1.0 BACKGROUND/SUMMARY

The City of Stockton (City) is a Charter City incorporated in 1850 and located in California's San Joaquin Valley. The City is the county seat of San Joaquin County and is 78 miles east of the San Francisco Bay Area, 337 miles north of Los Angeles and 40 miles south of Sacramento. The County is bound by Sacramento County to the north and Stanislaus County to the south. Approximately 310,000 residents live in Stockton.

The City of Stockton Municipal Utilities Department (MUD) manages, operates, and maintains three (3) utility enterprises: Water, Wastewater, and Stormwater. The Wastewater Enterprise is the subject of this Request for Proposals (RFP).

The Wastewater Enterprise generally includes the wastewater collection system and the treatment and disposal facilities located at the Stockton Regional Wastewater Control Facility (RWCF). The RWCF is permitted to collect, treat, and discharge up to 55 million gallons per day (MGD) of wastewater.

The RWCF, located at 2500 Navy Drive, is a tertiary treatment plant that operates and discharges under the National Pollutant Discharge Elimination System (NPDES) Permit Order R5-2020-0007.

2.0 SCOPE OF WORK

The City is seeking a qualified firm with the experience, expertise, and qualifications to perform source testing on specific equipment covered under the City's Title V Permit with the San Joaquin Valley Air Pollution Control District (APCD). This equipment includes three (3) digester gas fired Cogeneration Engines on a biennial basis, two (2) bioscrubbers on an annual basis, and fuel sulfur testing on an annual basis as outlined below in more detail.

Proponents must be an approved independent contractor by the State of California Air Resource Board (CARB). Proposals should include details on experience, expertise, and describe Proponents' plan to compete the following tasks and deliverables.

2.1 [Task1: Cogeneration Engine Source Testing](#)

The City operates three (3) 1,408 horsepower, Waukesha L7042GLD digester gas/natural gas-fired lean burn pre-combustion chamber type internal combustion (IC) engines. While in active status, they are required to be source tested every 24 months. Below are the permit numbers and current source testing schedules. All source tests are due to be scheduled within 30 days before or after the due dates shown. The City will provide any relevant operating and processing data (e.g., fuel usage, unit bhp, etc.).

Engine No.	Title V Permit No.	Engine Description	Source Test Due
Co-gen 1	N-811-21-12	1,408 HP Waukesha Model L7042GLD	9/11/2023
Co-gen 3	N-811-22-12	1,408 HP Waukesha Model L7042GLD	5/12/2024
Co-gen 4	N-811-23-11	1,408 HP Waukesha Model L7042GLD	3/26/2024

Source testing is required to be performed using APCD approved methods and procedures. The APCD is required to be notified 30 days prior to any source test and a source test plan must be submitted for approval at least 15 days prior to the testing. - Three (3) 30-minute test runs (plus response time) will be performed on each engine for NO_x, CO, CO₂ & O₂ using EPA Methods 7E, 10, & 3A while running at normal operating conditions.
- Three (3) 30-minute test runs will be performed on each engine for VOC using EPA Method 18.
- Three (3) 60-minute test runs will be performed on each engine for SO₂ using EPA Method 8 while running at normal operating conditions.
- Three (3) 60-minute test runs will be performed on each engine for total particulate matter (PM) using CARB Method 5 with CARB Method 5 back half analysis while running at normal operating conditions. PM testing will be performed while the engine is fired on digester gas only.
- All relevant obtainable process data will be provided by plant personnel (e.g., fuel usage, unit brake horsepower (BHP), etc.).
- EPA Methods 1-4 shall be used to determine the outlet flow rate for determining emission rates and factors.
- Include a test program description and tables presenting concentrations (ppm @15% O₂), emission factors (gm/Bhp-hr) and emission rates (lbs/hr) for all relevant compliance test

parameters. All supporting documentation (strip charts, field data sheets, calibrations, calculations, etc.) will be included in the appendix of the final report.

2.1.1 Task 1 Deliverables

- Proof of notification of source test scheduling to the APCD.

- Temporary stacks are to be installed and removed following testing by Contractor
- Moisture, volumetric flow rate, and molecular weight are to be determined using EPA/CARB Methods 1, 2, 3 and 4 in conjunction with the testing.
- Triplicate 30-minute test runs shall be performed for Ammonia (NH3) at each outlet simultaneously using BAAQMD Method ST-1B at normal operating conditions.
- A single sample of the digester biogas will be collected and sent to a laboratory for Sulfur analysis using EPA Method 15.

2.2.1 Task 2 Deliverables

- Proof of notification of source test scheduling to the APCD.

Exhibit 2:
Insurance Requirements
(Source Testing Services)

Consultant shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Consultant, its agents, representatives, or employees.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **\$2,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.

