**EXHIBIT A**

**Solicitation Number: RFP #091521****CONTRACT**

This Contract is between Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and 72 Hour LLC dba: National Auto Fleet Group, 490 Auto Center Drive, Watsonville, CA 95076 (Supplier).

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to eligible federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Automobiles, SUVs, Vans, and Light Trucks with Related Equipment and Accessories from which Supplier was awarded a contract.

Supplier desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

**1. TERM OF CONTRACT**

- A. **EFFECTIVE DATE.** This Contract is effective upon the date of the final signature below.
- B. **EXPIRATION DATE AND EXTENSION.** This Contract expires November 8, 2025, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended one additional year upon the request of Sourcewell and written agreement by Supplier.
- C. **SURVIVAL OF TERMS.** Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All rights will cease upon expiration or termination of this Contract.

**2. EQUIPMENT, PRODUCTS, OR SERVICES**

- A. **EQUIPMENT, PRODUCTS, OR SERVICES.** Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above.

Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new and the current model. Supplier may offer close-out or refurbished Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. **WARRANTY.** Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. **DEALERS, DISTRIBUTORS, AND/OR RESELLERS.** Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

### **3. PRICING**

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be

returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. SALES TAX. Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

#### **4. PRODUCT AND PRICING CHANGE REQUESTS**

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;

- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Change Request Form will become an amendment to this Contract and will be incorporated by reference.

## **5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS**

A. **PARTICIPATION.** Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Supplier is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential participating entities to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. **PUBLIC FACILITIES.** Supplier's employees may be required to perform work at government-owned facilities, including schools. Supplier's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

## **6. PARTICIPATING ENTITY USE AND PURCHASING**

A. **ORDERS AND PAYMENT.** To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell

contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

**B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be negotiated directly between the Participating Entity and the Supplier. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

**C. SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

**D. TERMINATION OF ORDERS.** Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased

by Participating Entities under this Contract during each calendar quarter. In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. 9	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	<p>National Auto Fleet Group started as a new division of 72 Hour LLC, in the summer of 2010 in the heart of Southern California. We began our network with a single automobile dealership and have now grown our network to encompass numerous dealerships located in and outside of California.</p> <p>We stand by providing opportunities for advancement by hiring and promoting from within our organization. Many of the Fleet Managers who started with us in 2010 are still with us today.</p> <p>Through the years, we have evolved and adapted to the new technology driven trends that are revolutionizing the automotive industry today. However, our brand's fundamental core values have remained unchanged – We are committed to do right for the members. If we take care of them, they will in return take care of us.</p> <p>National Auto Fleet Group's operational blueprint and business philosophy has always been the "4 RIGHTS" for every member: We deliver the RIGHT vehicle, at the RIGHT time, to the RIGHT place at the RIGHT price.</p> <p>The integrity of our business stems on our deep family roots in the automotive industry. We are and always will be family owned and operated with our future generations already in their infant stages today. We are committed to pioneering our industry for decades to come.</p>

Line Item	Question	Response *	
35	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	<p>National Auto Fleet Group encompasses a variety of marketing strategies to promote our products and services to streamline the vehicle purchasing process for government entities. Below are a few strategies used to serve as the gateway between our business and public agencies.</p> <p><b>Website and Inbound Marketing:</b> The creation of a professional customer-focused website is one of our main features to market our products and services. The NAFG website encourages our members to interact and browse through products offered along with pricing and information about National Auto Fleet Group. Inbound marketing is created when potential members are directed to the company website. With this method, we are able to not only connect with members but to put the purchasing ability into the hands of each member. Our inbound marketing strategy attracts members by creating valuable content and experiences tailored to the needs of each individual. Examples include email campaign flyers on our products, informative and how-to videos, social media and engaging members with top-notched customer service to build brand awareness.</p> <p><b>Email Marketing:</b> One of the main strategies used to engage current and potential members is Email Marketing. Our emails include different types of flyers that consist of information of the Sourcewell contract, promoting manufacturer brands, holiday themed flyers, discounts offered to first time buyers, important cutoff date reminders and upcoming products and events.</p> <p>The use of marketing campaigns plays a major role in enhancing the growth of our client database. Emails are a big part of our daily lives due to government agency employees utilizing emails as their main source of communication. We use campaigner.com as the emailing platform to reach our target members. Videos and descriptive images are used on all flyers and are compatible with a desktop or mobile device. Messages are short and to the point with links leading to the Sourcewell and NAFG homepage. The Campaigner email system allows the ability to track email activity based on open rate, unsubscribes and link clicks which is beneficial to understanding email effectiveness.</p> <p>Once potential members are directed to our website, they are welcomed with a wide range of options to explore an array of our products and services. They are able to register to become a member, view pricing, explore available in-stock vehicles, view how-to-videos, build a vehicle online to request an immediate quote or use our live chat assistant or call/email for live support.</p> <p><b>Face to Face Marketing Strategies:</b> This strategy has proven to be successful in generating leads and creating lasting relationships by developing genuine connections with prospective members. National Auto Fleet Group attends several trades shows per year to engage members and put a face to the company. This in person meeting aids to build the brand by nurturing relationships between members and other vendors associated through the process. Trade shows attended include GFX, IAPPO, NIGP, ACT, CAPPO, and CASBO throughout the United States.</p> <p>NAFG has many opportunities to make in person presentations to propose products, services offered and to answer any questions potential members may have. These PowerPoint Presentations include topics on NAFG/Sourcewell process, how to facilitate the vehicle purchasing without bidding, informational videos, and the brands and services we provide. These meetings have been held at local cities, counties, school districts, water districts and ports.</p> <p><b>Relationship Marketing</b> is a vital strategy used in building and maintaining long-term relationships practiced by National Auto Fleet Group on a daily basis.</p> <p>NAFG strives to create a positive and supportive connection with members by providing personalized and responsive customer service practices. The sales team has worked tirelessly to focus on providing outstanding customer support to create a powerful rapport with existing and new members. By going above and beyond, they have enhanced existing relationships and executed customer loyalty with repeat businesses. They strive to deviate from the "Car Salesperson" mentality which is 100% sales driven to a more product and customer service approach by instilling a sense of confidence in our clients. The goal is to regularly assist clients and address any needs and concerns even after the purchase has occurred. The strive to focus on solution selling vs. product selling develops into a mutually beneficial agreement for members and the business.</p> <p>Below are a few examples on successful relationship marketing from our Fleet Department: We had a member call in to request financing/lease options for a truck needed through our National Auto Fleet Group/Sourcewell vehicle contract. I contacted another Sourcewell vendor, Matt Geiselhart from NCL Gov Capital and he was happy to assist with a financing quote. The member also requested to trade in a current vehicle in their fleet and was directed to Govdeals for assistance in removing the outdated unit through an auction. The member was able to utilize three Sourcewell contracts to complete his transaction which simplified the entire process. The member was very satisfied with the amount of care and ease through his experience and became a repeat customer. By utilizing a cross-selling strategy, National Auto Fleet Group became his one stop shop to fulfill all fleet vehicle purchasing needs.</p> <p>"I had a member call in desperate to obtain a new truck because an employee had gotten into a serious accident and had the truck totaled. Due to covid restrictions, most manufacturers are currently experiencing microchip shortages which relays to production delays at the factory. We were able to direct buyer to our in-stock inventory on the NAFG website and member was ecstatic to locate truck to meet their needs. Instead of having to wait 30 weeks to receive the new vehicle, member was able to obtain the new truck within 3 weeks."</p>	

