**STATEMENT OF WORK**

**1. Project Objectives**

- 1.1 Maximize uptime of all radio communications equipment within project scope.
- 1.2 Proactively maintain the radio communications system and subscriber radios through preventive maintenance activities.

**Detailed Systems Descriptions by Department**

The City owns and operates a private 13-channel radio communication system utilized by the Fire, Municipal Utilities (MUD), Police, and Public Works departments. The City is undertaking a major replacement of radio infrastructure, migrating from an outdated conventional radio system to a modern trunking system. The City remains on the old radio system while project phases for microwave and channel equipment replacements are underway and nearing completion. Until completed, there is a requirement for continued maintenance of the current legacy system. The long-term infrastructure replacement project is underway and nearing completion; however, while the City remains on the current radio infrastructure, the current system must be maintained.

The City's Public Safety and Local Government RF Systems are private and standalone. The City of Stockton holds and maintains all FCC licenses for its VHF, UHF and systems. This effort utilizes many types of transport or connectivity to support the complexity of the City's Public Safety area operations. Furthermore, the city is contractually co-located with San Joaquin County to utilize its antenna systems, emergency power, and equipment shelters.

**2. Project Scope**

The contractor shall furnish all services, parts, materials, and labor to support the operation of the City's private wireless systems. The City requires a high level of "Systems Support" under this contract. Integrating both voice and data subsystems requires extensive knowledge and experience in the Radio Frequency (RF) and Information Technology fields. The equipment and systems supported shall include a wide area RF analog and digital voice modulation, encryption, Public Safety mobile data infrastructure, PSAP consoles, digital microwave, fiber MUX, and CSU/DSU equipment. Parts and materials used shall be in accordance with the equipment manufacturer's recommendation and approved by the City. Manufacturers include but are not limited to Motorola, Adtran, David Clark, Juniper, Cisco, HP, AT&T, and Microwave Network Inc.

Radio maintenance services shall include all parts, labor, and travel required to repair and maintain the City-Wide Trunk Radio Communication System fixed, mobile and portable radios, bases, repeaters, Communication Center Radio System, microwave network, system monitoring with email notifications, and other related equipment that have become defective through normal wear and use. The contractor shall include, but not be limited to, programming new equipment, updating codeplugs, and reprogramming all codeplugs for mobile and portable radios and other related equipment. The contractor shall perform this service for a fixed annual fee, invoiced monthly, that the maintenance contract covers. Maintenance shall include at least one (1) annual preventative maintenance, and a report shall be submitted to the Police Department on equipment condition, with any recommendations if needed. The contractor shall cover all listed equipment, servers, software, and related equipment. 1.1 "Services" means, collectively, the services, duties and responsibilities described in Exhibit A of this Agreement and any and all work necessary to complete them or carry them out fully and to the standard of performance required in this Agreement.

1.2 "Deliverable" means quantifiable goods or services that will be provided upon completion of a project. 2.2 In the case of modification of a part or provision of the GTC, the unaltered part or provision, or both shall remain in effect. The Special Conditions shall relate to a particular project and be peculiar to that project but shall not weaken the character or intent of the GTC.

#### **4. Standard of Performance**

Contractor remains responsible for the professional and technical accuracy of all Services or Deliverables furnished, whether by Contractor or its subcontractors or others on its behalf. All Deliverables must be prepared in a form and content satisfactory to the Using Agency and delivered in a timely manner consistent with the requirements of this Agreement.

4.3 If Contractor fails to comply with the foregoing standards, Contractor must perform again, at its own expense, all Services required to be re-performed as a direct or indirect result of that failure. Any review, approval, acceptance or payment for any of the Services by the City does not relieve Contractor of its responsibility for the professional skill and care and technical accuracy of its Services and Deliverables. This provision in no way limits the City's rights against Contractor either under this Agreement, at law or in equity.

Neither Contractor nor Contractor's officers or employees are entitled to any salary or wages, or retirement, health, leave or other fringe benefits applicable to employees of the City. Partial or incomplete Deliverables may be accepted for review only when required for a specific and well-defined purpose and when consented to in advance by the City.
