

MEMORANDUM

To: John Schweigerdt, CASp, CFM
 City of Stockton
 Community Development Department
 345 North El Dorado Street
 Stockton, CA 95202

From: Kevin J. Genasci, PLS

Date: January 6, 2025

Re: Conway Homes 200 Year Water Surface Elevation Determination

200 Year-Flood Elevation Determination:

The 200-year flood water surface elevation for the above referenced project was determined by reviewing the 1-foot water surface contours as shown on the 200 Year Floodplain Viewer linked through the San Joaquin County Department of Public Works Flood Protection Information page:

<http://sjc-gis.maps.arcgis.com/apps/webappviewer/index.html?id=3b352a92c2c142ccb07266fd69fe1fb>

The site was accessed on November 4, 2025. A linear interpretation was performed between the 14-foot and 13-foot contours and the value for the project site was rounded to the nearest tenth of a foot. The 200-year flood water surface elevation was determined to be 13.9'.