"I once had a member contact us two years after purchasing a vehicle from us. They had a malfunction with the liftgate on the box truck which caused a logistical nightmare. I was able to contact one of our body vendors that upfitted the lift gate installation and a service technician was able to go onsite to resolve the liftgate issue at no additional cost. The member was very impressed with the quality of our customer service even after purchase."

"I had a member request a ¾ ton truck pricing but was unsure about their budget at the time. I took the time to go through each option with the client to provide a Sourcewell pricing quote through multiple manufacturers from Ram, Chevrolet and Ford. This empowered the member to have multiple pricing options for review to align with their budget as well as eliminating the need to shop anywhere else."

"We work with many body companies to assist customers with the body upfitting process. One of our members called in a request to expedite a particular vehicle that was held up at one of their local body upfitters. I contacted the body company representative and put in a request to expedite the upfitting per request of the member. The body company was able to comply with the request and delivery was made sooner than expected."

**Word-of-Mouth Marketing:** The positive quality of service has led to more sales based on previous customers' impressions on their experience. NAFG's goal is to provide exemplary customer service throughout the entire purchasing process to encourage repeat business and advocate services to other members. NAFG has been fortunate to experience multiple instances of leads generated based solely on word-of-mouth marketing through our existing customers.

**Cross-promotion:** National Auto Fleet Group is currently collaborating with another Sourcewell Vendor, NCL Government Capital to promote each other's products and services. NCL Government Capital specializes in providing competitive equipment financing programs for municipalities and public education entities across the United States. As a team, NCL and NAFG produced a variety of marketing materials such as videos, flyers and info graphs to promote purchasing and leasing opportunities.

Hoglund Bus Company is another cross-promotion vendor NAFG had the opportunity to create a partnership with. Flyers were created to advertise Chassis from NAFG along with a variety of bus bodies from Hoglund Bus Company.

With cross-promotion, companies exchange knowledge and provide endorsements on websites, social media, and email campaigns. This strategy creates an influx of new leads, brand awareness, increased sales and recurrence of customers. National Auto Fleet Group will continue to create new partnerships and facilitate more cross-promotion opportunities in the near future to provide turnkey solutions for a variety of vehicle purchasing needs.

Coming in 2022, National Auto Fleet Group will be launching a NAFG Partner Website to further increase business growth. The website [www.nafgpartner.com](http://www.nafgpartner.com) is expected to launch next year in 2022. The site encourages body upfitting companies throughout the United States to partner up with NAFG to become a preferred member. The benefits of becoming a preferred member include endorsements on website and social media avenues along with word-of-mouth referral for clients with upfitting needs. Our dedicated public relations representative will conduct phone and in person meetings to discuss the advantages of partnering up with NAFG, therefore generating more cross-promotion opportunities.

Members from government agencies are encouraged to go on the site to search for local body upfitting companies they are interested in working with. As a prerequisite in becoming a preferred vendor, they are required to advertise NAFG and the Sourcewell contract on their business website and refer their clients to purchase their cab/chassis needs through NAFG. This establishes a partnership that will generate increased sales all around. We are still currently building the website and interacting with body companies across the United States that would be interested in partnering up with NAFG.

