approved by the City of Stockton. The City of Stockton may require the Contractor to purchase coverage with a lower retention or provide proof of ability to pay losses and related expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City of Stockton.

Acceptability of Insurers

Insurance is to be placed with insurers authorized to conduct business in the state with a current A.M. Best's rating of no less than A:VII, unless otherwise acceptable to the City of Stockton.

Claims Made Policies (Professional & Pollution only)

If any of the required policies provide claims-made coverage:

1. The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.
2. Insurance must be maintained, and evidence of insurance must be provided ***for at least five (5) years after completion of the contract of work.***
3. If coverage is canceled or non-renewed, and not replaced ***with another claims-made policy form with a Retroactive Date prior to*** the contract effective date, the Contractor must purchase “extended reporting” coverage for a minimum of ***five (5)*** years after completion of work.

Verification of Coverage

Contractor shall furnish the City of Stockton with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All documents are to be received and approved by the City of Stockton before work commences.