2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering, Code 1 (any auto), or if Consultant has no owned autos, Code 8 (hired) and 9 (non-owned), with limit no less than **\$1,000,000** per accident for bodily injury and property damage.

3. **Workers' Compensation** insurance as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than **\$1,000,000** per accident for bodily injury or disease.
(Not required if consultant provides written verification it has no employees)

4. **Professional Liability/Errors and Omissions** Insurance appropriate to the Consultant's profession, with limit no less than **\$1,000,000** per occurrence or claim, **\$1,000,000** aggregate.

If the Consultant maintains broader coverage and/or higher limits than the minimums shown above, the City of Stockton requires and shall be entitled to the broader coverage and/or the higher limits maintained by the contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City of Stockton.

Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status

The City of Stockton, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of **both** CG 20 10, CG 20 26, CG 20 33, or CG 20 38; **and** CG 20 37 if a later edition is used). Additional insured Name of Organization shall read "City of Stockton, its officers, officials, employees, and volunteers." Policy shall cover City of Stockton, its officers, officials, employees, and volunteers for all locations work is done under this contract.

Primary Coverage

For any claims related to this contract, the **Contractor's insurance coverage shall be primary and non-contributory** and at least as broad as ISO CG 20 01 04 13 as respects the City of Stockton, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City of Stockton, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies. The City of Stockton does not accept endorsements limiting the Contractor's insurance coverage to the sole negligence of the Named Insured.

Umbrella or Excess Policy

The Contractor may use Umbrella or Excess Policies to provide the liability limits as required in this agreement. This form of insurance will be acceptable provided that all of the Primary and Umbrella or Excess Policies shall provide all of the insurance coverages herein required, including, but not limited to, primary and non-contributory, additional insured, Self-Insured Retentions (SIRs), indemnity, and defense requirements. The Umbrella or Excess policies shall be provided on a true "following form" or broader coverage basis, with coverage at least as broad as provided on the underlying Commercial General Liability insurance. No insurance policies maintained by the Additional Insureds, whether primary or excess, and which also apply to a loss covered hereunder, shall be called upon to contribute to a loss until the Contractor's primary and excess liability policies are exhausted.

Notice of Cancellation

Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the City of Stockton.

Waiver of Subrogation

Contractor hereby grants to City of Stockton a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City of Stockton by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any

endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City of Stockton has received a waiver of subrogation endorsement from the insurer.

Self-Insured Retentions

Self-insured retentions must be declared to and approved by the City of Stockton. The City of Stockton may require the Contractor to purchase coverage with a lower retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City of Stockton. The CGL and any policies, including Excess liability policies, may not be subject to a self-insured retention (SIR) or deductible that exceeds \$25,000 unless approved in writing by City of Stockton. Any and all deductibles and SIRs shall be the sole responsibility of Contractor or subcontractor who procured such insurance and shall not apply to the Indemnified Additional Insured Parties. City of Stockton may deduct from any amounts otherwise due Contractor to fund the SIR/deductible. Policies shall NOT contain any self-insured retention (SIR) provision that limits the satisfaction of the SIR to the Named. The policy must also provide that Defense costs, including the Allocated Loss Adjustment Expenses, will satisfy the SIR or deductible. City of Stockton reserves the right to obtain a copy of any policies and endorsements for verification.

Acceptability of Insurers

Insurance is to be placed with insurers authorized to conduct business in the state with a current A.M. Best's rating of no less than A:VII, unless otherwise acceptable to the City of Stockton.

Claims Made Policies

If any of the required policies provide claims-made coverage:

1. The Retroactive Date must be shown, and must be before the date of the contract or the beginning of contract work.
2. Insurance must be maintained and evidence of insurance must be provided ***for at least five (5) years after completion of the contract of work.***
3. If coverage is canceled or non-renewed, and not replaced ***with another claims-made policy form with a Retroactive Date prior to*** the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of ***five (5)*** years after completion of work.

Verification of Coverage

Contractor shall furnish the City of Stockton with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause **and a copy of the Declarations and Endorsements Pages of the CGL and any Excess policies listing all policy endorsements**. All certificates and endorsements and copies of the Declarations & Endorsements pages are to be received and approved by the City of Stockton before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City of Stockton reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time. City of Stockton reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Subcontractors

Consultant shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that City of Stockton is an additional insured on insurance required from subcontractors.

Duration of Coverage

CGL & Excess liability policies **for any construction related work, including, but not limited to, maintenance, service, or repair work**, shall continue coverage for a minimum of 5 years for Completed Operations liability coverage. Such Insurance must be maintained and evidence of insurance must be provided *for at least five (5) years after completion of the contract of work*.