36	<p>Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.</p>	<p>Social media plays a crucial element in the way people communicate and connect with each other. LinkedIn is the go-to platform used by NAFG as it offers a variety of ways to expand our network by locating and connecting with relevant professionals in the industry. National Auto Fleet Group has utilized LinkedIn to engage current and potential members through personalized messages and posts. Personalized messages include thanking them for registering on site as well as directing them to our link to the website, LinkedIn, YouTube, Facebook and Instagram company pages. The goal is to unite with people already on our database as well as people that would benefit from our products and services. Current flyers or messages about our company are also posted on the LinkedIn site to generate and attract more business. Time is also spent on reading posts from connections and observe any needs that National Auto Fleet Group may assist with.</p> <p>National Auto Fleet Group has begun utilizing video marketing strategies to further promote and market products by engaging on social media channels and email flyers. Programs such as Vimeo, Video Scribe, Cartoon Animator, Adobe Animate, Illustrate, Captive, Photoshop and Movavi Video Editor Plus are employed to edit and create videos to assist in endorsing our company. The following videos were recently created by our marketing department along with outside video production companies:</p> <p><b>Explainer Video:</b> The first video created was a 90 second explainer video about National Auto Fleet Group that used animated characters to visualize our products and services along with information on the Sourcewell awarded contract. The video has been incorporated into all our weekly email flyers and social media platforms as an informative video on our products and how to purchase vehicles off Sourcewell Government Contract.</p> <p><b>How To Videos:</b> National Auto Fleet Group has also created step-by-step How-To videos on the process to purchase both Light Duty and Heavy-Duty vehicles off the contract.</p> <p><b>In Stock Vehicles:</b> This video showcases our in-stock vehicles available and the process of requesting a quote.</p> <p><b>ETA Tracking System:</b> This video was created to not only introduce but to encourage clients to self-track their vehicle status.</p> <p><b>Holiday Themed Videos:</b> These amusing videos were created to celebrate the holidays and add humor and lightness to our company and products sold.</p> <p><b>Cross Promotion Video:</b> This video markets our relationship with NCL Government Capital and Sourcewell to endorse EV vehicles.</p> <p><b>Videos for social media:</b> Mini videos were created to advertise new vehicles available, pricing and cutoff date reminders.</p> <p>NAFG has recently introduced a newly built live chat feature on our website for customer convenience as well as improving customer service. Visitors have access to chat with a live sales representative 24 hours a day, 7 days a week. With this feature potential customers are provided with another avenue for assistance in addition to emailing and phone calls. The benefits of a live chat option include quicker response time to assist buyers in reaching a purchasing decision and answer their questions.</p> <p>Improving customer service will also lead to increased sales, customer loyalty and engagement. Many studies have shown a strong correlation between live chat and increase in conversion rates. Potential clients appreciate having their questions answered in real-time when trying to build a vehicle quote online and allowing the user to multi-task different projects.</p>
37	<p>In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?</p>	<p>Sourcewell's mission states: "Our commitment to service and exceeding client expectations." This statement integrates with our relationship marketing strategy with our commitment to go above and beyond for all our members. Sourcewell is a trusted brand that government entities can rely on to access a wide variety of products and services for their everyday needs. With over 40 years of partnerships and relationship building, they are the glue that connects government, education, and nonprofit agencies to companies of all sizes to offer turnkey solutions to their needs.</p> <p>Sourcewell is also a reliable resource for vendors by not only connecting with potential prospects but by providing valuable marketing materials readily available for download on their website. Resources and tools provided include flyers, vendor training videos along with compliance information.</p> <p>The Sourcewell brand integrates a thorough documentation review of all vendors prior to awarding their cooperative contracts to ensure products and services are from reputable vendors. The brand provides a sense of legitimacy of our company name and members recognize that products and services are from reliable sources that will meet their needs.</p> <p>Sourcewell's aim is to simplify the purchasing and procurement process of government entities by eliminating the costly bidding procedure. The process of researching the right vendor is not only stressful and time-consuming but can be expensive as well. Sourcewell has completed the bidding for government entities which simplifies the overall purchasing process by providing access to competitively bid contracts procured by a government agency.</p> <p>Sourcewell has provided NA FG with overwhelming opportunities to work with government agencies across the United States. The Sourcewell name represents a high standard of integrity and ethics which is a dynamic National Auto Fleet Group is proud to be part of. Sourcewell members have access to a contract that is more flexible than the standard bidding process. This contract can be customized to meet the unique needs of each client. The sales team has incorporated not only this standard of integrity in their sales practice ensuring clients' purchasing needs will always be met. The cost savings and stress-free nature of the cooperative contracts favors that of the traditional bidding process. It enables vendors to work with qualifying government entities in a more efficient manner. We vow to maintain these levels of standards across the board throughout all departments within the company.</p>

38	<p>Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.</p>	<p>Our website provides a hands-on empowering approach to ordering vehicles online. 53	Describe any service standards or guarantees that apply to your services (policies, metrics, KPIs, etc.)	NAFG and staff uphold high standards with how we provide service to the members, not only holding each other accountable but by embracing member feedback of how we can improve. Then we act upon it and implement improvements.

**Table 10: Payment Terms and Financing Options**

Line Item	Question	Response *
54	Describe your payment terms and accepted payment methods?	Standard payment terms are Net 20, with a 10 – day grace period.
55	Describe any leasing or financing options available for use by educational or governmental entities.	. In order to provide leasing or financing options, NAFG has partnered with National Cooperative Leasing to offer leasing terms for Sourcewell members for all NAFG quotes under the Sourcewell contract. For further review, we have attached a PDF called "NCL Sample Lease" in the "Member Walk Through" Zip file.
56	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	National Auto Fleet Group's transaction process (Purchase Order) is closely tracked, well documented, and neatly organized to monitor each transaction performed through our Sourcewell Contract. This way, NAFG may produce swift and accurate quarterly reporting.
57	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Yes, NAFG accepts up to \$2,500 per vehicle. However, any dollar amount higher than \$2,500 will require a P-card/ Credit Card transactional fee that would be passed onto the member

**Table 11: Pricing and Delivery**

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
58	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	National Auto Fleet Group is offering Line-Item Discounts Off Manufacture Suggested Retail Price for 15 manufacturers that is detailed in the Price File. NAFG will also offer any Upfits to be added to any and all vehicles' that members wish to add. Details are located on the Price Summary Page in the Price File.
59	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	NAFG has provided offerings from 15 Brands/OEMs and their respective percentage off vary and are detailed in the "Price File" zip  Each Manufacturer Range is detailed in the tabs below, here is an overview: Chevrolet from -.077 to 24.45 % Ford Motor Company from -5.19 to 23.31 % GMC from 6.14 to 22.45 % Ram from 4.99 to 14.23 % Dodge from 3.09 to 9.96 % Jeep from 1.38 to 4.17 % Chrysler from 1.65 to 4.55 % Toyota from .03 to 8.98 % Honda from 1.34 to 4.9 % Nissan from -.085 to 14.61 % Buick from 2.36 to 6.08 % Kia from .69 to 8.39 % BMW from 3.8 to 4.77 % Cadillac from 4.22 to 6.77 % Volkswagen from 2.17 to 2.46 %
60	Describe any quantity or volume discounts or rebate programs that you offer.	If clients are considering an order of 150 or more units, we encourage members to contact us for any additional discounted quotes.
61	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	"Open Market" products or "Sourced Goods" will be considered and treated as regular upfits. However, they may be quoted up to a 10% mark up, if applicable.
62	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	All considerations have already been taken into account in its entirety. The Price Summary Page and Price Table contained in the price file includes all considered costs. Although if a member requested a specialized quote for a unique situation that requires special training, direction, or installation, the additional costs would be added as a part of the upfit and then included inside the member's quote.
63	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	All manufacturers charge a standard "Factory Destination Charge". However, that is separate from the freight/destination cost that members may incur to ship a vehicle to and from an installer, if applicable. These subsequent locational movements may bear additional freight costs that will be outlined within the member's quote for their review prior to purchase.
64	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Freight, shipping, and delivery terms among these regions sometimes carry additional logistical charges for added ferry, port and driver costs from both to and from the mainland. These added costs will be disclosed on the quote for members to review and approve prior to purchase.
65	Describe any unique distribution and/or delivery methods or options offered in your proposal.	National Auto Fleet Group already has a well-established Automobile Franchise Distribution Network that allows for swift and relatively seamless delivery to members and their end users.

**Table 12: Pricing Offered**

66	c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	NAFG Strives to offer the best overall value to the member with each and every quote.

**Table 13: Audit and Administrative Fee**

Line Item	Question	Response *	
67	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	Sourcewell participating members are able to obtain proper pricing directly from our website, where they are able to use our user-friendly design to build and price their vehicles. The NAFG is updated daily to reflect updated manufacturer MSRP information. Our system will provide members with an accurate quote 99.99% of the time. In addition, NAFG has a stream line and organized process that calculates administrative fees and allows NAFG to give a turnaround time of 15 – 30 days for quarterly reports.	*
68	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	One of the internal metrics NAFG uses to track and measure success with the Sourcewell Contract is maintained through our website. Our website keeps a detailed log of quotes that members are generating. We oversee and keep track of how many quotes are being generated and which quotes are met with a purchase order. Every month we evaluate our sales indicators and closely monitor the volume and frequency of sales. One example is by evaluating which members are purchasing from our platform – new members or frequent members to ensure we are growing our member base. We use these metrics to measure our projected growth rate and work to exceed our expectations.	*
69	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	NAFG will submit \$ 300 per vehicle purchased through NAFG and \$ 200 per vehicle purchased through our partner dealer Alan Jay Automotive. For the purpose of an admin fee there are no other partner dealer groups considered.	*

**Table 14A: Depth and Breadth of Offered Equipment Products and Services**

Line Item	Question	Response *	
70	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	NAFG has provided a "Model Roll Out" Charts in the "Price File" zip, but of the 15 manufacturers we represent, they have over 100 makes and models for members to choose from that range from Class 1-3 and supporting Class 4 Cab and Chassis trucks. NAFG's platforms can add any upfit of their choosing, ranging from toolboxes to Line Mechanic Bodies. Any and all upfits can be added to any one of our vehicles through one of our upfit partner suppliers or by an upfit supplier of the members choosing. NAFG and the supplier will work together to supply members with turnkey quotes.	*
71	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	National Auto Fleet Group lists the makes and models of all 15 manufacturers we represent under the ZIP File "All 15 Manufacturers". These 15 OEMs make up over 100 combined makes, models, and engine combinations for members to select from along with several subtitle "Upfits" detailed for members in the price file.	*

## COMMENTARY

# Big 12 can forge future without duo

## Expanded football playoff one big reason

**Jenni Carlson**The Oklahoman  
USA TODAY Network

OKLAHOMA CITY, Okla. — Oklahoma and Texas are leaving the Big 12.

So, where does that leave the conference?

News that would've been surprising a week ago but that became expected in recent days was made official Monday morning — Oklahoma and Texas gave notice to the Big 12 they would not extend their grant of rights when the league's current agreement expires in 2025. A few hours later, the conference issued a statement acknowledging as much.

"Although our eight members are disappointed with the decisions of these two institutions, we recognize that intercollegiate athletics is experiencing rapid change and will most likely look much different in 2025 than it does currently," Big 12 Commissioner Bob Bowlsby said in the statement. "The Big 12 Conference will continue to support our member institutions' efforts to graduate student-athletes and compete for Big 12 and NCAA championships."

"Like many others, we will use the next four years to fully assess what the landscape will look like in 2025 and beyond. The remaining eight institutions will work together in a collaborative manner to thoughtfully and strategically position the Big 12 Conference for continued success, both athletically and academically, long into the future."

For all those words, there aren't many specifics. I assume that's partially because the Big 12 doesn't have a lot of answers right now — the notion of the con-

**Big 12 Commissioner Bob Bowlsby is optimistic about the conference's future.**

KEVIN JAIRAJ/USA TODAY SPORTS

ference going forward without Oklahoma and Texas wasn't on anyone's radar this time last week — but even if conference leaders had more time to prepare and plan, answers would still be tough to come by.

What is the right thing to do? What should the remaining schools do?

This is important in our neck of the woods, of course, because it will have a huge impact on Oklahoma State. The Cowboys zoom to the head of the class without the Sooners and Longhorns, who formally applied to the Southeastern Conference for membership Tuesday. Oklahoma State has one of the

most successful football programs in the country over the past 15 years, and with quality facilities and strong programs all across the athletic department, it has a leg up on the other seven schools.

What that ultimately means for Oklahoma State remains to be seen. Will it use that cachet to find a soft landing spot in another conference? Or will it become a leader — maybe even the leader — in the Big 12?

That depends on whether the remaining eight institutions are as committed to working together as Bowlsby's statement makes it sound. I have no doubt the schools have said they are going to stick together, but I also have no doubt each of them is actively looking out for themselves, talking with other conferences, figuring out what happens if the whole thing falls apart.

But there are good reasons why the Big 12's remaining schools should want to make a go of it — and ways they could make it happen.

Prime among the reasons to stay together is the promise of an expanded

College Football Playoff. If the Big 12 holds itself together, it would almost certainly get its champion in the expanded playoff virtually every year. Under the proposed expansion to a dozen teams, the six highest-ranked conference champions would get automatic bids.

If the Big 12 maintained its standing as a Power Five league, an automatic bid would be, well, automatic, but even if the league fell back into the Group of Five range, it would be the strongest of that bunch.

Would expanding strengthen the Big 12? Would adding the likes of Houston and Cincinnati, BYU and Central Florida draw more TV viewers, satisfy the broadcast partners and solidify the league's standing?

Frankly, those schools might also look better to one of the Big 12's broadcast partners. The league has deals with ESPN and Fox. Fox might be interested in helping the Big 12 survive in order to bolster the network's portfolio. The Big 12 might even be able to use its survival as leverage with Fox.

The Big 12 staying together might keep the market from skyrocketing on the networks, and Fox might well want that outcome. But will the Big 12 hang on?

It certainly can. There are ways the conference can survive the gut punch of losing Oklahoma and Texas, locking arms and forging a future. There are lots of reasons all of that makes sense for Oklahoma State and Iowa State, Kansas State and Kansas, TCU and West Virginia, Baylor and Texas Tech.

But will the schools stay together and be as committed to each other as they have vowed to be?

Of the answers that are tough to come by right now in the Big 12, that is toughest of all.

## THE MONEY

# Expanded SEC could match NCAA intake in revenue

**Steve Berkowitz**

USA TODAY

A 16-team Southeastern Conference that includes Texas and Oklahoma would be such a financial powerhouse that its revenue quickly would become equivalent to the NCAA's, a USA TODAY Sports analysis of conference and association financial records shows.

The figures and timing would depend on the speed at which various developments occur, beginning with when the schools depart the Big 12 after taking the initial step Monday of notifying the conference that they will not be renewing their grants of media rights following expiration in 2025 and then applying to the SEC for membership on Tuesday. There also are questions related to TV entities' reaction to the expected moves and the College Football Playoff's proposed expansion to 12 teams.

However, based on the documents and interviews with industry experts familiar with the finances and revenue capabilities of Power Five conference schools, a path can be drawn to a 16-team SEC with Texas and Oklahoma having close to \$1.3 billion in revenue for its 2024-25 fiscal year. That's likely where the NCAA will be, assuming it remains on schedule for the payout from its multimedia and marketing rights agreement with CBS and Turner for the Division I men's basketball tournament to increase to \$990 million in what would be the first year of an extension made in March 2016.

Yes, Texas' and Oklahoma's grant of media rights to the Big 12 runs through

2024-25, but if the schools and the SEC want to get together, it seems likely that will happen sooner. Similarly, while the CFP's current set of agreements for a four-team event run through the 2025-26 season, the management committee already is formally discussing the expansion to 12. Based on those assumptions, here's how the SEC reaches NCAA-level revenue.

**NCAA**

The association's most recent audited financial statement showed it had \$1.12 billion in revenue for the 2018-19 fiscal year, which was before the pandemic. Of that amount, \$867.5 million was attributed to TV and marketing rights fees, nearly all of which come from the CBS/Turner agreement. The notes to the statement say that the NCAA is scheduled to get \$990 million from the CBS/Turner deal in 2024-25.

If the association's other revenue sources — a combined \$251 million before the pandemic — grow at a rate of 3% annually, that would give the NCAA about \$1.28 billion in revenue for 2024-25. (While inflation is currently running at around 5%, it was at 3% or less for nearly all of the previous decade, according to the U.S. Bureau of Labor Statistics.) This figure could be impacted by changes in ticket revenue from championships, investment income and other sources.

**SEC**

**Setting the most recently available**

**baseline:** The conference's federal tax records for its 2019-20 fiscal year — which may use a slightly different accounting procedure than an audited financial statement — show that the conference had \$497 million in revenue from what it called "TV/radio rights fees" out of \$729 million in total revenue.

**Where Saturday afternoon football TV revenue is heading:** The SEC announced in December that, beginning with the 2024-25 season, ESPN/ABC will be taking over the Saturday afternoon football TV package that CBS currently holds. ESPN/ABC will pay the SEC "in the low \$300 million range" annually, according to Sports Business Journal, a significant increase on the \$55 million the league makes per year from its contract with CBS. So, without Texas and Oklahoma, the SEC already is headed toward an incremental revenue increase of about \$245 million in 2024-25. That would put its total revenue at \$974 million.

**Where other TV revenue is heading:** Based on the conference's reported \$497 million TV/radio for 2019-20 and the \$55 million attributed to the CBS football package, there was \$442 million in other TV/radio revenue. If that amount increases by 3% annually, it becomes \$512 million in 2024-25. That's an incremental increase of \$70 million and puts the SEC at \$1.044 billion.

**Where non-TV revenue is heading:** The NCAA reported \$231 million in revenue not related to TV/radio in 2019-20. Again using a 3% annual growth rate, that would give the SEC an incremental

increase in this revenue of about \$37 million — and that figure likely is low because of the pandemic. That puts the SEC at \$1.081 billion.

**The impact of an expanded CFP:** In June, USA TODAY Sports reported that an expansion from four teams to 12 could increase the average annual value of the event from about \$600 million to more than \$2 billion, according to a projection provided by Navigate, a firm specializing in college and professional sports rights valuations. For the 2019-20 season, the Power Five conferences each received base amounts of about \$67 million, according to figures on the CFP's website. A conservative view would have the Power Five conferences' base amounts increasing by a multiple of 2.5, assuming there are still five leagues, putting the payout at about \$167 million and putting the SEC at \$1.181 billion.

**The impact of adding Texas and Oklahoma:** Recapping the amounts mentioned earlier, a projection of the SEC's overall TV/radio revenue for 2024-25 without adding any schools is around \$812 million. That's based on the \$300 million from ESPN/ABC for Saturday afternoon football and \$512 million for the rest of its TV/radio revenue. At \$812 million, that would mean the SEC and its partners seeing these deals being worth \$58 million per school. If the respective values of Texas and Oklahoma are negotiated by the SEC and its partners as adding just slightly above average value — say \$60 million apiece — it would add \$120 million. That puts the conference's total at \$1.301 billion.

## I. ABOUT SOURCEWELL

### A. SOURCEWELL

Sourcewell's solicitation process complies with State of Minnesota law and policies, conforms to Canadian trade agreements, and results in cooperative purchasing solutions from which Sourcewell's Participating Entities procure equipment, products, and services.

Cooperative purchasing provides participating entities and suppliers increased administrative efficiencies and the power of combined purchasing volume that result in overall cost savings. At times, Sourcewell also partners with other purchasing cooperatives to combine the purchasing volume of their membership into a single solicitation and contract expanding the reach of contracted suppliers' potential pool of end users.

Sourcewell uses a website-based platform, the Sourcewell Procurement Portal, through which all proposals to this RFP must be submitted.

Participating Entities typically access contracted equipment, products, or services through a purchase order issued directly to the contracted supplier. A Participating Entity may request additional terms or conditions related to a purchase. Use of Sourcewell contracts is voluntary and Participating Entities retain the right to obtain similar equipment, products, or services from other sources.

To meet Participating Entities' needs, Sourcewell broadly publishes public notice of all solicitation opportunities, including this RFP. In the United States each state-level procurement department receives notice for possible re-posting.

Proof of publication will be available at the conclusion of the solicitation process.

## II. SOLICITATION DETAILS

### A. SOLUTIONS-BASED SOLICITATION

This RFP and contract award process is a solutions-based solicitation; meaning that Sourcewell is seeking equipment, products, or services that meet the general requirements of the scope of this RFP and that are commonly desired or are required by law or industry standards.

**B. REQUESTED EQUIPMENT, PRODUCTS, OR SERVICES**

It is expected that proposers will offer a wide array of equipment, products, or services at lower prices and with better value than what they would ordinarily offer to a single government entity, a school district, or a regional cooperative.

1. Sourcewell is seeking proposals for Automobiles, SUVs, Vans, and Light Trucks with Related Equipment and Accessories, including, but not to be limited to:

- a. Vehicles of the following types and classifications:
  - i. Automobiles: mini, subcompact, compact, coupe, sedan, and full-size;
  - ii. Sport Utility Vehicles: cross-over, light duty, and heavy duty;
  - iii. Vans: passenger and cargo;
  - iv. Trucks: light duty, half ton, three-quarter ton, and one ton; and
  - v. Vehicles of the varieties described in subsections 1. a. i – iv. above, with upfitting designed for Public Safety applications, such as equipment, lighting, technology, and accessories.
- b. A wide range of vehicles by: 1) engine type, to include conventional internal combustion, natural gas or propane autogas, hybrid or alternative fuel, and electric powered solutions; 2) seating or cargo configurations, drive train options, and trim levels; and, 3) optional equipment offerings.
- c. Proposers may include related equipment, accessories, supplies, parts, and services to the extent that the solutions are an incidental portion of the response.

2. This solicitation does not include those equipment, products, or services covered under categories included in contracts currently maintained by Sourcewell:

- a. Ambulance and Emergency Medical Transport Vehicles, with Related Equipment, Accessories, And Supplies (RFP #022118);
- b. Firefighting Apparatus, with Related Equipment, Accessories, and Supplies (RFP #022818);
- c. Class 4-8 Chassis with Related Equipment, Accessories, and Services (RFP #060920);
- d. School Buses with Related Accessories, Supplies, Parts, and Services (RFP #063020); and,
- e. Electric Vehicle Supply Equipment and Related Services (RFP #042221).

Generally, the solutions for Participating Entities are turn-key solutions, providing a combination of equipment, products and services, delivery, and installation to a properly operating status. However, equipment or products only solutions may be appropriate for situations where Participating Entities possess the ability, either in-house or through local third-party contractors, to properly install and bring to operation the equipment or products being proposed.

Sourcewell prefers suppliers that provide a sole source of responsibility for the equipment, products, and services provided under a resulting contract. If proposer is including the equipment, products, and services of its subsidiary entities, the proposer must also identify all included subsidiaries in its proposal. If proposer requires the use of distributors, dealers, resellers, or subcontractors to provide the equipment, products, or services, the proposal must address how the equipment, products or services will be provided to Participating Entities, and describe the network of distributors, dealers, resellers, and/or subcontractors that will be available to serve Participating Entities under a resulting contract.

Sourcewell desires the broadest possible selection of equipment, products, and services being proposed over the largest possible geographic area and to the largest possible cross-section of Sourcewell current and future Participating Entities.

#### C. REQUIREMENTS

It is expected that proposers have knowledge of all applicable industry standards, laws, and regulations and possess an ability to market and distribute the equipment, products, or services to Participating Entities.

1. Safety Requirements. All items proposed must comply with current applicable safety or regulatory standards or codes.
2. Deviation from Industry Standard. Deviations from industry standards must be identified with an explanation of how the equipment, products, and services will provide equivalent function, coverage, performance, and/or related services.
3. New Equipment and Products. Proposed equipment and products must be for new, current model; however, proposer may offer certain close-out equipment or products if it is specifically noted in the Pricing proposal.
4. Delivered and operational. Unless clearly noted in the proposal, equipment and products must be delivered to the Participating Entity as operational.
5. Warranty. All equipment, products, supplies, and services must be covered by a warranty that is the industry standard or better.

#### D. ANTICIPATED CONTRACT TERM

Sourcewell anticipates that the term of any resulting contract(s) will be four years, with an optional one year extension that may be offered based on the best interests of Sourcewell and its Participating Entities.

#### E. ESTIMATED CONTRACT VALUE AND USAGE

Based on past volume of similar contracts, the estimated annual value of all transactions from contracts resulting from this RFP are anticipated to be USD \$300 Million; therefore, proposers are expected to propose volume pricing. Sourcewell anticipates considerable activity under the

contract(s) awarded from this RFP; however, sales and sales volume from any resulting contract are not guaranteed.

#### F. MARKETING PLAN

Proposer's sales force will be the primary source of communication with Participating Entities. The proposer's Marketing Plan should demonstrate proposer's ability to deploy a sales force or dealer network to Participating Entities, as well as proposer's sales and service capabilities. It is expected that proposer will promote and market any contract award.

#### G. ADDITIONAL CONSIDERATIONS

1. Contracts will be awarded to proposers able to best meet the need of Participating Entities. Proposers should submit their complete line of equipment, products, or services that are applicable to the scope of this RFP.
2. Proposers should include all relevant information in its proposal, since Sourcewell cannot consider information that is not included in the proposal. Sourcewell reserves the right to verify proposer's information and may request clarification from a proposer, including samples of the proposed equipment or products.
3. Depending upon the responses received in a given category, Sourcewell may need to organize responses into subcategories in order to provide the broadest coverage of the requested equipment, products, or services to Participating Entities. Awards may be based on a subcategory.
4. A proposer's documented negative past performance with Sourcewell or its Participating Entities occurring under a previously awarded Sourcewell contract may be considered in the evaluation of a proposal.

### **III. PRICING**

#### A. REQUIREMENTS

All proposed pricing must be:

1. Either Line-Item Pricing or Percentage Discount from Catalog Pricing, or a combination of these:
  - a. **Line-item Pricing** is pricing based on each individual product or services. Each line must indicate the proposer's published "List Price," as well as the "Contract Price."
  - b. **Percentage Discount from Catalog or Category** is based on a percentage discount from a catalog or list price, defined as a published Manufacturer's Suggested Retail Price (MSRP) for the products or services. Individualized percentage discounts can be applied to any number of defined product groupings. Proposers will be responsible for providing and maintaining current published MSRP with Sourcewell, and this pricing must be included in its proposal and provided throughout the term of any Contract resulting from this RFP.

2. The proposer's not to exceed price. A not to exceed price is the highest price for which equipment, products, or services may be billed to a Participating Entity. However, it is permissible for suppliers to sell at a price that is lower than the contracted price.
3. Stated in U.S. and Canadian dollars (as applicable).
4. Clearly understandable, complete, and fully describe the total cost of acquisition (e.g., the cost of the proposed equipment, products, and services delivered and operational for its intended purpose in the Participating Entity's location).

Proposers should clearly identify any costs that are NOT included in the proposed product or service pricing. This may include items such as installation, set up, mandatory training, or initial inspection. Include identification of any parties that impose such costs and their relationship to the proposer. Additionally, proposers should clearly describe any unique distribution and/or delivery methods or options offered in the proposal.

#### B. ADMINISTRATIVE FEES

Proposers are expected to pay to Sourcewell an administrative fee in exchange for Sourcewell facilitating the resulting contracts. The administrative fee is normally calculated as a percentage of the total sales to Participating Entities for all contracted equipment, products, or services made during a calendar quarter, and is typically one percent (1%) to two percent (2%). In some categories, a flat fee may be an acceptable alternative.

#### IV. CONTRACT

Proposers awarded a contract will be required to execute a contract with Sourcewell (see attached template). Only those modifications the proposer indicates in its proposal will be available for discussion. Much of the language in the Contract reflects Minnesota legal requirements and cannot be altered. Numerous and/or onerous exceptions that contradict Minnesota law may result in the proposal being disqualified from further review and evaluation.

To request a modification to the template Contract, a proposer must submit the Exceptions to Terms, Conditions, or Specifications table with its proposal. Only those exceptions noted at the time of the proposal submission will be considered.

Exceptions must:

1. Clearly identify the affected article and section.
2. Clearly note the requested modification; and as applicable, provide requested alternative language.

Unclear requests will be automatically denied.

Only those exceptions that have been accepted by Sourcewell will be included in the contract document provided to the awarded supplier for signature.

If a proposer receives a contract award resulting from this solicitation it will have up to 30 days to sign and return the contract. After that time, at Sourcewell's sole discretion, the contract award may be revoked.

## V. RFP PROCESS

### A. PRE-PROPOSAL CONFERENCE

Sourcewell will hold an optional, non-mandatory pre-proposal conference via webcast on the date and time noted in the Solicitation Schedule for this RFP and on the Sourcewell Procurement Portal. The purpose of this conference is to allow potential proposers to ask questions regarding this RFP and Sourcewell's competitive contracting process. Information about the webcast will be sent to all entities that have registered for this solicitation opportunity through their Sourcewell Procurement Portal Supplier Account. Pre-proposal conference attendance is optional.

### B. QUESTIONS REGARDING THIS RFP AND ORAL COMMUNICATION

All questions regarding this RFP must be submitted through the Sourcewell Procurement Portal. The deadline for submission of questions is found in the Solicitation Schedule and on the Sourcewell Procurement Portal. Answers to questions will be issued through an addendum to this RFP. Repetitive questions will be summarized into a single answer and identifying information will be removed from the submitted questions.

All questions, whether specific to a proposer or generally related to the RFP, must be submitted using this process. Do not contact individual Sourcewell staff to ask questions or request information as this may disqualify the proposer from responding to this RFP. Sourcewell will not respond to questions submitted after the deadline.

### C. ADDENDA

Sourcewell may modify this RFP at any time prior to the proposal due date by issuing an addendum. Addenda issued by Sourcewell become a part of the RFP and will be delivered to potential proposers through the Sourcewell Procurement Portal. Sourcewell accepts no liability in connection with the delivery of any addenda.

Before a proposal will be accepted through the Sourcewell Procurement Portal, all addenda, if any, must be acknowledged by the proposer by checking the box for each addendum. It is the responsibility of the proposer to check for any addenda that may have been issued up to the solicitation due date and time.

If an addendum is issued after a proposer submitted its proposal, the Sourcewell Procurement Portal will WITHDRAW the submission and change the proposer's proposal status to INCOMPLETE. The proposer can view this status change in the "MY BIDS" section of the

Sourcewell Procurement Portal Supplier Account. The proposer is solely responsible to check the “MY BIDS” section of the Sourcewell Procurement Portal Supplier Account periodically after submitting its proposal (and up to the Proposal Due Date). If the proposer’s proposal status has changed to INCOMPLETE, the proposer is solely responsible to:

- i) make any required adjustments to its proposal;
- ii) acknowledge the addenda; and
- iii) ensure the re-submitted proposal is received through the Sourcewell Procurement Portal no later than the Proposal Due Date and time shown in the Solicitation Schedule above.

#### D. PROPOSAL SUBMISSION

Proposer’s complete proposal must be submitted through the Sourcewell Procurement Portal no later than the date and time specified in the Solicitation Schedule. Any other form of proposal submission, whether electronic, paper, or otherwise, will not be considered by Sourcewell. **Late proposals will not be considered.** It is the proposer’s sole responsibility to ensure that the proposal is received on time.

It is recommended that proposers allow sufficient time to upload the proposal and to resolve any issues that may arise. The time and date that a proposal is received by Sourcewell is solely determined by the Sourcewell Procurement Portal web clock.

In the event of problems with the Sourcewell Procurement Portal, follow the instructions for technical support posted in the portal. It may take up to 24 hours to respond to certain issues.

Upon successful submission of a proposal, the Sourcewell Procurement Portal will automatically generate a confirmation email to the proposer. If the proposer does not receive a confirmation email, contact Sourcewell’s support provider at [support@bidsandtenders.ca](mailto:support@bidsandtenders.ca).

To ensure receipt of the latest information and updates via email regarding this solicitation, or if the proposer has obtained this solicitation document from a third party, the onus is on the proposer to create a Sourcewell Procurement Portal Supplier Account and register for this solicitation opportunity.

Within the Sourcewell Procurement Portal, all proposals must be digitally acknowledged by an authorized representative of the proposer attesting that the information contained in the proposal is true and accurate. By submitting a proposal, proposer warrants that the information provided is true, correct, and reliable for purposes of evaluation for potential contract award. The submission of inaccurate, misleading, or false information is grounds for disqualification from a contract award and may subject the proposer to remedies available by law.

#### E. GENERAL PROPOSAL REQUIREMENTS

Proposals must be:

- In substantial compliance with the requirements of this RFP or it will be considered nonresponsive and be rejected.
- Complete. A proposal will be rejected if it is conditional or incomplete.
- Submitted in English.
